JOINT MEETING OF BAUS
ENDO & BSUR 2023

14-15 SEPTEMBER 2023
HARROGATE CONVENTION CENTRE

Welcome from the President Jo Cresswell

ANNUAL
MEETING
19-21 June

Welcome to BAUS 2023...

BAUS June 2022 was certainly noteworthy for me personally, as Tim O'Brien passed on the baton of Presidency. It was also a very special meeting for everyone who participated. The event felt so refreshing after 2 years of COVID and the virtual world, and also quite different as BAUS the organisation entered a new and exciting phase. We could see all the behind-the-scenes work on widening participation come to fruition with a real sense of community and belonging for everyone.

BAUS 2023 promises to be even more exciting and innovative. We have learned so much about the value of face-to face events and the types of sessions that flourish when we get together. The program put together by Ian Pearce, Joe Philip and our excellent events team of Harry Heald and Athene Madden, is incredibly varied and informative. Widening Participation continues to be central to all that we do, and our first session considers how we use language and the impact it has, closely followed by the intriguing topic of unexplained urological symptoms. Each morning the first hour showcases one plenary session where we can all share important topics before moving to multiple rooms for more in depth topics.

Part of widening participation is regional engagement. It has been my pleasure to join so many of the regional meetings over the last 6 months and to see the very high standards of presentations. Thank you for making me so welcome. Delighted that we can showcase the best papers from every region in our TUF-BAUS Best Regional Paper session. Thank you to TUF for sponsoring and providing a prize for the overall champion. Great to see the "Poster from every unit" back again.

BAUS is a community for UK Urology, however, we are also a very outward-looking organisation with partnerships and collaborations around The Globe. I am delighted to welcome so many leaders of Urology from around the world. Our international guests will contribute to many sessions with their subspecialist expertise and a lively look at the politics of urology. The theme of global urology runs through the whole meeting. Our BAUS community is compact enough for everyone to meet, interact with and debate the nuances of urology with all our key opinion leaders. Come and be part of the conversation.

All of our specialty sections are delivering cutting edge science and debate addressing the controversies and myths which are currently topical. BSoT and BURST are once again delivering some exciting and novel sessions that are likely to attract many of us, trainee or not. Our SAS@BAUS group will welcome myself and Neil Mortenson, President of the RCS England, to their session discussing the way ahead.

Throughout the last 2 years, one colleague has never ceased to inspire me. Mo Belal is an incredible example to us all in how to face adversity, and I am delighted that he will give this year's BAUS lecture – this is one of those sessions you will talk about for years.

The BAUS medals are being awarded to an amazing group of people. Its always a tough ask to select from such a high calibre field – I am sure you will agree that all are very well-deserved. It is my honour to bestow the medals to such an outstanding group of colleagues. Congratulations to James N'Dow, Rajeev TP, Abhay Rane, Grant Stewart, Suzanne Biers, Charles Reynolds. Join us at the Library of Birmingham to celebrate their achievements as you meet up with old and new friends.

I am enormously grateful to all those who have worked hard to deliver another incredible meeting. Once again, our sponsors are hugely supportive to BAUS. We are very lucky to have such warm and collaborative relationships. The provision of lunch in the Exhibition Hall gives us plenty of opportunity to talk to our industry partners. I reserve a particular mention to Ian Pearce who has worked tirelessly for BAUS as our Honorary Secretary over the last 2 years. It's not goodbye to Ian, however, as he continues as BAUS Vice-President.

A final message to you all, is that we really do welcome suggestions for sessions at our Annual Scientific Meeting for 2024. Please do talk with us early if you have ideas, as the program is often fairly well developed by September for the following June.

Looking forward to seeing you all in Birmingham.

Best wishes

Jo Cresswell

President

HAVE A QUESTION FOR
YOUR PRESIDENT?

PRESIDENT'S ADDRESS
AND Q&A

21 June, 09.30-10.00 Hall 1

Welcome from the Honorary Secretary Ian Pearce

ANNUAL
MEETING
19-21 June

Following on from the huge success of BAUS 2022 in Birmingham, I am absolutely delighted to be able to welcome you back for what will surely be a great example of the sequel eclipsing the original!!

Of course, I write this and welcome you to BAUS 2023 on behalf not only of Joe Philip, and the incredibly capable events team that is Harry Heald and Athene Madden, but also on behalf of the wider group of amazing friends and colleagues who have given up so much of their time, energy and passion to generate and deliver this meeting.

I'm sure many of you will remember with great pleasure and fondness, our last meeting here in June 2022 which marked a post pandemic return to face to face meetings. In 2023 the format remains the same with every subspecialty featured on every day allowing all of us the luxury of greater choice, variety and content.

We are proud to offer almost 40 hours of specialty content, 13 ePoster sessions, multiple guest lectures and of course daily plenaries and sub-plenaries. Our starter sessions return for Tuesday and Wednesday, some revisiting, some new to the fray. These cover a vast spectrum from art and the history of urology through curriculum changes, andrology tips and trick and onto "Outside the Clinical Box". All set for an 8 'o'clock start, I am sure these will more than compensate for that lost hour in bed!

With over 20 guest speakers from across the globe, representatives from all the world's major national urological associations, and an anticipated 1,500 delegates, this meeting comes with endless potential and opportunities to network, make new acquaintances and forge lasting friendships and collaborations.

Once again, we will be opening the meeting with a social event on the Sunday evening at the renowned and celebrated Library of Birmingham literally just next door to the ICC. Those of us who were lucky enough to make it to the same event last year will appreciate what a fantastic evening this promises to be. Canapes, drinks, chat and laughter will be in abundance, and this really is the perfect opportunity to catch up with friends and colleagues from afar.

The scientific meeting and exhibition hall will open bright and early at 09.00 on the Monday and we kick off with "The Language of Urology" widening participation plenary session. This movement within BAUS has brought extra-ordinary change within the organization and a change that each and every member of BAUS should be deservedly proud. Never before has BAUS been so inclusive of all its members and this vein has been central to BAUS 2023 from beginning to end, just as it was in 2022. Please join us in Hall 1 for what will be an amazing and thought-provoking session without doubt.

Please do make a special effort to attend the BAUS AGM at 12.00 to 12.30 in Hall 1 on Tuesday 20th June – BAUS is very much a member organization, and this is everyone’s opportunity to gain a greater understanding of the inner machinations of your specialty association.

Come to Hall 1 at 09.30 on Wednesday for the Presidential address followed by Q and A – always a lively engaging and informative session. Perhaps you have a burning question or comment to make? We would love to hear from you. This runs seamlessly into the St Paul’s and St Peter’s medal ceremony and then at 10.30 Mo Belal will deliver the BAUS Guest Lecture. If there is one thing not to miss at BAUS 2023, it is this session. I absolutely guarantee that this 30 minutes will have a lifelong lasting impression on you.

Closing the meeting in Hall 1 on Wednesday afternoon will be a pan-specialty guideline update, a 90-minute tour de force very much in keeping with the theme of “everything for everyone” and probably one of the most time efficient educational sessions you will find. This then leads to the poster from every unit session, a chance to learn from each and every unit from around the UK and depart Birmingham awash with practice innovating ideas.

Throughout the meeting, please do visit the exhibition hall and the plethora of trade stands, our industry partners and sponsors have once again provided immense support for BAUS throughout the year as they have in all previous years. Our satellite sessions as always will prove to be cutting edge events delivered by key opinion leaders and the exhibition hall will again generate and enjoy the BAUS Buzz!

This meeting marks the end of my tenure as BAUS Honorary Secretary, a role I have enjoyed immensely, primarily because of the people I have been fortunate enough to have worked with and come into contact with throughout. I am deeply grateful to all my friends and colleagues who have contributed to this and previous meetings, far too numerous to mention individually but I appreciate you will all know who you are.

To the BAUS Section Secretaries, Council, Trustees and the Exec Team, thank you for your endless patience, ideas and feedback. Again, this meeting could not take place without you. Special thanks also to Harry and Athene – their unique blend of patience, effectiveness, charm and energy has made my job an absolute joy.

My final word is to thank Joe Philip for his outstanding friendship, support and contribution, and of course to welcome him in as Honorary Secretary. I know he will do a perfect job and wish him all the very best.

Look forward to seeing you all in Birmingham.

Best wishes

Ian Pearce

Honorary Secretary

BAUS ANNUAL MEETING
2024

ICC BIRMINGHAM
24-26 JUNE

Abstract Book

Abstracts will be available online in the Conference Edition of the JCU from 7am on Monday 19 June.

Accommodation

BAUS is pleased to offer delegates an accommodation booking service provided by Reservation Highway, the official accommodation providers for BAUS 2023. Please book early to secure your preferred hotel - availability in June 2023 is likely to be extremely busy due to sporting events taking place in Birmingham.

[Click here](#) to book your accommodation.

Reservation Highway can assist with any bookings, particularly larger groups.

Tel : +44 (0) 1423 525577

Email: admin@reservation-highway.co.uk

Badge Scanning

We will be using badge scanning as lead retrieval. Exhibitors can hire scanners and scan delegate badge barcodes to download the following information:

- **Name, Job Title, Place of Work**
(as you specify on your online registration form)
- **Work Email address**
(as you specify on your online registration form)

You will receive 1 CME point for attending a Satellite Symposium and getting your badge scanned, badge scanning by exhibitors is not compulsory. If you DO NOT wish to disclose this information to exhibitors, then do not allow your badge to be scanned. Please Note: BAUS Staff will scan you on the entrance into all sessions; this is purely for a count of attendance at the sessions.

BAUS 2023 Hybrid Format

We are pleased to be returning to a face-to-face format for BAUS 2023 at the ICC Birmingham. Virtual attendance will be available, and content will be streamed live from the ICC Birmingham and available to watch via the BAUS 2023 Platform.

Certificate of Attendance

Certificates will be emailed to delegates from Wednesday 28th June. Certificates for onsite Teaching & Skills courses will only be issued to those whose attendance is registered by a member of staff.

Clean Air Zone

Birmingham operates a clean air zone. No vehicle is banned from the zone, but vehicles of specified classes that do not meet emissions standards will be required to pay a daily charge if travelling within the area. You can check if your car is eligible to drive within the Clean Air Zone without charge by visiting www.brumbreathes.co.uk. The daily charges apply to the following vehicles: cars, taxis, LGVs, HGVs, coaches and buses and range from £8 for a private car to £50 for HGVs. The criteria for not incurring a charge differs across diesel, petrol, gas, electric and hybrid vehicles. For further information, please [click here](#). For further information, please [click here](#).

Cloakroom

The complimentary Cloakroom is located along the main concourse and will be open at the following times:

Monday 19 June	0730-1930
Tuesday 20 June	0700-1900
Wednesday 21 June	0700-1700

Conference Catering

Delegate registrations will include complimentary lunch each day. Street-Food lunch will be served on Monday 19 June & Tuesday 20 June from 12.30-14.00 and Deli Bistro lunch will be served on Wednesday 21 June from 13.00-14.00. Lunch will be available from Exhibition Hall 3.

Dietary requirements will be requested at the time of registration. Please note we endeavour to accommodate all dietary requirements where possible with each venue. However, not all dietary requirements or preferences can be accommodated. If you would like further information, please email events@baus.org.uk

Continuing Medical Education

This meeting has been accredited with CME points as follows:

Monday 19 June	6 points
Tuesday 20 June	6 points
Wednesday 21 June	6 points

The Satellite Sessions are each accredited with 1 CME point.

Creche

There will be a creche facility provided at BAUS 2023. The creche will be run by Nipperbout who will run a daily timetable of activities. The creche will be FREE, however, we require all those who would require use of this facility to indicate during the online registration system; places are extremely limited, so please book early to avoid disappointment. Please note if you book a place and do not turn up you are denying someone a place.

There will also be a dedicated room to parents attending BAUS 2023, for feeding and storage of family equipment.

The creche will be open at the following times:

Monday 19 June	0830 - 1830
Tuesday 20 June	0830 - 1830
Wednesday 21 June	0830 - 1630

The Creche will close each day for an hour over the lunch period (12.30-13.30). This allows creche staff a break. Parents will therefore have to collect their child and feed them. Children can be returned when the creche reopens at 13.30. Nipperbout supply a healthy morning and afternoon snack. Important: Four hours is the maximum time a child can stay in a crèche without being collected for food (Three hours for children aged three years and under).

Delegate Badges

For security purposes, all delegates and exhibitors must always wear the official BAUS 2023 delegate badge to be admitted to the conference centre and social events. Badges will be issued from the badge kiosks by the Registration Desk.

ePoster Sessions

Full details of the presenters and ePosters will be available on the BAUS 2023 platform.

Exhibition - Location and Opening Hours

The exhibition is in Hall 3 of the ICC Birmingham and will be open at the following times:

Monday 19 June	0900 - 1845
Tuesday 20 June	0830 - 1800
Wednesday 21 June	0830 - 1415

Please Note: Entry to the conference or exhibition is NOT available to personnel from commercial companies who do not have an exhibition stand.

Media Check-In

Media Check-In will be located near Hall 1 and a short walk from the Registration Foyer. Media Check-In will be clearly signed, and all speakers & presenters are required to upload slides via Media Check-In. Media Check-In will be open at the following times:

Monday 19 June	0730 - 1800
Tuesday 20 June	0700 - 1800
Wednesday 21 June	0700 - 1415

Full AV information will be sent to all speakers well in advance of the meeting. Any queries prior to the meeting should be directed to BAUS Events (events@baus.org.uk).

Photography

BAUS 2023 will have an official photographer and videographer who will be operating onsite. By registering for BAUS 2023, photographs may be taken, and this footage may be used by the organisers for marketing purposes. If you require further information on this, please email BAUS Events (events@baus.org.uk).

Poster From Every Unit

Urology units have submitted a piece of work of their choosing for inclusion in the "Poster from Every Unit" initiative. Posters will illustrate any ongoing or completed urological work, research, audit, or QIP or an account of service delivery or expansion.

Posters will be on display for the duration of BAUS 2023 in the Hall 1 Foyer.

Prayer Room

A room will be available to delegates throughout the conference for private religious observance, please ask the BAUS Registration Desk for further details.

Press Attendance

We are pleased to welcome members of the press to attend BAUS 2023 and obtain a complimentary Press Pass. If you would like a Press Pass for BAUS 2023, please email BAUS Events (events@baus.org.uk) and we ask that you send any of the following:

- Media identification, such as an international accredited press pass;
- Business card stating affiliation and position e.g. editor, publisher, writer, reporter etc; or
- Letter on official letterhead from the editor of a publication/website certifying the affiliation, verifying assignment to the meeting and including the editor's contact information

Programme

We will not have a printed programme for BAUS 2023. Delegates should instead use the BAUS 2023 Platform or save a copy of the Final Programme PDF to a tablet device. Printed 'Programme at a Glance' will be available to collect from the BAUS Registration Desk.

Registration Desk

The desk will be situated in the Registration Foyer outside the Exhibition Hall 3. It will be open at the following times:

Monday 19 June	0800 - 1800
Tuesday 20 June	0800 - 1800
Wednesday 21 June	0800 - 1415

Satellite Symposia

Satellite Symposia will be held in Hall 1.

Scientific Session Access

Scientific sessions are only open to registered delegates. **Please Note:** delegate registration and entry to the conference or exhibition is NOT available to personnel from commercial companies who do not have an exhibition stand.

Sustainability

For more information of ICC Birmingham's sustainability credentials, please visit: www.theicc.co.uk/about-us/sustainability/

We will have various water refill points available throughout the venue and encourage delegates to bring their own water bottles and re-usable coffee mugs.

Teaching & Skills Courses

The Teaching courses: Paediatric Urology, JCU How to Write a Paper and Successful Grant Application, Urogenital Dermatology, Simulated Course for Urology NTN Interviews, Good Urodynamics Practice and Updates in Stone Management and the following Skills courses: Ambulatory Treatment Options for Bladder Outflow Obstruction (Advanced & Basic), Transperineal Biopsy of Prostate & Reading of MRI Scan and Introduction to Robotics will take place at the ICC Birmingham.

Places are strictly limited, and we encourage delegates to book early to avoid disappointment. Certificates for onsite Teaching & Skills courses will only be issued to those whose attendance is registered by a member of staff.

Travel and Parking

Birmingham is easily reached from Birmingham Airport, with Birmingham New Street a 10-minute train ride from the terminal.

There are three train stations in the city centre, and all just a short walk from the ICC with New Street Station the closest.

Parking is available the Arena Birmingham (B1 2AA) for delegates travelling by car – charges apply. If you would like any further information or assistance, please visit: www.theicc.co.uk/find-us/

Twitter & Social Media

BAUS 2023 is on Twitter:

[@BAUSurology](https://twitter.com/BAUSurology)

#BAUS23

Delegates are reminded of the GMC and BMA guidance in respect to social media.

Venue

The ICC Birmingham
8 Centenary Square
Birmingham
B1 2EA
United Kingdom

Virtual Interaction

Q&A for virtual attendees will be available for all sessions taking place in Hall 1 only. There will be no Q&A for sessions taking place in Halls 4, 8, 9, 10, & 11. Virtual attendees can engage in discussion & debate with other virtual attendees via the chat function.

Watch it again

Recorded content from the meeting will be uploaded onto the BAUS 2023 platform and available to Watch Again for up to 6 months.

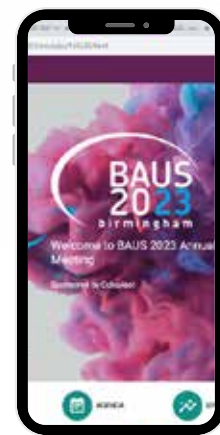

Wi-Fi

Wi-Fi is available for the duration of the meeting using the following details:

Username: **BAUS2023**

Password: **Birmingham2023**

All Conference content, speakers and timings are correct at time of publication. The Organisers cannot be held responsible for changes due to circumstances beyond their control, including the withdrawal of speakers from the programme, for any reason.

BAUS 2023 Platform

Web Access

Visit: <https://crowdcomms.com/baus2023>

Smartphone Access

To download the BAUS 2023 App search 'CrowdComms' on the Apple IOS or Android (Google Play) Store.

Enter the event code: **BAUS2023**. You will be required to enter your email address used to register for BAUS 2023. First time users will be required to set a password

Uncertainty in Environmentally Sustainable Surgery

This session will explore the NHS bid to reach NetZero by 2040 and the changes that can be made in the operating theatre to impact on this.

If Surgery is to expand, how do we do it without damaging the wider environment? Education, future proofing and filling knowledge gaps are keypoints. What does modern education also look like in a post covid era?

Monday 19 June: Bayer
1530-1600 Hall 1

The role of the Urologist in the MDT: optimising clinical practice for nonmetastatic castration resistant prostate cancer (nmCRPC) patients

This Bayer-sponsored symposium will provide a practical and collaborative view of how to improve the referral and management of patients with nmCRPC whilst in the urology clinic. Join us for in-depth discussion and expert insight from Professor Noel Clarke and Mr Gianmarco Isgro. This is a Bayer promotional meeting, Bayer products mentioned.

- Recent developments and insights in nmCRPC: from clinical data to realworld evidence – Professor Noel Clarke
- Managing nmCRPC patients in the Urology clinic and alleviating capacity challenges. A Case based discussion - Mr Gianmarco Isgro
- Panel discussion and Q&A

Noel Clarke
Professor of Urological Oncology, The Christie

BAUS Section of Andrology and Genito-Urethral Surgery Annual Meeting

ANNUAL
MEETING
19-21 June

Monday 19 June 1100-1230 & 1630-1730
Tuesday 20 June 1130-1230 & 1530-1630
Wednesday 21 June 1130-1300 & 1400-1500

Introduction

Marc Lucky, Chair, BAUS Section of Andrology and Genito-Urethral Surgery

Ayo Kalejaiye, Secretary, BAUS Section of Andrology and Genito-Urethral Surgery

Arie Parnham, Vice Chair, BAUS Section of Andrology and Genito-Urethral Surgery

A very warm welcome to BAUS 2023 in Birmingham. We are delighted that you can join us, and we have an exciting Andrology and Genitourinary Reconstruction program planned which should appeal to all. These three days will provide an exciting opportunity to discuss current issues in andrology and reconstructive surgery as well as provide opportunities to speak to and network with colleagues.

We kick things off on Monday morning at 1100 with an exciting session on Controversies in Andrology which should appeal to the wider audience. Here we will discuss topics such as bilateral testicular fixation in torsion - pros and cons. I will be speaking on managing patients with Chronic Genital Pain, which can be challenging and daunting. With the right approach and support, we can often help this group of patients considerably. We continue in the afternoon with a session on Fertility which is aimed towards the general urologist. There will be some interesting case presentations and MDT style discussions with wider audience participation.

On Tuesday, we are proud to hold the first ever joint AGUS & ESAU Session looking at Andrological Challenges. We have a panel of international experts, and this is a must attend for all! Without question it will provide valuable insights which will come in handy when dealing with complex patients in general clinics. In the afternoon, we have a new video session examining topics such as penile fracture, ejaculatory duct obstruction and the difficult foreskin. A must see for tips and tricks and surgical techniques.

We wrap things up on the Wednesday with a morning session on testicular cancer and management of interesting rare cases. Finally, we close with a session on penile lesions and cancer management followed by talks on urethral disease. The final talk of the day is by Professor Kulkarni on bladder neck stenosis. For those who have not had the pleasure of hearing him speak, it is an opportunity not to be missed.

On behalf of Arie, Ayo, myself and the committee, we look forward to welcoming you to our sessions and meeting you in person.

BAUS Section of Female, Neurological and Urodynamic Annual Meeting

ANNUAL
MEETING
19-21 June

Monday 19 June 1100-1230 & 1630-1730
Tuesday 20 June 1130-1230, 1400-1500 & 1530-1630
Wednesday 21 June 1400-1500

Introduction

Mo Belal, Chair, BAUS Section of Female, Neurological and Urodynamic Urology

Suzanne Biers, Secretary, BAUS Section of Female, Neurological and Urodynamic Urology

I am delighted to extend a warm welcome to BAUS 2023, on behalf of the BAUS Section of Female, Neurological and Urodynamic Urology. The FNUU subsection Committee; Suzanne Biers (Cambridge, Secretary) Arun Sahai (Vice Chair, London), Ased Ali (Wakefield), Hashim Hashim (Bristol), Magda Kuwaja (Stockport), Mahreen Pakzad (London), Tina Rashid (London), Naz Osman (Sheffield) and Andrew Kozan (BSOT rep) have created a dynamic and educational program for this three-day event.

The program will start on Monday with the Updates session, featuring updates from Chris Harding, Hashim Hashim, and Melissa Davies, the current chair of BAUS Fellowship, on the latest developments in research, clinical trials, publications, and fellowships. We are thrilled to have Chris Chermansky from the United States joining us to discuss the use of stem cells in treating urinary incontinence. Afterwards, we will have a joint session with oncology, with Professor Arnuf Stenzl, Alex Colquhoun, and Suzanne Biers discussing a multidisciplinary approach to premalignant and malignancy seen in functional patients. Sachin Malde and Helena Burden will lead a session on premalignant conditions, while Helena Gresty and Raj Nair will examine malignancy in the neuropathic and reconstructed urinary tract. Nikesh Thiruchelvam will be discussing urinary incontinence and LUTS after cancer surgery.

Tuesday's program includes two sessions. Tamsin Greenwell and Chris Harding will be leading a session on international stress incontinence management, featuring perspectives from Chris Chermansky, Helen O'Connell, and Zaki Almalleh. Later, Claire Taylor and Tom King will be leading a session on paediatric urology transition, with Charlotte Dunford, Andy Baird, and Mark Woodward joining the discussion. This will be followed by a session on managing chronic cystitis, led by Ased Ali and Helen O'Connell, with Mehwash Nadeem, Tom Lewis, and Ruth Doherty discussing bladder pain syndrome, chronic bacterial cystitis, and radiation cystitis.

Wednesday's schedule includes a session on FNUU consensus documents, led by Roland Morley, Tina Rashid, and Alison Downey. Magda Kujawa will provide updates on urethral diverticulum, while I will be discussing ketamine bladder. There will also be an ePoster session on Monday, featuring presentations from various UK functional units.

We also have two excellent teaching courses. Firstly, Neurourology for the General Urologist led by Sheilagh Reid is pre-recorded and available to watch on the BAUS 2023 Platform. The Good Urodynamics Practice led by Chris Harding & Laura Thomas will take place on Wednesday from 1130-1300; places are extremely limited.

I hope you will join us for as many FNUU sessions as possible and look forward to seeing you in person. On behalf of the FNUU subcommittee, I wish you a productive and enjoyable BAUS 2023.

Monday 19 June 1100-1230 & 1630-1730

Tuesday 20 June 1130-1230

Wednesday 21 June 1130-1230

Introduction

Sri Sriprasad, Chair, BAUS Section of Endourology

Hari Ratan, Secretary, BAUS Section of Endourology

BAUS 2023 promises to provide an excellent exposition of ever-increasing urological knowledge and a place for uplifting and relaxing social interaction with colleagues, friends and industry partners.

The section of endourology has put together a versatile and innovative programme to complement the rest of the meeting scheduled across all three days. We are sure that the topics will appeal to both subspecialist endourologists as well as to general urologists.

On Monday 19th June (1100-1230, hall 8), the invited speakers will answer the question "What's new in Endourology?". We look at advances in the follow up the small asymptomatic renal stone, management of stones in diabetics and advances in BPH and ureteroscopy. Our international guest speaker from the USA, Professor Mathew Sorensen will discuss burst wave lithotripsy.

Stents are a 'ticking time bomb' and on Monday afternoon (1630-1730, hall 8) the expert panel will discuss the HSIB report into delayed and forgotten stent removal, medicolegal implications of the 'forgotten stent' and current models in stent tracking. The clinical management of the 'forgotten stent' and the technical nuances of their removal are reviewed.

On Tuesday 20th June (1130- 1230, hall 9), a symposium addresses the management of simple stones in the complex patient, including stones in pregnancy, neuropaths, patients on anticoagulants and frail patients. This symposium is intended as a practical guide to helping manage these patients who we see increasingly frequently.

There are many controversies in endourology and an entire session on Wednesday 21st June (1130-1300, hall 8) features some crossfire debates on hot topics. Is metabolic evaluation useful in stone patients? Can bladder stone removal be combined with a BOO procedure? Is diagnostic ureteroscopy needed for all suspected UTUC? Old versus new lasers? All these topics will be debated by a lively panel!

Apart from this we have the usual favourites including the best ePosters selected from an array of great work that was submitted. The ePosters are innovative, thought provoking and demonstrate best practice for us to take back to our centres. Not to forget the educational courses on many endourological topics!

We are looking forward to seeing you all in Birmingham!

Monday 19 June 1100-1230 & 1630-1730

Tuesday 20 June 1530-1630

Wednesday 21 June 1130-1300

Introduction

Jon Aning, Chair, BAUS Section of Oncology

Vishwanath Hanchanale, Secretary, BAUS Section of Oncology

I am super happy to welcome you to BAUS 2023 on behalf of the Section of Oncology Committee. I am particularly grateful to our past secretary Alex Colquhoun who laid foundations and to present secretary Vishwanath Hanchanale who has led the composition of a packed, educational and exciting programme which will be delivered by an all-star faculty.

We will start on the Monday (1100 - 1230, Hall 4) with a focus on kidney cancer, including updates on the role of genomics by Thomas Mitchell, and a summary of developments in advanced disease management and surgical approaches by Sarika Nalagatla, Alex Bex, Aziz Gulamhusein and Naveen Vasudev. Mihir Desai will share his thoughts and experience of pushing the boundaries of robotic surgery in the kidney cancer space and I am delighted that Grant Stewart who will be providing uro-oncological leadership for the inaugural National Kidney Cancer Audit will be joining us for this session to inform us about the audit and share his insights.

On the Tuesday (1530 - 1630, Hall 4) we will switch to discuss upper-tract urothelial carcinoma (UTUC), 'the Cinderella tumour'. During this session Sir John Burn will discuss his research and provide insights into potential future screening approaches and there will be a comprehensive review of present urological and oncological management options for UTUC by Joe Philip, Morgan Roupret, Jose A. Karam and Alison Birtle. UTUC is an area of urology where there is room for improvement across the pathway so we hope that you will find this session stimulating.

On the Wednesday (1130 - 1300, Hall 4) we are providing a Pot-Pourri of Uro-Oncological excitement, including cutting edge updates on topics such as Theranostics in prostate cancer by Sobhan Vinjamuri, Seminoma management by Prabhakar Rajan, and local options for managing low-volume metastatic prostate cancer by Prasanna Sooriakumaran. Morgan Rouprêt will give his insights into the contemporary evidence for pelvic lymph node dissection in prostate cancer. Salah Albuheissi and Vishwanath Hanchanale will be sharing their experience of partial nephrectomy and robotic retroperitoneal lymph node dissection respectively. I am especially pleased that we have been able to include the patients voice in this session too - the preliminary analysis from the BAUS Section of Oncology cystectomy experience audit (C-PAT) will be presented in this session by Preksha Kuppanda.

All that is left to be said is, please check out the Bladder cancer, Renal cancer and Prostate Cancer abstract sessions, outstanding work is being presented across the board. Welcome and thank you to our session chairs and international faculty Mihir Desai (University of Southern California, USA), Morgan Rouprêt (Pitié-Salpêtrière Hospital, France), Jose Karam (MD Anderson, USA) for joining us at BAUS 2023 and sharing your perspectives. Thank you for reading this, we look forward to seeing you at the Section of Oncology sessions and have a great BAUS 2023.

Monday 19 June 1100-1200

Tuesday 20 June 1130-1230

Wednesday 21 June 1130-1315 & 1400-1500

Introduction

Nick Boxall, Chair, BAUS Section of Trainees (BSoT)

Yinka Gbolahan, Secretary, BAUS Section of Trainees (BSoT)

It is our pleasure to welcome you to the BAUS Section of Trainees' (BSoT's) programme at BAUS 2023. We continue to be affected by challenges in our training and we hope our 2023 programme focuses on some of these in an engaging and enjoyable way. We give special thanks to the contributions of the rest of the executive committee: Sophie Rintoul-Hoad (Ex-Vice Chair), Sarika Nalagatla (Chair-Elect) and Tony Tien (Vice Chair).

We kick off the programme with our 'Evolving Urological Family' session. Tony Tien will be setting the scene with the results of the BSoT Allied Health Professional Survey. This would be followed by talks from Nick Fletcher (Chair of Association of Surgical Care Practitioners), Chandran Francis (Vice president of Faculty of Physicians Associate RCP) and Khalid Hosney from our BAUS SAS doctors' group. We hope that this session will catalyse understanding on how we can all better work together in the urological community with ongoing workforce difficulties. This session will be chaired by Sarah Wood and Tony Tien.

On Monday afternoon there's BSoT's first e-poster session titled the 'Tackling of inequalities of Urological Healthcare Provision and Training'. This session aims to give a platform into research highlighting the problems of, and solutions to, inequalities faced for patients and colleagues. The session will be chaired by Tim Lane and Yinka Gbolahan.

It's an early rise for us on Tuesday morning as we start the day off right with our running shoes for our now established tradition of the 5km BSoT Fun Run for TUF along the Birmingham Canal with our new Race Director Eoin Dinneen.

Once we've freshened up, we roll into the morning session

'Between a Rock and a Hard Place: The Complex Decision-Making MDT' is our follow-on session on Tuesday afternoon. This session debates some of the tricky clinical decisions we make as urologists. We have a fantastic MDT consisting of not only seasoned pragmatic urologists, but our helpful anaesthetic and medical colleagues to help us through these difficult scenarios. This session will be chaired by Zoe Panayi and Eoin Dinneen.

We finish a packed Tuesday schedule by letting our hair down in the evening at the BSoT social with dinner and drinks kindly sponsored by Storz.

Wrapping up strongly on Wednesday we dive into "Challenging and Championing the Future of Urology" chaired by Nick Boxall and Sarika Nalagatla. This session includes talks from The Pride in Surgery Forum (PRISM), collaboration with industry as trainees and parenting in urology. We will conclude the session with the presentation of the Silver and Bronze Cystoscope Awards.

BAUS Section of Trainees (BSoT) continued

ANNUAL
MEETING
19-21 June

We end on Wednesday afternoon with 'Advanced Urological Procedures in Training'. Join us as we navigate mastering procedures such as HoLEP and urethroplasty, as well as complex sarcoma surgery and renal transplant. This session will be chaired by Katie Brodie and Mark Evans.

The BSoT family look forward to meeting and welcoming you all at BAUS 2023, and please don't forget to visit our stand to meet some of the team during the breaks!

1500-1530

The Urology Foundation Guest Lecture Survival of the Fittest

We are working in challenging times and now more than ever we look to our leaders. But what exactly is good leadership? How do you develop yourself as a leader and juggle multiple responsibilities? How do you create a successful, high performing, motivated team? We are delighted to welcome Sir Thomas Hughes-Hallett, renowned British barrister, investment banker and philanthropist who will share his experiences and insight into leadership.

Sir Thomas Hughes-Hallett, Non-Executive Chair of the Marshall Institute at the London School of Economics and the Chelsea and Westminster Hospital NHS Foundation Trust

Hall 1
1530-1600

Bayer Satellite Symposium

See page 23 for details

1530-1630

Refreshments, Networking and Exhibition Viewing

Hall 3 - Stand 230
1600-1620

BK Medical Sponsored Silent Symposium

Prostate MRI for the Urologist

John Leveckis, Doncaster Royal Infirmary

Hall 1
1630-1730

Delivering Urological Care – Workstream, and Models of Care, Meet Workforce

Chair: **Steve Payne**, BAUS Workforce Lead

1630-1635 **Introduction & Changes in Urological Working**

Steve Payne, BAUS Workforce Lead

1635-1645 **How Urology is Currently Delivered in the UK**

John McGrath, Royal Devon and Exeter Hospital

1645-1655 **Are We Keeping Up with the Need, Even Without the Pandemic?**

Ian Eardley, Leeds Teaching Hospital Trust and National Clinical Director Elective Care, NHS England

1655-1705 **The Urological Workforce and the Future.**

Justine Royle, Aberdeen Royal Infirmary and JCST Chair, SAC in Urology

- 1705-1715 **What BAUS Can do to Represent its Membership in the Politics/Manpower Conundrum**
Ian Pearce, Honorary Secretary and Vice-President Elect of BAUS and Manchester Royal Infirmary
- 1715-1730 **Q&A**

Hall 4
1630-1730

Joint FNUU & Oncology Session: When to Phone a Friend

Chairs: **Alexandra Colquhoun**, Addenbrooke's Hospital, Cambridge, **Arnulf Stenzl**, University of Tuebingen Department of Urology and **Suzanne Biers**, Addenbrooke's Hospital, Cambridge

- 1630-1645 **MDT Potential Pre-Malignant Lesions**
Sachin Malde, Guy's and St Thomas' NHS Trust, London
Helena Burden, Southmead Hospital, Bristol
- 1645-1700 **MDT Malignancy in Neuropathic & Reconstructed Urinary Tract**
Helena Gresty, University College Hospital London
Raj Nair, Guy's and St Thomas' NHS Trust, London
- 1700-1715 **Urinary Incontinence & LUTS After Cancer Surgery**
Nikesh Thiruchelvam, Addenbrooke's Hospital, Cambridge
- 1715-1730 **Q&A**

Hall 8
1630-1730

Stents – the Ticking Time Bomb

Chairs: **Susan Willis**, Guy's & St Thomas' Hospital, London and **Sachin Agrawal**, St Peter's Hospital, Chertsey

- 1630-1640 **Summary of HSIB Report and Recommendations**
Hari Ratan, Nottingham University Hospitals
- 1640-1650 **Medicolegal Implications of Delayed Stent Removal**
John McCabe, Whiston Hospital, Prescot, Merseyside
- 1650-1700 **Current Models of Stent Tracking**
Huw Garrod, Arrowe Park Hospital, Wirral
- 1700-1710 **Forgotten Stents MDT Panel Discussion**
- 1710-1730 **Q&A**

Hall 9
1630-1730

Infertility

Chairs: **Maria Satchi**, Darrent Valley Hospital and **Marc Lucky**, University Hospital Aintree, Merseyside

1630-1710 MDT Case Studies & Infertility

Case Presentation

Joachim Jimie, Aintree University Hospital, Liverpool

Panel

Nikolaos Sofikitis, University of Ioannina, Greece

Pippa Sangster, University College Hospital, London

Marij Dinkelman-Smit, Erasmus University Medical Center, Netherlands

Jonathan Ramsay, Hammersmith Hospital, London

1710-1730 Female Aspects of Fertility: What the Urologist Should Know?

Richard Russell, Consultant Gynaecologist & Subspecialist in Reproductive Medicine and Surgery, Hewitt Fertility Centre, Liverpool

Hall 1
1730-1800

Coloplast Satellite Symposium

See page 24 for details

Exhibition Hall 3
1800-1900

Drinks Reception, Networking and Exhibition Viewing

Hall 8
1400-1500

ePoster Session 1: Stones, Imaging and Upper Tract Disorders 1

Chairs: **Mathew Sorensen**, MD, Urology Clinic at UW Medical Center, Seattle, United States and **Sara Ramsey**, Raigmore Hospital, Inverness

Please see page 83 for the ePosters

Hall 9
1400-1500

ePoster Session 2: Andrology, Genitourethral Reconstruction, Infertility & Male Genital Cancers

Chairs: **Amerdip Birring**, Russells Hall Hospital, Dudley and **Abi Kanthabalan**, Alexandra Hospital, Redditch

Please see page 85 for the ePosters

Hall 10
1400-1500

ePoster Session 3: Female Urology and Bladder Dysfunction

Chairs: **Voula Granitsiotis**, Western General Hospital, Edinburgh and **Jaskarn Rai**, Leicester General Hospital

Please see page 87 for the ePosters

Hall 11A
1400-1500

ePoster Session 4: Renal Cancer / Testis Cancer / Sarcoma

Chairs: **James Forster**, Bradford Royal Infirmary and **Faith McMeekin**, Cheltenham General Hospital

Please see page 89 for the ePosters

Hall 10
1630-1730

ePoster Session 5: Management/Governance/Education/Quality Improvement

Chairs: **Rickaz Raheem**, Milton Keynes University Hospital and **Theodora Stasinou**, Salford Royal Hospital

Please see page 91 for the ePosters

Hall 11A
1630-1730

ePoster Session 6: Inequalities in Urological Healthcare Provision and Training

Chairs: **Tim Lane**, Lister Hospital, Stevenage and **Yinka Gbolahan**, Royal Free Hospital, London

Please see page 93 for the ePosters

Access Prescribing
Information here >

REFER EARLY. TREAT EARLY. DELAY DISEASE PROGRESSION. EXTEND LIFE.¹⁻³

Refer early. Treat early

Use ERLEADA® + ADT in patients with mHSPC and high-risk* nmCRPC to **delay disease progression† and extend life** vs PBO + ADT^{‡§**1-3}

Health Related Quality of Life

HRQoL was not compromised by the addition of ERLEADA® to ADT in mHSPC and high-risk* nmCRPC patients^{#115-8} PROs were prespecified exploratory endpoints and were assessed using the BPI-SF, BFI, FACT-P and EQ-5D-5L.^{2,11}

PSA response

In a post-hoc exploratory analysis, patients in both TITAN and SPARTAN who had rapid and deep declines in PSA following treatment with ERLEADA® + ADT had **more favourable HRQoL, outcomes and improved patient-reported physical wellbeing** compared to those who didn't achieve such a response^{¶4}

Safety Profile

ERLEADA® + ADT demonstrated a consistent and generally manageable safety profile. For full safety information, please refer to the SmPC^{1-3,9,10}

The most common adverse reactions are fatigue (26%), skin rash (26% of any grade and 6% Grade 3 or 4), hypertension (22%), hot flush (18%), arthralgia (17%), diarrhoea (16%), fall (13%), and weight decreased (13%). Other important adverse reactions include fractures (11%) and hypothyroidism (8%).^{8,9}

ERLEADA® is indicated:^{8,9}

- in adult men for the treatment of non-metastatic castration-resistant prostate cancer (nmCRPC) who are at high risk* of developing metastatic disease
- in adult men for the treatment of metastatic hormone-sensitive prostate cancer (mHSPC) in combination with androgen deprivation therapy (ADT)

*High risk defined as patients with a PSA doubling time of ≤ 10 months.^{9,10}

Medical castration with GnRH α should be continued during ERLEADA® treatment in patients who have not been surgically castrated.^{9,10}

[†]rPFS was a dual primary endpoint of the TITAN study: ERLEADA® + ADT rPFS was 68.2% vs 47.5% for PBO + ADT (median follow-up 22.7 months, HR=0.48; 95% CI, 0.39–0.60; P<0.001). rPFS was defined as the time from randomisation to first imaging based documentation of progressive disease or death, whichever occurred first.¹

[‡]OS was a dual primary endpoint of the TITAN study: ERLEADA® + ADT median OS was not reached vs 52.2 months with PBO + ADT (median follow-up 44.0 months, HR=0.65; 95% CI, 0.53–0.79; P<0.0001).²

[§]MFS was the primary endpoint of the SPARTAN study: ERLEADA® + ADT provided an additional 2 years' MFS vs PBO + ADT (40.5 vs 16.2 months, respectively, HR=0.28; 95% CI, 0.23–0.35; P<0.0001). MFS is defined as time from randomisation to the first detection of distant metastasis on imaging (assessed by blinded independent central review) or death from any cause, whichever occurred first.¹¹

[¶]As measured by FACT-P and BPI-SF patient reported outcomes.⁴

[#]Based on measurements of HRQoL at baseline and throughout treatment. HRQoL total score was a prespecified exploratory endpoint and was assessed using FACT-P and EQ-5D-5L.⁸

[‡]PROs were prespecified exploratory endpoints in TITAN and were assessed using the BPI-SF, BFI, FACT-P, and EQ-5D-5L.^{5,6}

^{**}Median OS was 73.9 months with ERLEADA® + ADT vs 59.9 months with PBO + ADT; HR=0.78; 95% CI, 0.64–0.96; P=0.016.³

ADT, androgen deprivation therapy; BFI, brief fatigue inventory; BPI-SF, brief pain inventory-short form; CI, confidence interval; EQ-5D-5L, EuroQol five-dimension, five-level questionnaire; FACT-P, functional assessment of cancer therapy-prostate; GnRH α , gonadotropin-releasing hormone analogue; HR, hazard ratio; HRQoL, health-related quality of life; MFS, metastasis-free survival; mHSPC, metastatic hormone-sensitive prostate cancer; nmCRPC, non-metastatic castration-resistant prostate cancer; OS, overall survival; PBO, placebo; PROs, patient-reported outcomes; PSA, prostate-specific antigen; rPFS, radiographic progression-free survival; SmPC, summary of product characteristics.

ICC Birmingham, Centenary Square Entrance

0700

BSoT Fun Run for TUF -

Join us to Jog, Chat, Walk – 5K. All Welcome!

BSoT are organising a very social 5km run to raise money for TUF. Sign up and join the #BSoTfunrunforTUF23 starting at 0700am outside ICC Birmingham Centenary Square Entrance. Bag drop will be available from 0700.

We are asking all runners to kindly pre-register to allow us to compile a list of participants (Health & Safety requirement). To do this please add “BSoT Fun Run” in the additional comments box when you make your donation. Suggested minimum donation is £15 per person - you can make your donation at [Home - The Urology Foundation](#).

Hall 8

0800-0900

Starter Session: Managing Emergencies I

Chairs: **Trevor Dorkin**, Freeman Hospital, Newcastle and **Raveen Sandher**, Guy's & St Thomas's Hospital, London

0800-0815

Penis – Fracture & Priapism

Rowland Rees, Southampton General Hospital

0815-0820

Q&A

0820-0835

Urethra – Trauma and Iatrogenic Injuries

Paul Anderson, Russells Hall Hospital, Dudley

0835-0840

Q&A

0840-0855

Urogenital – Fourniers and Foreign Bodies

Jonathan Barclay, The James Cook University Hospital, Middlesbrough

0855-0900

Q&A

Hall 9

0800-0900

Starter Session: Anatomical Drawing

Chair: **Mary Garthwaite**, Chair of The Urology Foundation

Faculty

Lucy Lyons, Lead tutor for SSC Anatomy and Art, MBBS, UCL Medical School and lecturer in Drawing and in Contextual Studies at The Margate School (ESADHaR).

Mary Garthwaite, Chair of The Urology Foundation

Sophia Cashman, Addenbrooke's Hospital, Cambridge

Hall 10

0800-0900

Starter Session: Outside the Clinical Box

Chairs: **Shalom Srirangam**, Royal Blackburn Hospital and **Maxine Tran**, Royal Free Hospital, London

0800-0810

Clinical Lead in Urology: Developing an Effective Service

Julian Smith, Southampton General Hospital

0810-0815

Q&A

0815-0825

How to Achieve Excellence in Surgical Education

Justine Royle, Aberdeen Royal Infirmary and JCST Chair, SAC in Urology

- 0825-0830 **Q&A**
- 0830-0840 **Why Bother with Procurement**
Fay Allen, NHS Supply Chain
- 0840-0845 **Q&A**
- 0845-0855 **Making Networks Work**
Ravi Barod, Royal Free Hospital, London
- 0855-0900 **Q&A**

Hall 11A
0800-0900

Starter Session: Museum of Urology ‘Sent to Coventry’

This session will be looking at two people in the history of urology who were, and to some extents still are, looked down on, both have been called quacks by their contemporaries and by subsequent historians. Roundheads and cavaliers all welcome - no one will be sent to Coventry!

- 0800-0820 **Joanna Stephens**
Kathryn Ball, Nottingham City Hospital
- 0820-0840 **Frere Jacque**
Jonathan Goddard, Leicester General Hospital
- 0840-0900 **Thomas Hollier**
Priya Kumar, University Hospital, Coventry

Hall 1
0900-0930

Janssen Satellite Symposium

See page 24 for details

Hall 1
0930-1100

Learning from the Law

Chair: **Tim O’Brien**, Past-President of BAUS & Guy’s Hospital, London

- 0930-1000 **Debate: Strategic Consent : “Urological Patients should sign consent for surveillance strategies”**
Case Presentation
Tim O’Brien, Past-President of BAUS & Guy’s Hospital, London
For the Motion
Vincent J Gnanapragasam, University of Cambridge
Against the Motion
Jonathan Glass, Guy’s & St Thomas’ Hospital, London
- 1000-1030 **“Montgomery 8 Years On” and Q&A**
Lauren Sutherland QC, Ampersand Advocates, Edinburgh and Byrom Street Chambers, Manchester
- 1030-1050 **“How to be sued” - Reflections on a Career as an Expert Witness**
John Reynard, Churchill Hospital, Oxford
- 1050-1100 **Q&A**

1100-1130

Refreshments, Networking and Exhibition Viewing

Hall 1

1130-1200

BJU International Guest Lecture: Integrated Care Boards - complicated plumbing or the route to improved flow systems?

Chair: **Alan McNeill**, Western General Hospital, Edinburgh, and Chair, BJU International

Nigel Acheson, Regional Medical Director, and Higher-Level Responsible Officer for the South Region of NHS England

Hall 4

1130-1230

Joint AGUS & ESAU Session: Andrology Challenges

Chairs: **Ayo Kalejaiye**, University Hospitals, Birmingham and **Majid Shabbir**, Guy's & St Thomas' Hospital

1130-1140 **Penile Cosmetic Surgery: The Good, the Bad & the Ugly (Penile Augmentation Debate)**

Suks Minhas, Charing Cross Hospital, London

1140-1145 **Discussion**

1145-1155 **Stuttering Priapism**

Eduard Ruiz Castañe, Fundación Puigvert, Barcelona

1155-1200 **Discussion**

1200-1210 **Circumcision in Obesity: To Circ or Not To Circ**

Carlo Bettocchi, Ospedali Riuniti University Hospital of Foggia, Italy

1210-1215 **Discussion**

1215-1225 **Management of Peno-Scrotal Hidradenitis Suppurativa**

Wai Gin (Don) Lee, University College Hospital, London

1225-1230 **Discussion**

Hall 8

1130-1230

International Perspective of Urinary Incontinence Management

Chairs: **Tamsin Greenwell**, University College Hospital, London and **Chris Harding**, Freeman Hospital, Newcastle-Upon-Tyne

1130-1145 **The American Perspective**

Chris Chermansky, University of Pittsburgh School of Medicine

1145-1200 **The Australian Perspective**

Helen E. O'Connell AO, President, Urological Society Australia and New Zealand (USANZ)

1200-1215 **The Middle East Perspective**

Zaki Almalleh, Cleveland Clinic Abu Dhabi

Hall 9
1130-1230

Simple Stones, Complex Patients

Chairs: **Matthew Bultitude**, Guy's & St Thomas' Hospital, London and **Amelia Pietropaolo**, Southampton General Hospital

- 1130-1140 **Stones in Pregnancy**
Sri Sriprasad, Darent Valley Hospital, Kent
- 1140-1150 **Stones in Neuropaths**
Stephanie Symons, Pinderfields Hospital, Wakefield
- 1150-1200 **Stones in Patients on Anticoagulation/Antiplatelet drugs**
Sudhakar George, Consultant Cardiologist, University Hospitals Birmingham NHS Foundation Trust
- 1200-1210 **Stones in Patients with High BMI**
Mathew Sorensen, MD, Urology Clinic at UW Medical Center, Seattle, United States
- 1210-1220 **Assessing Frail Stone Patients**
Mark Johnston, Consultant Geriatrician POPS Lead, Liverpool University Hospitals NHS Foundation Trust
- 1220-1230 **Q&A**

Hall 11A
1130-1230

Between a Rock and a Hard Place: Complex Decision-Making MDT

Chairs: **Zoe Panayi**, Royal Preston Hospital and **Eoin Dinneen**, University College Hospital, London

4 MDT Cases with Panel Discussion

Panel

Kieran O'Flynn, Salford Royal Hospital

Rachel Morrison, Harrogate District Hospital

Catherine Meilak, Perioperative Care of Older People undergoing Surgery (POPS) Consultant, East Kent Hospitals University NHS Foundation Trust

Joanna Mackie, Consultant Anaesthetist, Worcestershire Acute Hospitals NHS Trust

Hall 1
1200-1230

AGM

Chair: **Jo Cresswell**, President of BAUS and James Cook University Hospital, Middlesbrough

The AGM Agenda will be available to Members via the BAUS website.

Hall 3 - Stand 230
1230-1300

Janssen Sponsored Silent Symposium

Integrating Best Practice: How a United Approach Could Optimise the Patient Journey Through Prostate Cancer

Join us at our promotional Janssen-sponsored silent symposium that will feature pre-records from an expert faculty who will share their experiences and perspectives on how to treat and optimise quality of life for patients with metastatic hormone-sensitive prostate cancer (mHSPC) and non-metastatic castration-resistant prostate cancer (nmCRPC) and discuss case studies that illustrate referral management from urology to oncology.

Quality Care Matters as Much as Quality of Life

Alison Birtle, Consultant Clinical Oncologist and Honorary Clinical Professor, Lancashire Teaching Hospital NHS Foundation Trust

Optimising Referrals: Examples from Clinical Experience

Bhavan Rai, Consultant Urologist and Robotic Surgeon, Freeman Hospital, Newcastle Upon Tyne

1230-1400

Lunch, Networking and Exhibition Viewing

Hall 1
1315-1400

Boston Scientific Satellite Symposium

See page 25 for details

Hall 1
1400-1510

International British Urology Society: Pay, Pension & Tax

Chairs: **Sandeep Gujral**, Barking, Havering & Redbridge University Hospital and **Elizabeth Osinibi**, University College Hospital, London

1400-1425

Pension Scheme, Tax and Solution

Vishal Sharma, Consultant Cardiologist, Chair BMA Consultants Committee, Chair BMA Pensions Committee

1425-1450

Pay-Recommendations from the Doctors & Dentists Remuneration Body

Mike Henley, Consultant Urologist, BMA Council/Consultants Committee-Pay, T&C's Lead & Committee Deputy Chair.

1450-1500

Q&A and Summary

1500-1510

The IBUS PRISM Award

Ru MacDonagh, Musgrove Park Hospital, Taunton

Citation by **Jaimin Bhatt**, Queen Elizabeth University Hospital, Glasgow

Presented by **Subu Subramonian**, Queen Elizabeth University Hospital, Glasgow and Past President of IBUS

Hall 8
1400-1500

Paediatric Urology Transition Services

Chairs: **Claire Taylor**, Guy's & St Thomas' Hospital, London and **Thomas King**, Queen Elizabeth Hospital, Birmingham

- 1400-1410 **How to Set up a Paediatric Urology Transition Service**
Charlotte Dunford, Norfolk and Norwich University Hospital
- 1410-1430 **Congenital Abnormalities – Pitfalls and Top Tips**
Andrew Baird, Aintree University Hospital, Liverpool
- 1430-1445 **Nocturnal Enuresis in Adolescents**
Mark Woodward, Consultant Paediatric, Bristol Children's Hospital

Hall 11A
1400-1500

BURST: Research Updates

Chairs: **Veeru Kasivisvanathan**, University College Hospital, London, **Nikita Bhatt**, Addenbrookes Cambridge University Hospital and **Sinan Khadhour**, Aberdeen Royal Infirmary

- 1400-1415 **Welcome and General BURST Updates**
Veeru Kasivisvanathan, University College Hospital, London, **Nikita Bhatt**, Addenbrookes Cambridge University Hospital and **Sinan Khadhour**, Aberdeen Royal Infirmary
- 1415-1425 **Updates: RESECT**
Kevin Gallagher, Western General Hospital, Edinburgh
- 1425-1450 **Debate: TURBT Should Only Be Done on a Specialist List**
Chair: **Marcus Cumberbatch**, Royal Hallamshire Hospital, Sheffield
- For**
Param Mariappan, Western General Hospital, Edinburgh
- Against**
Helena Burden, Southmead Hospital, Bristol
- 1450-1500 **Guest Speaker: Leading an NIHR Trial as a Surgical Trainee**
Deena Harji, Consultant Colorectal Surgeon, Manchester University NHS Foundation Trust

Hall 11B
1400-1615

Core Trainees in Urology

Chair: **Anna O'Riordan**, Freeman Hospital, Newcastle-Upon-Tyne

- 1400-1410 **Introduction**
Anna O'Riordan, Freeman Hospital, Newcastle-Upon-Tyne
- 1410-1420 **Consent – Important Principles for the Budding Surgeon**
Anna O'Riordan, Freeman Hospital, Newcastle-Upon-Tyne
- 1420-1430 **Chaperone – Best Practice**
James Leighton, Freeman Hospital, Newcastle-Upon-Tyne

1430-1440 **LUTs - Assessment and Identification of the Surgical Candidate Presenting with LUTS**
Anna O’Riordan, Freeman Hospital, Newcastle-Upon-Tyne

Surgical Options for Treatment of LUTS - Options:

1440-1450 **TURP and Prostate Artery Embolisation**
Ishtiaqul Rizvi, James Cook University Hospital

1450-1500 **Holep and Urolift**
Ming He, Freeman Hospital, Newcastle-Upon-Tyne

1500-1510 **Green Light Laser and REzum**
Angus Luk, Freeman Hospital, Newcastle-Upon-Tyne

1510-1525 **Case scenarios / Discussion**

1525-1530 **Audit Competition Introduction**
Anna O’Riordan, Freeman Hospital, Newcastle-Upon-Tyne

1530-1540 **Audit Competition Presentation**

1540-1550 **Audit Competition Presentation**

1550-1610 **National Selection**
Bushra Abdelqader, St George’s University Hospitals NHS Trust

1610-1615 **Closing Remarks**
Anna O’Riordan, Freeman Hospital, Newcastle-Upon-Tyne

1500-1530 Refreshments, Networking and Exhibition Viewing

Hall 11A

1530-1630

BURST: Academia for Urology Trainees

Chairs: **Veeru Kasivisvanathan**, University College Hospital, London, **Nikita Bhatt**, Addenbrookes Cambridge University Hospital and **Sinan Khadhour**, Aberdeen Royal Infirmary

1530-1535 **Introduction to the Academic Session**
Sinan Khadhour, Aberdeen Royal Infirmary

1535-1550 **How to Achieve the Academic Requirement for Urology Registrars (CCT/CESR/ST3), Core Trainees and Medical Students (FY/CT/ACF)**
Nikita Bhatt, Addenbrookes Cambridge University Hospital - CCT/CESR
Kevin Byrnes, Barking, Havering and Redbridge University Trust - ST3
Alexander Ng, University College Hospital, London - FY/CT/ACF

1550-1625 **Interactive Roundtable: The “How” and “Why” of Research**
 Chairs: **Meghana Kulkarni**, St George’s NHS Foundation Trust, London, **Arjun Nathan**, Royal Free Hospital, London and **Kevin Byrnes**, Barking, Havering and Redbridge University Trust

Panel

Maxine Tran, Royal Free Hospital, London
Chris Harding, Freeman Hospital, Newcastle-Upon-Tyne
Nikesh Thiruchelvam, Addenbrooke's Hospital, Cambridge
Caroline Moore, University College Hospital, London
Imran Ahmad, Queen Elizabeth University Hospital, Glasgow
Sinan Khadhour, Aberdeen Royal Infirmary
Kevin Gallagher, Western General Hospital, Edinburgh
Aqua Asif, University College London, London

1625-1630

Summary and Closing Remarks

Veeru Kasivisvanathan, University College Hospital, London, **Nikita Bhatt**, Addenbrookes Cambridge University Hospital and **Sinan Khadhour**, Aberdeen Royal Infirmary

Hall 4

1530-1630

Upper-Tract Urothelial Carcinoma (The Cinderella tumour): Current Status and Future Directions

Chairs: **Bhavan Rai**, Freeman Hospital, Newcastle, **Stephen Bromage**, Stepping Hill Hospital, Stockport and **Tamsin Drake**, Royal Bournemouth General Hospital

1530-1540

Endoscopic Management of Upper Tract Urothelial Cancer (UTUC)

Joe Philip, BAUS Honorary Secretary Elect and Southmead Hospital, Bristol

1540-1555

Management of Lower End During Nephroureterectomy and is There a Role for Nephron-Sparing Surgery?

Morgan Rouprêt, Pitié-Salpêtrière Hospital, Paris, France

1555-1610

Lymphadenectomy during Nephroureterectomy- A Luxury or a Necessity?

Jose A. Karam, MD Anderson Cancer Center, Texas, United States and Assistant Secretary for Europe, Middle East and Africa, American Urological Association (AUA)

1610-1620

Genetic Screening for UTUC

Sir John Burn, Newcastle University

1620-1630

Systemic Options for UTUC: Adjuvant (POUT Trial)/ Neoadjuvant Chemo

Alison Birtle, Consultant Clinical Oncologist, Rosemere Cancer Centre, Lancashire Teaching Hospitals NHS Foundation Trust

Hall 8

1530-1630

How to Manage Chronic Cystitis

Chairs: **Ased Ali**, Pinderfields Hospital, Wakefield and **Helen E. O'Connell AO**, President, Urological Society Australia and New Zealand (USANZ)

1530-1545

Bladder Pain Syndrome

Mehwash Nadeem, James Cook University Hospital, Middlesbrough

- 1545-1600 **Chronic Bacterial Cystitis/National Complex UTI MDT**
Tom Lewis, Consultant Microbiologist, Northern Devon Healthcare NHS Trust
- 1600-1615 **BCG and Radiotherapy Cystitis**
Ruth Doherty, Norfolk and Norwich Hospital
- 1615-1630 **Q&A**

Hall 9
1530-1630

Andrology Video Session

Chair: **Asif Muneer**, University College Hospital, London and **Chi-Ying Li**, Whipps Cross Hospital Barts Health, London

- 1530-1537 **How to Manage Recurrent Haemospermia and Ejaculatory Pain**
Tet Yap, Guy's & St Thomas' Hospital, London
- 1537-1542 **Discussion**
- 1542-1556 **How to Manage Ejaculatory Duct Obstruction**
David Ralph, University College Hospital, London
- 1556-1606 **Discussion**
- 1606-1613 **How to Manage the Difficult Foreskin**
Peter Malone, Retired, Royal Berkshire NHS Trust
- 1613-1618 **Discussion**
- 1618-1625 **How to Repair Penile Fractures without Degloving the Penis**

Pradeep Bose, Morriston Hospital, Swansea
- 0850-0855 **A Radiologist's Role**
Sachin Modi, Consultant Radiologist, University Hospital Southampton
- 0855-0858 **Q&A**
- 0858-0900 **Concluding Remarks**
Bhavan Rai, Freeman Hospital, Newcastle

Hall 8
0800-0900

Starter Session: Tips and Tricks in Andrology

Chairs: **Vaibhav Modgil**, Manchester Royal Infirmary, and **Judith Dockray**, South Tyneside and Sunderland NHS Foundation Trust

- 0800-0815 **Peyronie's Disease – How to Keep Out of Trouble**
Hussain Alnajjar, University College Hospital, London
- 0815-0820 **Q&A**
- 0820-0835 **Grafting in Andrology - Lessons Learned Over the Years**
Nim Christopher, University College Hospital, London
- 0835-0840 **Q&A**
- 0840-0855 **Medicolegal Cases in Andrology - How to Avoid the Pitfalls**
Ian Pearce, Manchester Royal Infirmary
- 0855-0900 **Q&A**

Hall 11A
0800-0900

Starter Session: TUF: Research in Focus - Bringing the Urology Community Together to Accelerate Progress

This session is for anyone who is currently active in or has an interest in shaping the future of urological research. The session will include a live survey which will help to shape The Urology Foundation's three-year research strategy.

Come and join us for an interactive session which will examine the role of all stakeholders and communities with an interest in urological research and translational practice. We will discuss the role and experiences of patients and carers, decision makers and influencers in helping to shape the future of urological research. The session will explore the priority areas in urological research, the ways in which The Urology Foundation can help support and accelerate research progress and how we can collectively campaign for and ensure significant investment for the future.

Rakesh Heer, Charing Cross Hospital, London and **Imran Ahmad**, Queen Elizabeth University Hospital, Glasgow

Panel: **Mary Garthwaite**, Chair of The Urology Foundation and **Rebecca Porta**, Chief Executive of The Urology Foundation.

St Paul's Medal

Rajeev T P

Professor Rajeev T P holds tenure as the Professor and Head, Department of Urology and Renal Transplantation, Gauhati Medical College, Assam, India.

He undertook his Medical training (MBBS) and Post Graduation in General Surgery (Masters in Surgery) at the same Medical College before specializing in Urology (Master in Chirurgiae-M.Ch) at the premier All-India Institute of Medical Sciences, New Delhi, India. He was the recipient of the Gold Medal for M.Ch (Urology) from All-India Institute of Medical Sciences.

Professor Rajeev has undertaken Fellowship in Endourology, Laparoscopic and Robotic Urology at the University of Minnesota, Minneapolis, USA where he is also a Visiting Professor.

He is an Educator and Supervisor for the Higher specialist training in Urology leading to the M.Ch in Urology for the University of Health Sciences, Assam and also to the various M.Ch and DNB (Urology) centers in India. He sits on the panel of Examiners for the M.Ch and DNB Higher specialist training programs in Urology across various Universities in India.

He holds senior positions for the Government of India, Medical Council of India and the National Board of Examinations, with his portfolio including assessing Urology services in various centers and helping bench marking training quality for Urology in India. He is a member of the Sub Speciality Board in Reconstructive Urology of the National Board of Examinations, Govt of India.

He has had a major role in helping develop the framework for the Government of India's Ayushman Bharat Scheme (for Urology), thereby improving access to specialist Urological health care for patients who were considered to be below the poverty line. This program helped bridge the divide between accessibility to healthcare balancing with the availability and provision of healthcare; utilizing the capacity in the private sector but with minimizing cost under this scheme.

He is an enthusiastic innovator believing in using technology and low-cost modifications to help improve health care delivery, reducing morbidity and mortality and developing simulation for training through his Faculty role with Uro medical Technology, Training and Simulation and cadaveric programs of the Indian School of Urology.

Professor Rajeev was instrumental in forming the Youth Wing (YOU) of the Urological Society of India during his tenure as Secretary General. Now this Youth wing is the back bone of the Urological Society of India. Further, he has started an exclusive section for Women Urologists of India during the annual congress of Urological Society of India which has created an overwhelming enthusiasm among the female Urologists.

Medal Winner Biographies continued

Professor Rajeev T P has published over 120 peer reviewed articles and has been an invited Speaker to more than 15 International organizations. He is currently the Scientific Chair, Societe Internationale d'Urologie and also the Treasurer, South Asian Association of Urological Surgeons.

Above all, Professor Rajeev is a well-known cricketer and he has represented the University cricket, State Schools and the Assam state in Ranji Trophy and won lot of accolades.

St Peter's Medal

James N'Dow

James N'Dow gained his medical degree in the University of Aberdeen, Scotland, UK; where he is now Professor of Urological Surgery and Director of the Academic Urology Unit. He is appointed to the first Chair of Urological Surgery in Aberdeen's 528-year history as a medical school. Prof N'Dow is also Adjunct Secretary General at the European Association of Urology (EAU) with over 19,000 members globally. In this role, he has responsibility for the European School of Urology, European Urology Scholarship Programme, the EAU Young Urology Office with 2500 young surgeon members, the EAU Patient Office, the European Urology Accredited Continuing Medical Education Programme as well as the European Association of Urology Guidelines Office. He was Chairman of the Clinical Practice Guidelines Office Board of the EAU for 7 years before demitting office in July 2021. Under his leadership, the EAU Guidelines have become the most comprehensive and most trusted urological surgical practice guidelines globally; they are now endorsed by over 75 countries.

He was Co-ordinating Editor within the Cochrane Collaboration from 2008 - 2012; prior to that, he was Editor within the Cochrane Collaboration for a number of years. His research interests are in Global health, evidence-based practice, large observational studies and multicentre randomised clinical trials with a competitive research grant income of over GBP£43 million with publications in high impact journals such as the Lancet and New England Journal of Medicine. He is coordinator of two large European Commission funded projects, PIONEER €12M (38 partners across 9 countries; prostate cancer focus) and OPTIMA €21.3M (38 partners across 13 countries; breast cancer, lung cancer and prostate cancer focus). Further details on OPTIMA can be found here <https://www.optima-oncology.eu/>.

He has returned to The Gambia several times a year since 2001 to provide charitable surgical services in the public government hospitals and maternal health centres in The Gambia, taking along teams of healthcare providers with him. Prof N'Dow soon realised after years of charitable work that this was not the longterm solution to sustainable quality health system strengthening in low resource settings; the poor (especially pregnant mothers) still lacked access to affordable quality healthcare and charitable efforts were not sustained. He therefore founded Horizons (<http://www.horizonstrustuk.org>), an innovative social enterprise model designed to be a catalyst for sustainable systemic and permanent transformation of maternal and infant healthcare in West Africa and beyond, piloting in The Gambia first to learn lessons.

Medal Winner Biographies continued

Professor N'Dow is trustee for the University of Aberdeen Development Trust. He is also co-Founder and Managing Director of the Urological CANcer Scottish charity (UCAN; <https://www.ucanaberdeen.com/>). UCAN has now raised over GBP£7 million so far (cash and in-kind) and funded the opening of the first Urological Cancer Care Centre in Scotland co-located with the acute urology services, formally launched by the Health Minister in 2008. He has contributed to the UK National Institute of Clinical Excellence (NICE Guidelines), UK Urology Specialty Advisory Committee, and he was Trustee for British Journal of Urology International from 2009 - 2014. Professor N'Dow has a Urological Surgical practice in the University of Aberdeen Teaching Hospitals/ NHS Grampian, sub-specialising in penile surgery.

In 2022, James was honoured to have been appointed as Deputy Lieutenant of the County of Aberdeenshire.

Gold Medal

Abhay Rane OBE

Abhay Rane MS FRCSGlasg(Urol) graduated from Poona University in India in 1983, and trained in urology in the United Kingdom and the United States. He was appointed to his current post as Consultant Urological Surgeon at Surrey and Sussex NHS Trust in 1999.

In the College he has served as Vice President (Surgical), Ordinary Councillor, Associate Director (International) and Regional Advisor.

He is Visiting Professor at Canterbury Christchurch University, Kent and Clinical Professor at two prestigious US Universities: Keck School of Medicine at the University of Southern California and the Icahn School of Medicine at Mount Sinai, New York.

He is an advisor to the National Institute of Clinical Excellence (NICE) and has worked as the national urology representative to the NICE Interventional Procedures Advisory Committee. He is elected to the Board of the European Section of Uro - Technology of the European Association of Urology and is a Director of the Endourological Society. A former Council member of the British Association of Urological Surgeons (BAUS), he represents BAUS at the International Member Committee of the American Urological Association.

Abhay was appointed by Her Majesty Queen Elizabeth II as Officer of the Most Excellent Order of the British Empire in the 2014 Honours List for services to laparoscopic surgery.

He has keen interests in surgical education, training and mentoring and the role that College performs nationally and internationally in these contexts.

Karl Storz Golden Telescope

Grant Stewart

Grant Stewart is Professor of Surgical Oncology at the University of Cambridge, where he has a focus on developing and promoting surgery related clinical trials and translational research. As a urological surgeon, Grant has a specific interest in optimising management of patients with initially localised renal cancer, an area of great need within the disease. He provides all modes of treatment for kidney cancer, from major open surgery to robotic minimally invasive approaches. In 2016 Grant developed the robotic kidney surgery programme in Cambridge and now leads the multi-speciality robotic surgery programme.

Grant's career mission is to optimise management of localised kidney cancer, to that end he recruits ~90% of his patients to practice-changing clinical trials (e.g. RAMPART, WIRE, NAXIVA, ARTIST). Grant's research programme has a clear narrative from kidney cancer screening/early detection to peri-surgical systemic therapy trials. His high impact work includes: surgical/translational lead of the multi-national SORCE and RAMPART adjuvant trials in RCC (JCO 2020), understanding the development/progression/heterogeneity of RCC (Nature 2022, Cell 2018, CCR 2013), completion of the first IVC tumour thrombus neoadjuvant systemic therapy trial (BJC 2022), practice changing RCC follow-up research (EAU guidelines). He leads the World's only trial of RCC screening (Yorkshire Kidney Screening Trial) with plans via NHS England to roll this out nationally, and is the global urology lead for the practice changing COVIDSurg study (Lancet, Lancet Oncology, BJS, Anaesthesia). His research metrics are: £165 million research grant/clinical trial income and over 220 peer reviewed publications.

Grant leads the CRUK Cambridge Centre Clinical Cabinet and the Urological Malignancy and Integrated Cancer Medicine Programmes. He has been a key lead in renewal of the CRUK Cambridge Cancer Centre, the NIHR BRC4, REF (Cambridge ranking 1st for Medicine) and development of the clinical and research elements of the new Cambridge Cancer Research Hospital. He is Chair of the Science and Education Committee and a trustee of TUF, where with BAUS he developed the TUF Clinical Trials Unit. As trustee for Kidney Cancer UK, he has led the Kidney Cancer Accord which has led to approval of a much-needed NICE guideline for kidney cancer. He chairs the Kidney Cancer Pathway for the GIRFT Academy, is Deputy Editor of The Surgeon and Section Editor of the BJU International.

He is passionate about clinical and academic training and Director of the Academic Clinical Fellow Programme in Cambridge, the UK's largest ACF programme.

Grant has received multiple accolades: King James IVth Professorship 2022 (RCSEd), John Fitzpatrick Award 2022 (Kidney Cancer Association), Honorary Professor University of Leeds, elected member of Association of Academic European Urologists and James IV Association of Surgeons Travelling Fellow 2022.

John Anderson Award

Suzanne Biers

Suzanne Biers is a consultant at Addenbrookes Hospital in Cambridge subspecialising in female, functional and reconstructive urology. She graduated from St. George's Hospital Medical School, University of London, with the Brackenbury Prize in Surgery, and completed an MD degree in Oxford, receiving the BAUS John Blandy Award for research publications in 2007.

Suzanne's commitment to education is reflected in her roles as co-author and co-editor of 7 textbooks, including the Oxford Handbook of Urology, since the 1st edition in 2002 up to her current work as lead author on the 5th edition. She has been Course Director on 8 different surgical simulation courses, including the Cambridge Emergency Urology Surgical Skills Course which Suzanne is now developing as a national project with BAUS in her role as Lead. She also contributes to functional and reconstructive courses for doctors at all levels working in urology, general surgery and gynaecology.

She has been a Clinical Lead for the 2-year Urology Master's Degree at Anglia Ruskin University from its initiation in 2014, helping to equip early years training doctors with a broad urology knowledge base and experience of research and publication.

Suzanne has been Deputy Training Programme Director in the East of England Deanery since 2018 and was previously the local Clinical Lead for urology trainees. She received the BAUS Silver Cystoscope Regional Award for training in 2021. She has been faculty on a range of BAUS courses including the Core Urology and FRCS Revision Courses since 2011 and has recently been appointed BAUS co-lead for Specialist Trainees. Suzanne continues as Secretary of BAUS FNUU Section and Section Lead for Education. She has published national consensus documents on challenging functional problems and has contributed to national practice through her work on the NICE Urinary Incontinence and Prolapse Guidelines. She is the Eastern Region NIHR Urology Champion for Research and is active as both Principal and Sub-Investigator in national studies.

Suzanne is very grateful for the tremendous opportunities that a career in Urology provides. She is privileged to work with so many inspiring colleagues and trainees and extends her huge gratitude to everyone who has given their time, knowledge and expertise to collaborate with her.

The Urology Foundation Guest Lecture

Sir Thomas Hughes-Hallett

Sir Thomas Hughes-Hallett's involvement in charities began in the 1990s when he became a trustee, and later Chairman, of the Michael Palin Centre for Stammering Children. In 2000 he was appointed Chief Executive of Marie Curie Cancer Care. Over the next 12 years he led the organisation through a period of significant change, which saw diversification of their activities and the charity becoming a household name.

In 2012 he was knighted in the Queen's Birthday Honour's List for his services to Philanthropy and in 2013 was presented with the prestigious Beacon Fellowship for Philanthropy Advocacy. He is the founder and Chair of Helpforce charity and co-founder of The Marshall Institute within the London School of Economics and Political Science. He is also the former Chair of Chelsea and Westminster Hospital NHS Foundation Trust, a former Trustee of The Esmée Fairbairn Foundation and The King's Fund, and sat on the Board of the Westminster Abbey Foundation. Sir Thomas has served the Department of Health as a Chair or member of a number of advisory boards. He is now Chair of the John Innes Centre, an independent, international centre of excellence in plant science, genetics and microbiology.

BJU International Guest Lecture

Nigel Acheson

Nigel Acheson is Regional Medical Director and Higher-Level Responsible Officer for the South Region of NHS England. With a population of 13.4 million, the Region stretches from Cornwall to Kent and includes the cities of Bristol, Oxford and Southampton.

Born in Belfast, Nigel trained in Birmingham and was appointed as a consultant gynaecological oncologist in 2002, moving to the Royal Devon and Exeter (RD&E) Hospital in Exeter to help develop the Gynaecological Cancer Centre there and learn to sail.

From his time as a National Advisor and Clinical Lead to the Department of Health's Enhanced Recovery Partnership Programme, Nigel actively promotes the involvement of patients as partners in their care. Whilst Medical Director for the Peninsula Cancer Network in the Southwest of England, Nigel helped to re-establish the patient and public group with the chair and vice-chair becoming members of the network Board.

BAUS Guest Lecture

Mo Belal

Mr Mo Belal is a Consultant Urological Surgeon; Queen Elizabeth Hospital, Birmingham since 2011 with a specialist interest in Female, Functional, Neuro-urology and Urinary tract reconstruction. He is the current chair of the BAUS Section of FNUU. He is currently working with NHS England representing BAUS as the Mesh lead.

Whilst cycling with a friend, he was struck by a tree resulting in a spinal cord injury and paralysis in February 2021. After multiple operations and 8 months in hospital with over 1000 hours of rehabilitation he has returned to his career as a urological surgeon. He will share his insights from his injury and the journey back to work.

Journal of Clinical Urology (JCU) Guest Lecture

Omer Karim

Omer was born in Omdurman in the Sudan of Sudanese and Irish parents. He lived in the Sudan until he was five years old and then went to West Germany where his father was a Cultural Attaché, looking after students all over Europe. In 1968, the family moved to the UK. At King's Macclesfield he became Head Boy, played rugby for Cheshire U19 and then went to Charing Cross Hospital Medical School where he was captain of the First XV.

Following his FRCS he did research at the Brady Institute of Urology, Johns Hopkins Medical Institutions for his MSc. He was an SR at the Royal London and subsequently was appointed a Consultant Urologist in 1995 to East Berkshire. He developed an expertise in nerve sparing radical prostatectomy and converted to robotic assisted surgery in 2004. He has published over 100 peer-reviewed papers and performed over 3,500 robotic assisted operations.

He has been a proctor in robotic assisted surgery since 2008, and regularly teaches surgeons in the UK and Europe. He has taught in South Africa, India and Turkey. He has been elected to Council of the Royal College of Surgeons of England and the British Medical Association. In 2021, he was the first doctor to successfully sue the General Medical Council for racial discrimination, although the GMC has since appealed the ET judgement.

Apart from medicine, he has been involved in business, floating a small medical diagnostic company on AIM in 2000 which was subsequently sold to Laborie. In 2000, he also set up a private diagnostic outpatient facility (www.bridge-clinic.com) in Maidenhead.

He speaks basic Arabic and German and fluent French. He has Irish, British and Sudanese nationalities. He is married with two children. In his spare time, he cycles, grows cacti and succulents, and is a beekeeper.

WHEN ELIGIBLE PATIENTS PRESENT WITH
A PSA DOUBLING TIME ≤ 10 MONTHS,^{1*}

THINK HIGH-RISK nmCRPC AND HELP EXTEND WHAT'S IMPORTANT¹⁻⁴

NUBEQA® (darolutamide) is a second-generation AR inhibitor that in combination with ADT can help you extend MFS and OS[†] in high-risk nmCRPC, with low rates of treatment discontinuation due to adverse events (Nubeqa + ADT 8.9% vs placebo + ADT 8.7%) It can help to maintain QoL too.⁵

Nubeqa + ADT significantly prolonged the time to deterioration of FACT-P PCS versus placebo + ADT (HR 0.80, 95% CI 0.70–0.91; P = 0.0005)

Think high-risk nmCRPC. Think referral. Think NUBEQA®¹⁻⁴

SAFETY PROFILE:

The most common adverse reactions in nmCRPC patients receiving darolutamide was fatigue/aesthetic conditions (15.8%). The most common serious adverse reactions were ischaemic heart disease (1.9%), urinary retention (1.6%), pneumonia (1.4%), haematuria (1.0%) and heart failure (1.0%).⁴

INDICATION:

NUBEQA is indicated for the treatment of adult men with non-metastatic castration resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease or with metastatic hormone-sensitive prostate cancer (mHSPC) in combination with docetaxel.⁴

ADT: androgen deprivation therapy; AE: Adverse event; AR: androgen receptor; MFS: metastasis free survival; nmCRPC: non-metastatic castration resistant prostate cancer; PSA: prostate specific antigen; OS: overall survival; QoL: quality of life.

nmCRPC is defined as no radiological evidence of metastatic disease, a rising PSA concentration and a PSA doubling time of ≤ 10 months.^{1}

[†]Median MFS for NUBEQA + ADT was 40.4 months (n=955) and 18.4 months for placebo + ADT (n=554) (HR: 0.41; 95% CI: 0.34-0.50; p<0.001).² At 3 years, NUBEQA + ADT significantly reduced the risk of death by 31% vs. placebo + ADT (83% vs. 77%; HR: 0.69; 95% CI: 0.53-0.88; p=0.003). A secondary endpoint was overall survival (OS). OS for Nubeqa was 78/955 and 58/554 (HR 0.71 (95% CI 0.50-0.99) p=0.045).³

NUBEQA® (darolutamide) 300 mg film-coated tablets Prescribing Information – Great Britain (Refer to full Summary of Product Characteristics (SmPC) before prescribing)

Presentation: Each film-coated tablet contains 300 mg of darolutamide. **Indication(s):** NUBEQA is indicated for the treatment of adult men with non-metastatic castration resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease or with metastatic hormone-sensitive prostate cancer (mHSPC) in combination with docetaxel. **Posology & method of administration:** Treatment should be initiated and supervised by a specialist physician experienced in treatment of prostate cancer. Medical castration with a luteinising hormone-releasing hormone (LHRH) analogue should be continued during treatment of patients not surgically castrated. For oral use. The tablets should be taken whole with food. **Adults:** 600 mg darolutamide (two tablets of 300 mg) taken twice daily, equivalent to a total daily dose of 1200 mg. mHSPC patients should start darolutamide in combination with docetaxel. The first 6 cycles of docetaxel should be administered within 6 weeks after the start of darolutamide treatment. Treatment with darolutamide should be continued until disease progression or unacceptable toxicity even if a cycle of docetaxel is delayed, interrupted, or discontinued. If a patient experiences a \geq Grade 3 toxicity or an intolerable adverse reaction related to darolutamide, dosing should be withheld or reduced to 300 mg twice daily until symptoms improve. Treatment may then be resumed at a dose of 600 mg twice daily. **Children & adolescents:** There is no relevant use of darolutamide in the paediatric population. **Elderly:** No dose adjustment is necessary. **Renal Impairment:** No dose adjustment is necessary for patients with mild or moderate renal impairment. For patients with severe renal impairment (eGFR 15-29 mL/min/1.73 m²) not receiving haemodialysis, the recommended starting dose is 300 mg twice daily. **Hepatic Impairment:** No dose adjustment is necessary for patients with mild hepatic impairment. The available data on darolutamide pharmacokinetics in moderate hepatic impairment is limited. Darolutamide has not been studied in patients with severe hepatic impairment. For patients with moderate and severe hepatic impairment (Child-Pugh Classes B and C), the recommended starting dose is 300 mg twice daily. **Contra-indications:** Hypersensitivity to the active substance or to any of the excipients. Women who are or may become pregnant. **Warnings & precautions:** Monitor for signs and symptoms of ischaemic heart disease. Optimise management of cardiovascular risk factors. Discontinue darolutamide for Grade 3-4 ischaemic heart disease. Seizure occurred in patients receiving darolutamide. Advise patients of the risk of developing a seizure while receiving darolutamide. Consider discontinuation of darolutamide in patients who develop a seizure during treatment. Cases of idiosyncratic hepatic reactions with increases in alanine aminotransferase (ALT) and aspartate aminotransferase (AST) to ≥ 5 and $\geq 20 \times$ upper limit of normal (ULN) have been reported in darolutamide clinical trials. Idiosyncratic liver injury has also been reported in the post-marketing setting. The ALT and AST elevations were reversible upon darolutamide discontinuation. In case of hepatic transaminase elevations suggestive of idiosyncratic drug-induced liver injury related to darolutamide, permanently discontinue darolutamide. The available data in patients with severe renal impairment are limited. As exposure might be increased those patients should be closely monitored for adverse reactions. The available data in patients with moderate hepatic impairment are limited, and darolutamide has not been studied in patients with severe hepatic impairment. As exposure might be increased those patients should be closely monitored for adverse reactions. Patients with clinically significant cardiovascular disease in the past 6 months including stroke, myocardial infarction, severe/unstable angina pectoris, coronary/peripheral artery bypass graft, and symptomatic congestive heart failure were excluded from the clinical studies. Therefore, the safety of darolutamide in these patients has not been established. Use of strong CYP3A4 and P-gp inducers during treatment with darolutamide may decrease the plasma concentration of darolutamide and is not recommended, unless there is no therapeutic alternative. Selection of an alternate concomitant medicinal product with less potential to induce CYP3A4 or P-gp should be considered. Patients should

be monitored for adverse reactions of BCRP, OATP1B1 and OATP1B3 substrates as co-administration with darolutamide may increase the plasma concentrations of these substrates. Co-administration with rosuvastatin should be avoided unless there is no therapeutic alternative. In patients with a history of risk factors for QT prolongation and in patients receiving concomitant medicinal products that might prolong the QT interval, physicians should assess the benefit-risk ratio including the potential for Torsade de pointes prior to initiating NUBEQA. NUBEQA 300mg film-coated tablets contains lactose. Patients with rare hereditary problems of galactose intolerance, total lactase deficiency or glucose galactose malabsorption should not take this medicinal product. **Interactions:** For the effect of other medicinal products on the action of darolutamide (e.g. CYP3A4, P-gp inducers and CYP3A4, P-gp and BCRP inhibitors, UGT1A9 inhibitors and docetaxel) and the action of darolutamide on other medicinal products (BCRP, OATP1B1, OATP1B3 substrates, P-gp substrates, docetaxel, CYP3A4 substrates and other medicinal products that prolong the QT interval) refer to the relevant SmPCs. **Pregnancy & lactation:** Darolutamide is not indicated in women of childbearing potential, and it is not to be used in women who are, or may be, pregnant or breast-feeding. Unknown whether darolutamide or its metabolites are present in semen. If the patient is engaged in sexual activity with a woman of childbearing potential, a highly effective contraceptive method (<1% failure rate per year) should be used during and for 1 week after completion of treatment. Unknown whether darolutamide or its metabolites are excreted in human milk. No studies in animals have been conducted to evaluate the excretion of darolutamide or its metabolites into milk. A risk to the breast-fed child cannot be excluded. There are no human data on the effect of darolutamide on fertility. Based on animal studies, darolutamide may impair fertility in males of reproductive potential. **Effects on ability to drive and use machines:** Darolutamide has no or negligible influence on the ability to drive and use machines. **Undesirable effects:** Adverse reactions observed in patients with nmCRPC Very common: fatigue/aesthetic conditions, neutrophil count decreased, bilirubin increased, AST increased. Common: ischaemic heart disease, heart failure, rash, pain in extremity, musculoskeletal pain, fractures. Serious adverse reactions: urinary retention, pneumonia, haematuria, seizure. Adverse reactions observed in patients with mHSPC treated with darolutamide in combination with docetaxel. Very common: hypertension, rash, blood bilirubin increased, ALT increased, AST increased. Serious adverse reactions: fractures, ischaemic heart disease, seizure, febrile neutropenia, neutrophil count decreased, pneumonia. Prescribers should consult the SmPC in relation to other side effects (see section 4.8 of SmPC). **Overdose:** In the event of intake of a higher than recommended dose, treatment with darolutamide can be continued with the next dose as scheduled. There is no specific antidote for darolutamide and symptoms of overdose are not established. **Legal Category:** POM. **Package Quantities & Basic NHS Costs:** Pack of 112 film-coated tablets, £4,040. **MA Number(s):** PLGB 00010/0677. **Further information available from:** Bayer plc, 400 South Oak Way, Reading RG2 6AD, United Kingdom. Telephone: 0118 206 3000. **Date of preparation:** November 2022

British Association of Urological Surgeons Nephrectomy Audit

¹Royal Derby Hospital, Derby, UK, ²University of Leeds, Leeds, UK, ³University College London, London, UK,
⁴Leeds Teaching Hospitals NHS Trust, Leeds, UK

P4-2 Extended venous thromboembolism prophylaxis after minimal access retroperitoneal robot assisted partial or laparoscopic nephrectomy - is it necessary?

Miss Louise Paramore¹, Dr Sarah O'Neill¹, Mr Mohammed Aldiwani¹, Sister Joanne Oakley¹, Mr Muddassar Hussain¹, Mr Neil Barber¹, Mr Manar Malki¹

¹Frimley Renal Cancer Centre, Frimley Park Hospital, Frimley, UK

P4-3 Contemporary management of cT1a renal masses: results from the NEphron Spraying Treatment (NEST) for small renal masses cohort study

Miss Joana Neves^{1,2}, Miss Hannah Warren¹, Dr Menelaos Pavlou³, Mr Joseph Santiapillai^{1,2},
Mr Darryl Bernstein^{1,2}, Mr Ravi Barod^{1,2}, Mr Prasad Patki², Professor Faiz Mumtaz^{1,2}, Dr Miles Walkden², Dr Soha El-Sheikh², et al.

¹Division of Surgery and Interventional Science, University College London, London, UK, ²Specialist Centre for Kidney Cancer, Royal Free Hospital, London, UK, ³Department of Statistical Science, University College London, London, UK

P4-4 Oncological outcomes following pT3a partial nephrectomy - is the rollout of adjuvant immunotherapy in renal cell carcinoma generalisable?

Mr Mohammed Aldiwani¹, Miss Joanne Oakley¹, Mr Manar Malki¹, Mr Muddassar Hussain¹, Mr Neil Barber¹

¹Frimley Renal Cancer Centre, Surrey, UK

P4-5 Oncological and peri-operative outcomes of percutaneous cryoablation of renal cell carcinoma for patients with hereditary RCC diseases - An analysis of European multi-centre prospective EuRECA registry

Dr Vinson Wai-shun Chan^{1,2,3}, Dr Filzah Hanis Osman², Dr David J Breen⁴, Dr Tommy Kjærgaard Nielsen⁵, Dr Julien Garnon⁶, Dr Des Alcorn⁷, Dr. Brunolf Lagerveld⁸, Dr Ole Graumann⁹, Mr Francis Xavier Keeley Jr¹⁰, Prof. Tze Min Wah¹, et al.

¹Royal Derby Hospital, Derby, UK, ²University of Leeds, Leeds, UK, ³University College London, London, UK, ⁴Southampton University Hospitals, Southampton, UK, ⁵Aarhus University Hospital, Aarhus, Denmark, ⁶Nouvel Hôpital Civil, Paris, France, ⁷Gartnavel General Hospital, Glasgow, UK, ⁸OLVG, Amsterdam, Netherlands, ⁹Odense University Hospital, Odense, Denmark, ¹⁰North Bristol NHS Trust, Bristol, UK, ¹¹Leeds Teaching Hospitals NHS Trust, Leeds, UK

P4-6 A comparison of perioperative outcomes between robotic-assisted partial nephrectomy in the solitary kidney and standard cases

Miss Duaa Farugi, Mr Oliver Hald, Mr Usman Haroon, Dr Fairleigh Reeves, Yasmin Abu Ghanem, Mr Rajesh Nair, Mr Azhar Khan, Mr Timothy O'Brien, Archana Fernando, Mr Ben Challacombe
¹Department of Urology, Guy's and St Thomas' NHS Foundation Trust, London, UK

P4-7 Functional Outcomes After Radical Nephrectomy Versus Nephron Sparing Surgery in Elderly Patients with T1a Renal Cell Carcinoma: A Multicentre Study

Dr Thineskrishna Anbarasan¹, Miss Flora Rogers², Mr James Blackmur³, Miss Lucy Drummond⁴, Mr Ahmed Shehata⁵, Mr Edward Mains³, Mr Steve Leung³, Professor Alan McNeil³, Mr Simon Phipps³, Mr Alexander Laird³, et. al

¹Churchill Hospital, Oxford, UK, ²Department of Urology, Queen Elizabeth University Hospital, Glasgow, UK, ³Department of Urology, Western General Hospital, Edinburgh, UK, ⁴Department of Urology, Victoria Hospital, Kirkcaldy, UK, ⁵Department of Urology, Ninewells Hospital, Dundee, UK,

P4-8 Exploring the feasibility of an ex-vivo high throughput screening platform in Kidney Cancer to improve treatment selection and novel drug discovery

S Conroy^{1,2}, G Wells¹, H Gagg¹, S Hansford¹, J Rantala¹, T Helleday¹, M G Cumberbatch^{1,2}, S Danson^{1,2}, J WF Catto^{1,2}

¹Department of Oncology and Metabolism, University of Sheffield, UK, ²Sheffield Teaching Hospitals NHS Foundation Trust UK

P4-9 Association of Y chromosome genes with survival outcomes in men with renal cancer

Ms Katie Valentine¹, Ms Clare O'Connell¹, Mr Paul Ryan¹, Ms Laure Marignol², Professor Thomas Lynch¹, Mr Diarmuid Sugrue¹

¹St James Hospital, Dublin, Ireland, ²Applied Radiation Therapy Trinity, Discipline of Radiation Therapy, Trinity College Dublin, Dublin, Ireland

P4-10 Impact of Surgical Volume on Oncological Outcomes and Complications in Upper Tract Urothelial Cell Carcinoma: Results from a British Association of Urological Surgeons Audit

Mr Saeed Dabestani¹, Mr Ravi Barod², Mr Rajesh Nair³, Mrs Yasmin Abu-Ghanem⁶, Mrs Sarah Fowler⁴, Mr Steve Bromage⁵

¹Kristianstad Central Hospital, Dep of Urology, Region Skane, Lund University, Skane, Sweden, Malmö, Sweden, ²Royal Free London, Urology Department, Specialist Centre for Kidney Cancer, London, UK, ³Guy's and St Thomas', Urology Department, London, UK, ⁴British Association of Urological Surgeons, London, UK, ⁵Stepping Hill hospital, Urology Department, Stockport, UK, ⁶Kings College Hospital, London, UK

ANNUAL
MEETING
19-21 June

Monday 19 June, 1630-1730, Hall 10

ePoster Session 5

Management/Governance/Education/Quality Improvement

Chairs: **Rickaz Raheem**, Milton Keynes University Hospital and **Theodora Stasinou**, Salford Royal Hospital

P5-1 Evolving trends in route to diagnosis for urological cancers in England: a 12-year evaluation

Miss Samantha Conroy^{1,2}, Mr Marcus Cumberbatch^{1,2}, Prof James Catto^{1,2}

¹Department of Oncology and Metabolism, University Of Sheffield, Sheffield, UK, ²Sheffield Teaching Hospitals, Sheffield, UK

P5-2 Full stream ahead: utilising streamlining to improve efficiency in the Urology Multi-Disciplinary Team Meeting (MDTM)

Miss Rachel Oliver^{1,2}, Dr Melika Moghim^{2,3}, Mr Shrey Palmar³, Mr John Hines^{2,4}

¹North Middlesex University Hospital, London, UK, ²North Central London Cancer Alliance, London, UK, ³University College London, London, UK, ⁴University College London Hospital, London, UK

P5-3 PIT (Patient Integrated Teams) Urology MDT - a novel integrated approach between Primary and Secondary care to aid the elective recovery programme.

Dr Ross Cunningham¹, Mr Shiv Pandian, Dr James Harrison, Dr Sanjay Patel

¹Evergreen Primary Care Centre, Enfield, UK

P5-4 Improving access to neuro-urology for patients undergoing neurorehabilitation

Mr Adeoye Oluwakanyinsola Debo-Aina¹, Dr Lenyalo King¹, Dr Alifa Isaacs-Itua¹, Ms Claire Taylor^{1,2}, Mr Nicholas Faure-Walker^{1,3}

¹Kings College Hospital NHS Foundation Trust, London, UK, ²Guy's and St Thomas NHS Foundation Trust, London, UK, ³School of Immunology and microbial Science, Faculty of Life Sciences & Medicine, King's College London, London, UK

P5-5 Improving shared decision making in elective urological surgery using a digital consent platform: a prospective study

Mr Martin John Connor^{1,2}, Dr Daniel Hazelton¹, Dr Nina Dela Cruz¹, Miss Sarah Brown¹, Mr Allaudin Issa¹, Mr Nikhil Mayor^{1,2}, Mr Jerry Tangle¹, Ms Lona Vyas¹, Mr Bijan Khoubehi¹, Mr Nishant Bedi¹, Mr Hama Attar¹, Mr Michael Dinneen¹

¹Department of Urology, Chelsea and Westminster NHS Foundation Trust, London, UK, ²Division of Surgery, Department of Surgery and Cancer, Imperial College London, UK

P5-6 The Use of Clinical Teaching Associates (CTAs) in Teaching Male Intimate Examination to Medical Students: A Randomised Controlled Trial

Mr Anthony Vijayanathan¹, Ms Deborah Bruce², Mr Chu Yiu³, Dr Findlay MacAskill¹, Mr Jonathan Makanjuola⁴, Mr Arun Sahai²

¹King's College London, London, UK, ²Guy's and St Thomas' NHS Foundation Trust, London, UK, ³Queen Elizabeth Hospital, London, UK, ⁴King's College Hospital Foundation Trust, London, UK

P5-7 Use of Audio Recordings in the Consultation of Patients Seeking Genital Gender-Affirming Surgery: An Opportunity for Broader Application Throughout Urology, and Development of a Novel Smartphone App

Dr. Shannon Smith¹, Dr Sandeep Sandhu¹, Miss. Jenna Stelmar¹, Miss. Grace Lee¹, Dr. Maurice Garcia¹

¹Cedars-Sinai Medical Center, Los Angeles, United States

P5-8 High Intensity Theatre Lists in Urology: Implementing 'pit-stop' principles to increase theatre efficiency

Mr Ahmed Khattak¹, Dr Marc Furrer¹, Ms Nisha Pindoria¹, Mr Ata Jaffer¹, Dr Kariem El-Boghdadly¹, Dr Imran Ahmad¹, Mr Ben Challacombe¹, Mr Rick Popert¹, Mr Jonathan Noel¹

¹Guy's and St Thomas' NHS Trust, London, UK

P5-9 How Good is Your Male LUTS Service Really? Retrospective Review of Case Selection from over 1000 Patients Attending for HoLEP Surgery in a Single Centre.

Mr Mohamed Hassan, Mr Anish Pushkaran, Mr M Vizreanu, Mr Richaz Raheem, Mr Angus Campbell, Mr Barnaby Barrass, Mr Mohamed Asad Saleemi, Mr Farooq Khan

¹Luton & Dunstable NHS Foundation Trust, Luton, UK

P5-10 BAUS 10-point plan for widening participation: Are principles of Equality, Diversity and Inclusion (EDI) framework being addressed - Evidence from annual BAUS meeting programmes

Miss Virginia Massella¹, Miss Jo Cresswell², Miss Susan Willis³, Miss Olayinka Gbolahan⁴, Miss Mriganka Sinha⁵, Miss Amelia Pietropaolo¹, Mr Nitin Shrotri⁶, Mr Joe Phillip⁷, Professor Ian Pearce⁸, Professor Bhaskar Somani¹

¹Southampton General Hospital, Southampton, UK, ²South Tees Hospital, Middlesborough, UK, ³Guy's and St Thomas Foundation Trust, London, UK, ⁴Royal Free Academy of PMC, London, UK, ⁵Cheltenham General Hospital, Cheltenham, UK, ⁶Chaucer Hospital, Canterbury, UK, ⁷Southmead Hospital Bristol, Bristol, UK, ⁸Manchester Royal Infirmary, Manchester, UK

Monday 19 June, 1630-1730, Hall 11A

ePoster Session 6

Inequalities in Urological Healthcare Provision and Training

Chairs: **Tim Lane**, Lister Hospital, Stevenage and **Yinka Gbolahan**, Royal Free Hospital, London

P6-1 Pregnancy outcomes in UK urologists in training

Ms Jessica Whitburn^{1,2}, Mr Saiful Miah², Dr Sarah Howles^{1,3}

¹Nuffield Department of Surgical Sciences, Oxford, UK, ²Wycombe Hospital, High Wycombe, UK, ³Churchill Hospital, Oxford, UK

P6-2 The Man Van – Community Based Targeted Case Finding For Prostate Cancer

Mr Masood Moghul¹, Miss Fionnuala Croft¹, Miss Kaljit Kaur¹, Miss Netty Kinsella¹, Mr Declan Cahill¹, Professor Nick James¹

¹Royal Marsden Hospital, London, UK, on behalf of the Guy's Post Pelvic Surgery Research Group

P6-3 Black patients have worse continence outcomes at 12 months following robotic-assisted radical prostatectomy

Mr Findlay MacAskill¹, Mr Arun Sahai¹, Mr Majed Shabbir¹, Mr Paul Cathcart¹, Mr Jonathan Noel¹ on behalf of the Guy's Post Pelvic Surgery Research Group

¹GSTT, London, UK

P6-4 Identifying challenges and reforms for difficulties faced and support needed by International Medical Graduates (IMGs) when they first move to UK: A survey of 173 IMG doctors

Miss Jenni Lane¹, Mr Nitin Shrotri², Dr Sunil Daga³, Professor Bhaskar Somani¹

¹University Hospital Southampton, Southampton, UK, ²East Kent Hospitals University NHS Foundation Trust, Canterbury, UK, ³Leeds Teaching Hospitals NHS Trust, Leeds, UK

P6-5 Ethnic composition of the national urology workforce and BAUS leadership 2009-2020: A retrospective analysis

Mr Kelvin Adasonla¹, Mr Thomas Newman², Mr Ricky Ellis³, Mr Matthew Parry⁴, Mr Nitin Shrotri⁵, Miss Joanne Cresswell⁶, Prof James Green¹

¹Whipps Cross University Hospital, London, UK, ²Kings College Hospital, London, UK, ³University Hospitals of Derby and Burton, Derby, UK, ⁴Clinical Effectiveness Unit, The Royal College of Surgeons of England, London, UK, ⁵Chaucer Hospital, Canterbury, UK, ⁶James Cook University Hospital, Middlesbrough, UK

P6-6 Ethnic disparities in uptake of prostate cancer clinical trials compared to clinical practice

Mr Nikhil Mayor¹, Professor Suks Minhas, Mr Alistair Grey¹, Dr Lucy Simmons¹, Professor Mark Emberton¹, Miss Emma Cullen¹, Mr Taimur Shah¹, Ms Mariana Bertoncelli-Tanaka¹, Professor Hashim Ahmed

¹Imperial College Healthcare NHS Trust, London, UK

P6-7 Gender representation and prevalence of manels at international urological surgery conferences

Dr Kristie Hing Chi Leung¹, Miss Maria Georgi², Dr Aqua Asif², Dr Monty Fricker³, Dr Sonam Patel⁴, Mr Arslan Khaliq Raja⁵, Dr Alice Gargan⁶, Dr Kate Gargan³, Dr Katherine Lee⁷, Dr Oliver E Burton⁸, et al

¹University Hospitals Sussex NHS Foundation Trust, Brighton, UK, ²University College London, London, UK, ³Imperial College Healthcare NHS Trust, London, UK, ⁴University Hospital Southampton NHS Foundation Trust, Southampton, UK, ⁵University of Edinburgh, Edinburgh, UK, ⁶St George's University Hospitals NHS Foundation Trust, London, UK, ⁷Royal Berkshire NHS Foundation Trust, Reading, UK, ⁸Newcastle Hospitals NHS Foundation Trust, Newcastle, UK

P6-8 Do Urology Conferences demonstrate Gender Diversity within their Scientific programme? Evaluation of the gender of Podium Presenters (speakers) at BAUS22 and EAU22

Dr Hannah Jeffery¹, Miss Susan Willis², Miss Sophie Rintoul-Hoad³

¹Lister Hospital, Stevenage, UK, ²Guy's and St Thomas' Hospitals, UK, ³Epsom and St Helier University Hospitals, London, UK

History of Urology

Chairs: **Iain Wharton**, University Hospital of Coventry & Warwickshire and **Robyn Webber**, Victoria Hospital, Kirkcaldy

P7-1 The history so far: metallic ureteric stents

Mr Lahiru Siriwardena¹, Mr Christopher Berridge¹, Mr Aran Nanthakumar¹, Mr Raghuram Devarajan¹, Mr Ayman Girgis¹, Mr Priyadarshi Kumar¹

¹University Hospital Coventry and Warwickshire, Coventry, UK

P7-2 Peter the Great and Urology in the Eighteenth Century

Mr Jonathon Dawson¹, Mr George Greenlees²

¹Liverpool University Hospitals NHS Foundation Trust, Liverpool, UK, ²Bradford Teaching Hospitals NHS Foundation Trust, Bradford, UK

P7-3 Bending the Truth: The Cardiff Coudé Catheter Con of 1957

Mr John Hayes¹

¹Department of Urology, The James Cook University Hospital, Middlesbrough, UK

P7-4 Alfred Zinner and how a rare genetic abnormality was described

Dr Shail Shah¹, Ms Theodora Stasinou¹, Mr Vaibhav Modgil¹, Professor Ian Pearce¹

¹Manchester University NHS Foundation Trust, Manchester, UK

P7-5 The Man Behind the Sign: Douglas Prehn and his Contribution to the 'Scrotal Pain Dilemma'

Miss Beth Flemington², Miss Theodora Stasinou¹, Mr Vaibhav Modgil¹, Professor Ian Pearce¹

¹Manchester University NHS Foundation Trust, Manchester, UK, ²University of Manchester, Manchester, UK

P7-6 Napoleon Bonaparte: The Emperor's Penis

Mr Benjamin Wharton¹, Mr Iain Wharton²

¹Corpus Christi College, University of Oxford, Oxford, UK, ²University Hospital of Coventry & Warwickshire, Coventry, UK

P7-7 Withdrawn

P7-8 Vikings and Urology: Past and Present

Dr Sara Ramsey¹, Mr Gordon McFarlane²

¹Raigmore Hospital, Inverness, UK, ²Gilbert Bain Hospital, Lerwick, UK

P7-9 The Urological Contribution of Hôtel-Dieu, Paris

Mr Benjamin Wharton¹, Mr Iain Wharton²

¹Corpus Christi College, University of Oxford, Oxford, UK, ²University Hospital of Coventry & Warwickshire, Coventry, UK

P7-10 Alexander Marcet and The First Bedside Chemical Diagnostics Kit

Dr Kirandeep Saini¹, Mr. Nikhil Mayor, Mr Martin Connor, Mr Michael Dineen¹, Mr Nishant Bedi¹

¹Chelsea & Westminster Hospital, London, UK

EPOSTER SESSIONS

6 minutes for each ePoster Presentation

4 minutes for presentation | 2 minutes for Q&A and turnaround

ANNUAL
MEETING
19-21 June

Tuesday 20 June, 1400-1500, Hall 8

ePoster Session 8 Prostate Cancer

Chairs: **Taimur Shah**, Imperial Prostate, London and **Meghana Kulkarni**, St George's NHS Foundation Trust, London

P8-1 A new approach to survivorship care following radical prostatectomy

Mr Findlay MacAskill¹, Ms Sammy Gharbieh¹, Ms Amy Sandher¹, Mr Tet Yap¹, Miss Claire Taylor¹, Mr Majed Shabbir¹, Mr Arun Sahai¹ on behalf of the Guy's Post Pelvic Surgery Research Group
¹GSTT, London, UK

P8-2 Can we avoid systematic biopsies and do only targeted biopsies when there is a discernible lesion in MRI scan prostate with PI-RADS scores 4 or 5? A single high volume centre retrospective data analysis

Mr Anish Pushkaran¹, Mr Ray Hsu¹, Mr Mohamed Hassan¹, Mr Kadhim Hassan¹, Mr Rickaz Raheem¹, Dr Ahsen Razzaq¹, Mr Farooq Khan¹, Mr Aza Mohammed¹, Mr Sanjeev Taneja¹, Mr Barnaby Barrass¹

¹Luton & Dunstable NHS Foundation Trust, Luton, UK

P8-3 Assessing the potential of artificial intelligence for prostate MRI in a diverse multi-centre diagnostic population

Dr Aarti Shah¹, Prof Richard Hindley¹, Prof Nikhil Vasdev², Dr Paul Burn³, Mr Mark Hinton⁴, Dr Antony Rix⁴, Dr Nadia Moreira Da Silva⁴, Prof Evis Sala⁵

¹Hampshire Hospitals NHS Foundation Trust, Winchester, UK, ²East and North Herts NHS Trust, Stevenage, UK, ³Somerset NHS Foundation Trust, Taunton, UK, ⁴Lucida Medical Ltd, Cambridge, UK, ⁵Catholic University Sacro Cuore and Policlinico Universitario A. Gemelli, IRCCS, Rome, Italy

P8-4 PSA density predicts clinically significant prostate cancer in a screening population: outcomes from the IPI-PROSTAGRAM study

Mr Nikhil Mayor¹, Mr David Eldred-Evans¹, Mr Martin Connor¹, Dr Paula Burak², Dr Emily Day², Dr Martin Evans¹, Dr Francesca Fiorentino², Dr Martin Gammon¹, Dr Feargus Hosking-Jervis¹, Professor Hashim Ahmed¹, et al¹

¹Imperial Prostate, London, UK, ²Imperial Clinical Trials Unit, London, UK

P8-5 Prospective implementation and early outcomes of a risk stratified prostate cancer active surveillance follow-up protocol -STRATified CANcer Surveillance (STRATCANS)

Sister Vineetha Thankappanair², Ms Alexandra Keates², Dr Tristan Barret¹, Professor Vincent Gnanapragasam¹

¹University of Cambridge, Cambridge, UK, ²Cambridge University Hospitals NHS Trust, Cambridge, UK

P8-6 The impact of initiating ADT on PSMA PET/CT imaging

Mr Mostafa Ragab¹, Dr Michael Kay¹, Mr Amit Mevcha¹, Mr Joshua Phillips¹, Mr Andrew Wedderburn¹, Mr Kevin Turne¹

¹University Hospital Dorset, Bournemouth, UK

P8-7 Self-removal of Catheter after Robot Assisted Radical Prostatectomy – Saving the Planet One Catheter at a Time

Mr Wissam Abou Chedid¹, Maria Innes¹, Helen Casson¹, Mr Dimitrios Moschonas¹, Mr Matthew James Alexander Perry¹, Mr Wissam Abou Chedid¹

¹Royal Surrey County Hospital, Guildford, UK

P8-8 FRAX fracture risk and clinical fracture incidence in men with metastatic hormone sensitive prostate cancer (mHSPC): a HES-linked study in STAMPEDE trial patients

Mr Craig Jones¹, Laura Murphy, Macey L Murray, Louise C Brown, Janet Brown, Eugene McCloskey, Matthew R Sydes, Nicholas D James, Noel W Clarke, Ashwin Sachdeva

¹Christie and Salford Royal NHS Hospitals, Manchester, UK

P8-9 Identifying Prognostic Factors for Poorer Mental Wellbeing Outcomes in Prostate Cancer within the Prospective MIND-P Cohort Study: An Interim Analysis

Mr Oliver Brunckhorst¹, Mr Jaroslaw Liszka¹, Dr Callum James¹, Dr Jack Fanshawe², Prof Robert Thomas³, Mr Shahid Khan⁴, Prof Matin Sheriff⁵, Prof Hashim Ahmed⁶, Prof Prokar Dasgupta¹, Mr Kamran Ahmed¹, et al,

¹King's College London, London, UK, ²Queen Elizabeth Hospital, London, UK, ³Bedfordshire Hospitals NHS Foundation Trust, Bedford, UK, ⁴East Surrey Hospital, Redhill, UK, ⁵Medway NHS Foundation Trust, Gillingham, UK, ⁶Imperial College London, London, UK

P8-10 Targeted Prostate Health Checks, a novel system to identify those prostate cancer patients who failed to present during the pandemic.

Professor Stephen Langley¹, Dr Jeremy Goad³, Sister Michele Pietrasik¹, Dr Alex Norman², Dr Catherine Hodges², Mr Lee Foster², Mrs Stephanie Bell², Ms Lara Brooks³, Dr Edward Bosonnet³, Dr Matthew Knight³

¹Stokes Centre for Urology, Royal Surrey Hospital, Guildford, UK, ²Surrey and Sussex Cancer Alliance, Guildford, UK, ³Medefer Ltd, London, UK

MEETING
19-21 June

Tuesday 20 June, 1400-1500, Hall 9

ePoster Session 9

Stones / Imaging / Upper Tract Disorders 2

Chairs: **Hrishikesh Joshi**, University Hospital Cardiff and **Danielle Whiting**, Royal Surrey Hospital

P9-1 Moses laser lithotripsy vs Thulium fibre laser for flexible ureteroscopy(f-URS) for renal stones: Is there a clear winner? Outcomes from the FLEXOR study

Miss Mriganka Mani Sinha¹, Dr Vineet Gauhar², Prof Bhaskar K Somani³, Group Tower Group²

¹Cheltenham General Hospital, Cheltenham, UK, ²Department of Urology, Ng Teng Fong General Hospital, Singapore, ³University Hospital Southampton, Southampton, UK

P9-2 Pediatric retrograde intra renal surgery (RIRS) with Thulium fibre laser (TFL) or High power Holmium laser: Which one to choose from - An experience in 126 cases

Miss Mriganka Mani Sinha¹, Dr EG Rojo¹, Dr Vineet Gauhar², Dr Oliver Traxer³, Dr L Ea Jean¹, Dr Deepak Ragoori⁴, Dr Daniel Castellani⁵, Prof Bhaskar K Somani⁶

¹Cheltenham General Hospital, Cheltenham, UK, ²Ng Teng Fong General Hospital (NTFGH), Singapore, ³Department of Urology AP-HP, Sorbonne University, Tenon Hospital, Paris, France, ⁴Asian Institute Of Nephrology & Urology, Hyderabad, India, ⁵Urology Unit, Azienda Ospedaliero-Universitaria Ospedali Riuniti di Ancona, Università Politcnica delle Marche, Ancona, Italy, ⁶University Hospital Southampton, Southampton, UK

P9-3 Functional outcomes from stent or nephrostomy insertion in the Scottish Malignant Ureteric Obstruction Study

Mr James Blackmur¹, Dr Oliver Llewellyn², Miss Rachel McLennan³, Miss Lynne Kerr⁴, Mr Ben Thomas⁵, Dr Neil Young⁶, Professor Paramananthan Mariappan⁵, Professor Alan McNeill⁵, Mr Seamus Teahan³, Mr Alexander Laird¹, et al.

¹Department of Urology, University Of Edinburgh/NHS Lothian, Edinburgh, UK, ²Radiology Department, NHS Lothian, Edinburgh, UK, ³Department of Urology, NHS Greater Glasgow and Clyde, Glasgow, UK, ⁴Department of Urology, NHS Ayrshire and Arran, Ayr, UK, ⁵Department of Urology, NHS Lothian, Edinburgh, UK, ⁶Department of Radiology, NHS Tayside, Dundee, UK

P9-4 Renal aspirate culture during ureterorenoscopy - Is it worth it?

Miss Naomi Drye¹, Mr Samuel Shillito², Mr Agapios Gkentzis ChM FRCS (Urol)³

¹York Hospital, York, UK, ²Stepping Hill, Stockport, UK, ³Royal Bolton Hospital, Bolton, UK

P9-5 Comparison of stent-related symptoms between conventional double-J stents and two novel metallic stents: a validated-questionnaire-based study.

Ms Anastasia Kantartzis^{1,2}, Mr Christopher Khoo², Mr Hamid Abboudi², Mr Tamer El-Husseiny²

¹Lewisham And Greenwich Nhs Trust, London, UK, ²Imperial College Healthcare NHS Trust, London, UK

P9-6 Ureteroscopy in Patients with Urinary Diversion: Outcomes and Lessons Learned from two European Tertiary Referral Centres

Mr Vaki Antoniou¹, Mr Patrick Juliebø-Jones, Mr Christian Arvei Moen, Mr Peder Gjengstø, Mr Mathias Sørstrand Æsøy, Mr Christian Beisland, Mr Øyvind Ulvik, Professor Bhaskar Somani

¹University Hospital Southampton, Southampton, UK

P9-7 A multicenter propensity score matched pair study in 313 patients comparing percutaneous nephrolithotomy versus retrograde intra renal surgery for management of urolithiasis in calyceal diverticulum

Miss Mriganka Mani Sinha¹, Prof Bhaskar Kumar Somani², Dr Daniele Castellani³, Dr Deepak Ragoori⁴, Dr Abhay Mahajan⁵, Dr Pankaj Nandkishore Maheshwari⁶, Dr Nariman Gadzhiev⁷, Dr Yiloren Tanidir⁸, Dr Bin Hamri Saeed⁹, Dr Olivier Traxer¹⁰, Dr Vineet Gauhar¹¹

¹Cheltenham General Hospital, Cheltenham, UK, ²University Hospital Southampton, Southampton, UK, ³Azienda ospedaliero-universitaria Ospedali riuniti di Ancona, Università Politecnica delle Marche, Ancona, Italy, ⁴Asian Institute Of Nephrology & Urology, Hyderabad, India, ⁵Mahatma Gandhi Medical College and Hospital, Aurangabad, India, ⁶Fortis hospital Mulund, Mumbai, India, ⁷Endourology department, Saint-Petersburg State Medical University, Russia, ⁸ Department of Urology, Marmara University, School of Medicine, Istanbul, Turkey, ⁹Advanced Laser Endourology at king Abdulaziz National Guard Medical City, Saudi Arabia, ¹⁰Department of Urology AP-HP, Sorbonne University, Tenon Hospital, Paris, France, ¹¹Ng Teng Fong General Hospital (NTFGH), Singapore

P9-8 Is Primary Treatment of the Stone Safe in the Presence of Urosepsis?

Dr Andrew Mcintyre-robinson¹, Dr Geena Loke¹, Dr Carmella Catlow, Mr Jonathan Masters¹

¹Whangarei Hospital, Whangarei, New Zealand

P9-9 Covid Killed Kidneys: a comparison of the management of benign non-functioning kidneys before and during the COVID era.

Dr Chirag Rao¹, Mr Zhi-Yang Low², Ms Siobhan Price², Ms Dani Velinova², Mr Vimoshan Arumuham², Ms Sian Allen², Mr R. Daron Smith²

¹Epsom And St Helier University Hospitals NHS Trust, London, UK, ²Institute of Urology, University College London Hospitals NHS Foundation Trust, London, UK

P9-10 Endoscopic Management of Upper Tract Urothelial Carcinoma at a Tertiary Centre Over An 11-Year Period-A Retrospective Single Cohort Analysis

Mr Paul Gravestock¹, Mr Bhavan Prasad Rai¹, Mr Alistair Rogers¹, Mr Matthew Shaw¹, Mr David Rix¹, Mr Rajan Veeratterapillay¹

¹Freeman Hospital, Newcastle Upon Tyne, UK

Tuesday 14 June, 1400-1500, Hall 10

ePoster Session 10

General Urology 1

Chairs: **Su-Min Lee**, Southmead Hospital, Bristol and **Anna Wright**, Bradford Royal Infirmary

P10-1 Aquablation Therapy® vs Transurethral Resection of the Prostate: 5-year Outcomes of the WATER Randomized Clinical Trial for Medium-sized Prostates

Mr Richard Hindley¹, Dr Kussil Oumedjbeur, Dr Ahmed Ibrahim, Dr Imad Matta, Dr David-Dan Nguyen, Dr Adel Areski, Dr Iman Sadri, Dr David Bouhadana, Dr Tawfik Elsherbini, Prof Peter Gilling, Mr Neil Barber, Dr Mihir Desai, Dr Alexis E Te, Dr Claus G Roehrborn, Dr Kevin C Zorn
¹Hampshire Hospitals FT, Basingstoke, UK, ²University of Winchester, Winchester, UK

P10-2 Aquablation for Benign Prostatic Hyperplasia in Large Prostates (80-150mL): FINAL 5-year Results

Mr Neil Barber¹, Dr Naeem Bhojani, Dr Mitch Humphreys
¹Frimley Health, Camberley, UK

P10-3 Undertreatment affects Prostatic Urethral Lift (PUL) durability in pooled analysis of 330+ subjects

Dr Neil Barber¹, Dr Claus Roehrborn, Dr Steven Gange, Dr Mark Rochester, Dr Peter Chin
¹Frimley Park Hospital, Camberley, UK

P10-4 Prostatic Urethral Lift (PUL) provides consistent patient experience outcomes for men with lateral and median lobe obstruction

Dr Neil Barber¹, Dr Gregg Eure, Dr Karl-Dietrich Sievert, Dr Christian Gratzke, Dr Daniel Rukstalis
¹Frimley Park Hospital, Camberley, UK

P10-5 Success Predictors and Long-term Durability in Acute Urinary Retention (AUR) Patients Treated with the Prostatic Urethral Lift (PUL)

Dr Mark Rochester¹, Dr. Oliver Kayes, Dr. Neil Barber, Dr. Rajesh Kavia, Dr. Toby Page, Dr. Nikesh Thiruchelvam, Dr. Gregg Eure
¹Norfolk And Norwich University Hospital, Colney, UK

P10-6 Efficacy of modified mini bladder neck incision with prostatic urethral lift in men with LUTS secondary to high tight bladder neck and BPE: Single Urology Institution's Experience

Dr Rami Abuseedou¹, Mr Keng NG, Mr Neil Barber
¹Frimley Park Hospital, Surrey, UK, ²Frimley Health, Surrey, UK

P10-7 Is Power Everything in HoLEP Surgery? Efficiency of a Low-Power Holmium Laser at Enucleating Large Prostates

Mr Mohamed Hassan¹, Mr Anish Pushkaran¹, Mr Rickaz Raheem¹, Mr Angus Campbell¹, Mr Mohammed Saleemi¹, Mr Barnaby Barrass¹, Mr Ian Nunney², Mr Farooq Khan¹
¹Luton & Dunstable NHS Foundation Trust, Luton, UK, ²Norwich Medical School, Norwich, UK

P10-8 Defining the Learning Curve in HoLEP Surgery from a Contemporary Series of

1000 Cases

Mr Anish Pushkaran¹, Mr Mohammed Hassan¹, Mr Richaz Raheem¹, Mr Angus Campbell¹, Mr Mohamed Asad Saleemi¹, Mr Barnaby J R Barrass¹, Mr Ian Nunney², Mr Farooq Khan¹

¹Luton & Dunstable NHS Foundation Trust, Luton, UK, ²Norwich Medical School, Norwich, UK

P10-9 Transperineal Laser Ablation (TPLA) of the prostate. The first UK patients treated.

Mr Chris Ogden, MR Abul Kashim Mohammed Anisul Haque, Ms Deepa Leelamany

¹UCL and Princess Grace Hospitals, London, UK

P10-10 Rezum thermotherapy for large prostate volumes (>/= 80 cc): 2-year clinical outcomes

Dr Abdulla Uthman¹, Dr Martin J Connor², Dr Charlie Khoo², Dr Amar Rai², Dr Edward J Bass², Dr Sanjiv Agarwal², Dr Ranan Dasgupta², Dr Mathias Winkler², Dr Hamid Abboudi², Dr Tamer El-Husseiny², Professor Hashim U Ahmed²

¹Cwm Taf Morgannwg University Health Board, Cardiff, UK, ²Imperial College Health Care NHS Trust, London, UK

TUF-BAUS Best of the Regions

Chairs: **Mark Lynch**, Croydon University Hospital, Surrey, **Imran Ahmad**, Queen Elizabeth University Hospital, Glasgow and **Caroline Moore**, University College Hospital, London

P12-1 Is the need to treat acute ureteric stones within 48 hours necessary for Shockwave Lithotripsy?

Mr Jacob Wilson¹, Mr Sam Compton², Miss Abigail Irish², Miss Jodie Prynn², Miss Glynis Sanderson², Mr Jonathan Manley², Mr James Dunn², Mr Andrew Dickinson²

¹Cheltenham General Hospital, Cheltenham, UK, ²Plymouth Hospitals NHS Foundation Trust, Plymouth, UK

P12-2 The impact of initiating Androgen Deprivation Therapy on PSMA PET/CT imaging

Mr Mostafa Ragab¹, Dr Michael Kay¹, Mr Joshua Phillips¹, Mr Amit Mevcha¹, Mr Andrew Wedderburn¹, Mr Kevin Turner¹

¹University Hospital Dorset NHS Foundation Trust, Bournemouth, UK

P12-3 An acute scrotal pain pathway incorporating the TWIST score and ultrasound has decreased the time to scrotal exploration and the negative exploration rate, without any missed testicular torsion

Mr Samuel Folkard¹, Mr Chim Chipeta¹, Mr Ed Hart¹, Dr Sarah Lim¹, Dr Chigoziem Ogbolu¹, Dr Amaury Trockels¹, Dr Erica Mulholland¹, Dr Samaher Al Binali¹, Dr Sharon Darkwa¹, Mr Max Kemp², Mr Ian Rudd¹, Mr Ali Henderson¹

¹Maidstone and Tunbridge Wells NHS Trust, Maidstone, UK, ²Kent and Medway Medical School, Canterbury, UK

P12-4 The design and validation of a low-cost trans perineal (TP) prostate biopsy simulator for training: improving trainees' confidence and cognitive targeting skills

Miss Kelly Ong¹, Mr David Dryhurst¹, Mr Philip Bald, Mr Rahul Lunawat¹, Mr Saif Ahmed², Miss Gauri Thapa², Miss Alice Tirnoveanu², Mr Richard Webb², Mr Eqram Rahman², Professor Sri Sriprasad²

¹Princess Royal University Hospital, Bromley, UK, ²Canterbury Christ Church University

P12-5 Management of small testicular masses: outcomes from a single-centre specialist multidisciplinary team

Mr Jamie Lindsay, Mr Shafi Wardak², Mr Karl H. Pang³, Mr Fabio Castiglione³, Dr Miles Walkden⁵, Dr Dan Heffernan Ho⁵, Dr Alex Kirkham⁵, Mr Paul Hadway², Mr Raj Nigam³, Mr Rowland Rees³, Dr Constantine Alifrangis⁸, Mr Hussain M. Alnajjar³, Mr Asif Muneer⁹

TUF is delighted to be part of BAUS 2023

**Come and see us at our sessions, and our stand in the Exhibition Hall,
to learn more about how we can support you in your career**

**Monday 19 June
3.00pm, Hall 1**

**TUF Guest Lecture
"Survival of the Fittest"
given by Sir Tom Hughes-Hallett**

**Tuesday 20 June, 7.00am,
ICC , Centenary Square**

BSoT Fun Run for TUF

**Wednesday 21 June,
8.00am, Hall 11a**

**Research in Focus: Bringing the
urological community together
to accelerate progress**

**Wednesday 21 June,
11.30am, Hall 10**

TUF - BAUS Best of the Regions

**Monday 19 - Wednesday 21
Exhibition Hall, Stand 602**

**Come and meet members of the
TUF Team on Stand 602**

**We are proud to work with researchers, nurses, consultants,
trainees, surgeons, industry, decision makers, patients
and their families to improve the nation's urology care**

BJUI
Compass

By the Honorary Secretary Elect

Welcome to BAUS 2023. As we recover from the pandemic and the NHS goes through a turbulent time with post covid recovery programmes and problems with pension, tax and pay; we look forward to the conference where we have included topics that interest and concern the urology communities and arms us with up-to-date knowledge and skills for our day-to-day practice, varied that maybe.

The conference continues in the same format as the successful 2022 meeting with an earlier start on Sunday and then opportunities to once again network, socially interact and update on scientific progress over the last year. BAUS sections chairs, course directors and the events team lead by Harry Heald, have done a tremendous job in bringing the teaching courses and the skills sessions to you.

#BAUS23 offers a hybrid approach for the Courses, with more face-to-face teaching and skills courses. The successful format of the skills courses from last year has been re-energised to again offer opportunities to get simulation training and helpful pointers and discussions with expert international faculty.

The transperineal prostate biopsy course faculty will be led by Rajan Veeratterapillay and Matthew Shaw along with consultant radiologists and specialist nurses, taking us through the nuances of TP biopsy and prostate MRI.

Male LUTS surgery is at the fore front of the recovery programme. Ananda Dhanasekharan and colleagues' simulation course (Basic & Advanced) on Ambulatory treatment options for Benign Prostate Enlargement course has simulation learning for Urolift, Rezum, iTind and green light laser vapourisation looks to be a favourite for the attendees.

Introduction to Robotics lead by Vishwanath Hanchanale & Bhavan Rai continues to be well subscribed providing a framework, tips & tricks for Robotic Urological Surgery. This is going to be an indispensable and useful course for beginners and surgical practitioners alike.

For the younger generation looking to Urology as a career, Jennifer Nowers & Megan Thomas (Trainees) continue to run the Urology NTN Simulated Interview for the CT/Fellows/junior SAS doctors looking into entering the Higher urology training programme. This course has a 1:1 opportunity for mock interviews, six different stations, reflecting the NTN interviews. Popular teaching courses are returning for the first time in four years, such as the Good urodynamics practice with Chris Harding leading this iconic course and the return of the Paediatric urology course with Peter Cuckow. We have the Endourology section revamping the Updates in Stone management with Hari Ratan and Bhaskar Somani promising to bring a stellar panel.

The Journal of Clinical Urology team lead by Bhaskar Somani and Colleagues will tease the nuances of 'How to Write a paper' sharing their wealth of experience. This course will also have experts advising writing grant applications; a 'must' course for the budding academics and clinical researchers.

The virtual teaching courses continue with all Sections contributing for 2023, bringing a wide range of courses for all levels of training and Consultant/Senior SAS grades across all sub-specialties. Andrology sub-section offer courses on penile cancer (Arie Parnham & Ayo Kalejaiye), Male factor Infertility (Asif Muneer) and Andrology Emergencies (Richard Percy & Ayo Kalejaiye). A Masterclass in Bladder cancer is presented by Dominic Hodgson. Sheilagh Reid and Mahreen Pakzad's Neuro-urology for the general urologist course developed last year continues. Courses on Research Methodology course and Genomics in Urology (Vincent Gnanapragasam) will help us understand the nuances of Research and genomics. We also have courses on navigating the CESR route by Mehwash Nadeem & Ajay Pahuja; and the course Thriving as a Consultant led by Sunjay Jain, which should help navigate the early pitfalls of independent urology practice.

I am looking forward to these opportunities for us to learn and reflect, and deeply grateful to the faculty on behalf of BAUS, for delivering high quality courses.

Finally, I would like to take this opportunity to thank Ian Pierce for his support, guidance and friendship over the last two years; and more so for his zeal to widen the pool of speakers and better representation.

Best wishes,

Joe Philip

Honorary Secretary Elect

Advanced Accelerator Applications symposium at the BAUS Annual Scientific Meeting 2023

WHEN: TUESDAY, 20TH JUNE 2023 | 17:30–18:00

WHERE: Hall 1, International Convention Centre,
Broad Street, Birmingham B1 2EA

**Please
join us**

for an interactive
30-minute panel
discussion with
our expert
multidisciplinary
faculty:

CHAIR

MR WILLIAM CROSS
Consultant Urologist
Leeds Teaching Hospitals
NHS Trust

PANELLISTS

PROFESSOR AMIT BAHL
Consultant Clinical Oncologist
University Hospitals Bristol
and Weston NHS Trust

DR AMY ECCLES
Consultant Radionuclide Radiologist
Imperial College Healthcare
NHS Trust

Adverse Event Reporting:

Adverse events should be reported. Reporting forms and information can be found at <https://yellowcard.mhra.gov.uk/>. Adverse events should also be reported to Novartis via uk.patientsafety@novartis.com or online through the pharmacovigilance intake (PVI) tool at www.novartis.com/report. If you have a question about the product, please contact Medical Information on 01276 698370 or by email at medinfo.uk@novartis.com

This promotional meeting is organised and funded by Advanced Accelerator Applications, a Novartis company.
Advanced Accelerator Applications products will be discussed at this meeting.
Prescribing information and adverse event reporting details will be available at the meeting for all products discussed.

FRCS (UROL) REVISION
COURSE SEPTEMBER
2023

25-29 SEPTEMBER 2023
COLLEGE COURT, LEICESTER

Course 1: Paediatric Urology

Monday 19 June 2023

Hall 11B

1100-1300

60 Places

Cost: £40 BAUS Member & £75 Non-Member

Course Director: **Peter Cuckow**, The Portland Hospital for Women and Children, London

Outline and Objectives

The aim of this course is to reinforce and support the practice of paediatric urology outside a specialist unit. We are grateful that we can continue to provide a focus on children within the BAUS meeting and an opportunity for established Consultants and interested trainees to meet. There will also be didactic mini lectures on key topics, each led by a paediatric urologist and illustrated by appropriate clinical scenarios. We do hope, as usual, to provide a 2-hour interactive feast that will leave delegates better equipped – be it for forthcoming exams or their next paediatric clinic.

Faculty

May Bisharat, Consultant Paediatric Urologist, Addenbrookes Trust, Cambridge

Aline Broch, Consultant Paediatric Urologist, Great Ormond Street Hospital for Children NHS Trust, London

Navroop Johal, Consultant Paediatric Urologist, Great Ormond Street Hospital for Children NHS Trust, London

Kevin Cao, SPR in Paediatric Surgery, Addenbrookes Trust, Cambridge

Courses 2, 3 & 4: Skills Course: Ambulatory Treatment Options for Bladder Outflow Obstruction

Monday 19 June 2023	1100-1300	Hall 6
Monday 19 June 2023	1400-1530	Hall 6
Monday 19 June 2023	1630-1800	Hall 6
20 Places Per Course	Cost: £50 BAUS Member & £90 Non-Member	

Course Director: **Ananda Kumar Dhanasekaran**, Sandwell & West Birmingham Hospitals NHS Trust

Aim

This course will provide hands-on training on ambulatory treatment options for BPE like UroLift, Rezum, iTind, Aquablation and Green Light vaporization for BPE.

Outline and Objectives

1. To introduce the newer treatment options for the benign prostatic enlargement to the participants
2. Hands-on simulation-based training on the principles, procedure and trouble shooting
3. Discuss the existing evidence and guidelines on the newer treatment modalities
4. Empower the participants to choose the best treatment option for their patients
5. Facilitate the participants to start the ambulatory treatment pathway in their practice

This course is aimed as a single source to learn and practice the newer ambulatory treatment options for benign prostatic enlargement. Because of rapidly changing evidence and guidelines, this course will enable participants to get up-to-date details. This course will empower the participants to take up the newer modalities in their practice resulting in better patient outcomes. This will be in line with National GRIFT protocols.

Faculty

One-Stop LUTS Clinic	Vinnie During , New Cross Hospital, Wolverhampton Tamer El-Husseiny , Charing Cross Hospital, London Leena Anthony , Imperial College Healthcare NHS Trust
UroLift	Nick Bryan , Huddersfield Royal Infirmary Mark Rochester , Norfolk And Norwich University Hospital
Rezum	Kasra Saeb-Parsy , Addenbrooke's Hospital, Cambridge
iTind	Gordon Muir , King's College Hospital, London Keng NG , HCA The Princess Grace Hospital, London
Green Light Vaporization	Sanjay Rajpal , Airedale General Hospital Feras Al-Jafaari , NHS Fife
Aquablation	Neil Barber , Frimley Park Hospital

Course 5: Teaching Course: JCU: How to Write a Paper and Successful Grant Application

Monday 19 June 2023

Hall 11B

1630-1800

60 Places

Cost: £40 BAUS Member & £75 Non-Member

Course Director: **Bhaskar Somani**, Southampton General Hospital and Editor, JCU

Outline and Objectives

This course will cover scientific writing, manuscript preparation, pitfalls, submission, and revision of manuscripts. It will also focus on grant and funding applications, structure, planning and engaging with the funders.

This course is intended for trainees to consultants wishing to write papers or grants and improve their skills and chances of making these a success.

Faculty

Hashim Ahmed, Charing Cross Hospital, London

Caroline Moore, University College Hospital, London

Courses 6 & 7: Skills Course: LA Transperineal Biopsy of Prostate & MP-MRI Prostate Interpretation for Urologists

Tuesday 20 June 2023

Hall 6

1100-1230

Tuesday 20 June 2023

Hall 6

1400-1630

20 Places Per Course

Cost: £50 BAUS Member & £90 Non-Member

Course Directors: **Rajan Veeratterapillay**, Freeman Hospital, Newcastle and **Matthew Shaw**, Freeman Hospital, Newcastle

Aims and Objectives

- To discuss the technique for local anaesthetic prostate biopsies (LATP)
- To discuss the setup and equipment required for LATP
- To perform LATP on a simulated model
- To describe the role of MRI in prostate cancer diagnostics
- To identify MRI prostate abnormalities to guide prostate biopsy

Faculty

Andy McNeill, Consultant Radiologist, Freeman Hospital, Newcastle

Ishaana Munjal, Consultant Radiologist, Freeman Hospital, Newcastle

Jonah Ruser, Urology Clinical Nurse Specialist, Guy's and St Thomas' Hospital, London

Tariq Dosani, Freeman Hospital, Newcastle

Edgar Paez, Freeman Hospital, Newcastle

Rahul Gujadhur, Freeman Hospital, Newcastle

Campbell Tait, Freeman Hospital, Newcastle

Stefanos Bolomytis, Southmead Hospital, Bristol

Course 8: Teaching Course: Simulated Course for Urology NTN Interviews

Wednesday 21 June 2023

Hall 4

0800-0930

12 Places

Cost: £25 BAUS Member & £35 Non-Member

Course Directors: **Jennifer Nowers**, West Midlands NTN Trainee, New Cross Hospital, Wolverhampton and **Megan Thomas**, ST Lead for 'Students for Urology', Wales NTN Trainee, Royal Gwent Hospital, Newport

Outline and Objectives

The aim of this face-to-face course is to provide a first-hand experience on how to perform in the interview process to be successful in getting an NTN.

Target Participants

Aimed at Core Surgical Trainees (CST) and Trust Grade Doctors interested in applying for the Urology NTN in 2024 and 2025. The aim of this course is to provide an opportunity for the participants to have their portfolios reviewed by the faculty on a 1 to 1 basis to strengthen their application. Other stations will provide a simulated setting for practice of clinical scenarios and communication skills as well as provide tips & tricks to enhance their chance of having a successful interview.

Programme

Introduction talk on how the course will run with tea, coffee and pastries provided. Talk from a successful trainee on preparation, including tips and tricks for the application process.

6 stations with 1:1 faculty: participant ratio.

There will be 12 candidates for the session with 12 faculty members. Each candidate will be on a circuit of 6 stations, 1 minute to read each scenario, and 9 minutes of questions and answers.

Each candidate will need to bring their portfolio to the session. Please keep portfolios focused to the most recent self-assessment scoring system available on the urology national recruitment website.

1. Portfolio station
2. Outpatient station
3. Emergency Station
4. Practical Skills Station
5. Communication Station
6. MCQ Station

We will be doing a speed dating style feedback session for all candidates to get immediate verbal feedback on their performance at the end of their circuit.

Outcome

We hope this course will be a fairly accurate representation of the interview process, with common themes and scenarios. Invaluable individual advice and feedback regarding performance and portfolios will be provided to each candidate.

Faculty

The faculty are all current NTN's who have been successful in the national selection process and motivated to help the trainees to focus on their skills to be successful at the interview. They are ideally placed to review, discuss, and share their experiences with the participants

Anil Krishan, West Midlands NTN Trainee

Christina Fontaine, Southwest NTN Trainee

Jacob Wilson, Southwest NTN Trainee

Mariele Trimboli, Wales NTN Trainee

Raghav Varma, West Midlands NTN Trainee

Mike NG, Southwest NTN Trainee

Francesca Lewis, Southwest NTN Trainee

Sarah Prattley, Wales NTN Trainee

Courses 9 & 11: Skills Course: Introduction to Robotics

Wednesday 21 June 2023	Hall 6	1130-1300
Wednesday 21 June 2023	Hall 6	1400-1600
20 Places Per Course	Cost: £50 BAUS Member & £90 Non-Member	

Course Directors: **Vishwanath Hanchanale**, Royal Liverpool University Hospital and **Bhavan Rai**, Freeman Hospital, Newcastle,

Outline

This course will provide a good understanding of robotic technology and enable the delegates with basic robotic skills (Urology) with an emphasis on robotic urological procedures.

Aims and Objectives

- To become familiar with the ergonomics of Robotic Surgical System
- To learn the components and Setup of the Surgical Robot (Console, Patient Cart and Vision Cart)
- To learn Robotic Instruments Used for Different Robotic Abdominal Procedures
- To learn Robot Docking and Undocking
- To understand the concepts on patient position, surgical team and robotic surgical approaches
- To learn basic concepts in robotic urological procedures (i.e. Robotic Prostatectomy, Robotic Partial Nephrectomy, Cystectomy...)

Overview

Delegates will be split into two groups, with first group having practical skills session and the second learn the basic concepts in robotics with emphasis on robotic urological procedures.

Group 1: 2 trainees at each station (12-15 minutes with each station)

- Station A: Robotic skills with the simulator
- Station B: Patient positioning, docking, undocking,
- Station C: Approach, instruments, energy sources

Group 2: Learning Concept of Robotic Urology with emphasis on robotic urological procedures

Faculty

Mohantha Dooleniya, Mid Yorks NHS Trust, Wakefield

Robin Weston, Liverpool University Hospitals NHS Foundation Trust

Philip Charlesworth, Royal Berkshire Hospital, Reading

Arjun Nambiar, Freeman Hospital, Newcastle

Muddassar Hussain, Frimley Park Hospital

Justine Royle, Aberdeen Royal Infirmary and JCST Chair, SAC in Urology

Gokul Kandaswamy, Morrision Hospital, Swansea

Sherly Jose, Surgical Care Practitioner, Liverpool University Hospitals NHS Foundation Trust

Amy Bradburn, Surgical Care Practitioner, Newcastle University Hospitals NHS Foundation Trust

Brian Chaplin, The James Cook University Hospital, Middlesbrough

Course 10: Teaching Course: Good Urodynamic Practice

Wednesday 21 June 2023

Hall 11B

1130-1300

60 Places

Cost: £40 BAUS Member & £75 Non-Member

Course Directors: **Chris Harding**, Freeman Hospital, Newcastle-Upon-Tyne and **Laura Thomas**, Clinical Scientist, Bristol Urological Institute, Bristol

Aims and Objectives

This course aims to provide focused teaching to enable urologists to improve their skills in the topic area of urodynamic testing. There will be an emphasis on clinical aspects of urodynamics including interpretation of traces, quality control and troubleshooting. All the speakers are involved in similar courses, which are run successfully in the United Kingdom and Internationally. The aim is to teach and emphasize good urodynamic practice using accepted international standards. At the end of the workshop delegates should feel more confident in their practice of urodynamics, specifically interpretation of traces which is a required skill for the FRCS (Urol) viva examination.

Outline

Introduction

Chris Harding, Freeman Hospital, Newcastle-Upon-Tyne

Physics of Urodynamics in a nutshell

Andrew Gammie MA CEng MIEE CSci MIPEM, Clinical Engineer, Bristol Urological Institute, Bristol

Update on Good Urodynamics Practice

Emily Collinshaw, Clinical Scientist, Freeman Hospital, Newcastle-upon-Tyne

Running a video urodynamic test and troubleshooting

Laura Thomas, Clinical Scientist, Bristol Urological Institute, Bristol

Interpretation of Results and Traces using clinical scenarios

Chris Harding, Freeman Hospital, Newcastle-Upon-Tyne

Conclusion

Chris Harding, Freeman Hospital, Newcastle-Upon-Tyne

Faculty

Andrew Gammie MA CEng MIEE CSci MIPEM, Clinical Engineer, Bristol Urological Institute, Bristol

Emily Collinshaw, Clinical Scientist, Freeman Hospital, Newcastle-upon-Tyne

Laura Thomas, Clinical Scientist, Bristol Urological Institute, Bristol

Course 12: Teaching Course: Updates in Stone Management

Wednesday 21 June 2023

Hall 11B

1400-1600

60 Places

Cost: £40 BAUS Member & £75 Non-Member

Course Directors: **Bhaskar Somani**, Southampton General Hospital and Editor-in-chief JCU and **Hari Ratan**, Nottingham University Hospitals

Outline and Objectives

This course will provide an update for management of stone disease taking into account the latest developments in ESWL, Ureteroscopy, PCNL, Metabolic and Conservative management. We will also cover the latest technological concepts, nuances and evidence base to support it.

We will then have a few cases or video-based presentations from the faculty with discussion and audience participation. It will cover some practical aspects and 'tips and tricks' to help with decision making at all stages of patient journey.

Faculty

Sian Allen, University College Hospital, London

Kim Davenport, Cheltenham General Hospital

Jake Patterson, Royal Hallamshire Hospital, Sheffield

Emergency announcement

If it becomes necessary to evacuate the building, the following message will be broadcast:
“Ladies and Gentlemen, may I have your attention please. We must ask you to leave the building by the nearest exit as quickly as possible. Do not use the lifts and do not stop to collect personal belongings”

First Aid Emergencies

In cases of medical emergency call Security Control (0121 200 2000 option 1) giving the exact location of the casualty and details of injuries sustained. Security Control will then arrange for all necessary assistance. Alternatively, please contact the nearest Host.

Fire Procedures

An intelligent fire alarm system and audible sounders protect the ICC and Symphony Hall. There are portable fire extinguishers, fire hoses and a sprinkler system throughout.

In the event of discovering a fire in your vicinity:

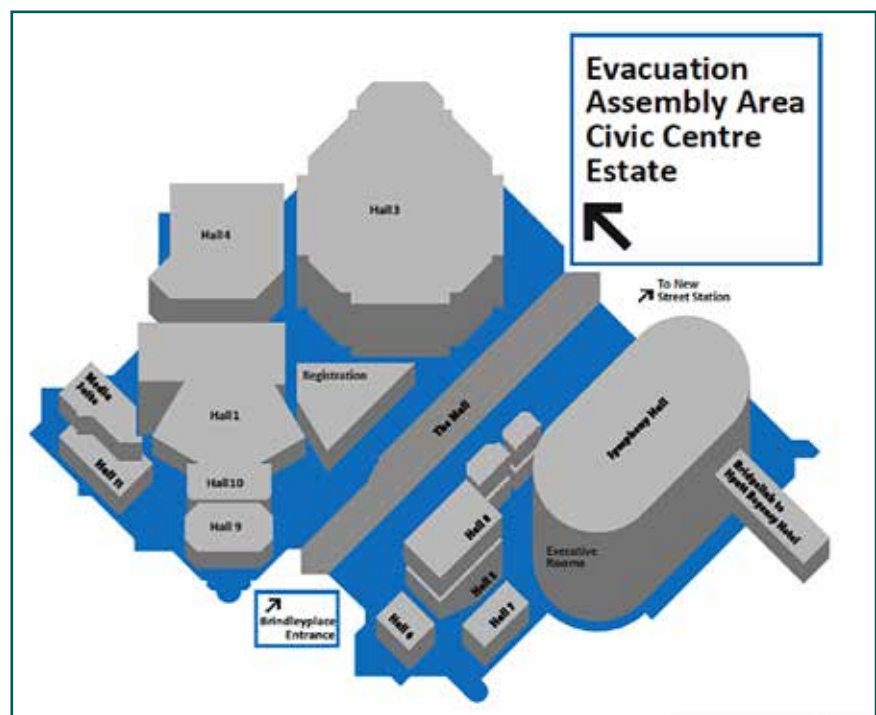

- 1) Raise the alarm by breaking the glass in the fire alarm call point.
- 2) Inform the Security Control Room on an internal telephone by dialling 3333 or inform the nearest Host giving location and nature of the fire.
- 3) Turn off all electrical equipment in your area, where safe and practicable to do so.
- 4) Follow Hosts’ instructions.
- 5) Make your way to the nearest fire exit; do NOT use lifts or escalators.
- 6) Do NOT go back to collect personal belongings.
- 7) Report to the assembly point on Civic Centre Estate and await instructions.
- 8) Please notify a Security Officer if you believe a member of your team is missing.
- 9) Only return to the building when instructed by a fire officer.

Security

Please remember to be vigilant throughout your event to ensure the safety of your property. If items cannot be watched then it is important that they are properly secured.

Evacuation Area

Located at Civic Centre Estate

ICC • 19-21 June 2023
