

Patients

Welcome to the patients' section of the BAUS website

Wednesday, 23 May 2012 02:50:37 BST

Use this page to navigate to information about urology in general ([Urology is ...](#)) and to more detailed information about urological conditions ([I think I might have ...](#)). The glossary of common urological terms can be searched alphabetically ([Glossary of terms](#)).

You will also find links to information leaflets/videos describing specific urological procedures ([I'm told I need ...](#)) together with information about who will be caring for you and how that care is normally structured ([Your patient journey](#)).

Please note: The BAUS Office staff are not medically trained and cannot provide medical advice or referrals. For medical advice, patients should contact their general practitioner in the first instance.

Robotic prostate surgery
