

BAUS North West Meeting 2025

Shaping the future of
urology in the North West

JAN
30 - 31

Hilton Hotel,
Liverpool

BAUS North West Meeting 2025

Welcome

It is with great pleasure that we welcome you to the northwest urology 2025 (#NWU25) annual regional meeting at the Liverpool Hilton Hotel. Needless to say, the committee and I were humbled and delighted with the wonderful feedback we received from last year's meeting in Manchester. We have worked very hard to ensure that we build on the momentum that has now been created and deliver an equally informative, sociable, and exciting meeting this year.

As we come to Merseyside, we hope that the meeting will have something for everyone. We begin on Thursday with the poster presentation prize session, a day which is designed to celebrate the work being performed around the region, whilst providing a valuable opportunity for colleagues in training to showcase their skills. We also have a wonderful guest speaker to inform and inspire the next generation of urologists! We conclude the day with three seminar sessions on mentorship, fellowship, artificial intelligence and, of course, the all-important national selection (ST3) application.

The social highlight of last year's meeting was the gala dinner which not only gave us all an opportunity to meet and socialise, but to celebrate the wonderful achievements of colleagues around the region. Please do get in touch with any achievements from around the region that you are aware of. We have managed this year to ensure that both the meeting and the gala dinner are within the same venue where we hope many of you will also decide to stay overnight. I've no doubt that the highlight of the evening as it was last year will be our after-dinner speaker!

For those feeling fresh eyed and eager we start the meeting on Friday at 8:00 AM with a breakfast yoga and well-being session! We have the usual mix of research and subspecialty updates throughout the day in the hope that you will leave well informed on all urological practice. I would like to extend my sincere thanks to Professor Roger Kirby and Mr Julian Shah, who require no introduction, for taking time out of their busy schedules to deliver what will no doubt be memorable lectures.

Lunch will be followed by the annual Mersey versus Manchester regional quiz, and the winners of course take the bragging rights for the entire year!

It will not be lost on you that a meeting like this cannot be arranged without the tireless work of the entire committee. I probably have the easiest job of all given the phenomenal effort and organisation from the committee. Coupled with this, we are so lucky to have the enormous support of industry partners without which this meeting simply would not be possible. Please join me in thanking both groups of individuals and please take time to speak with them.

I look forward to seeing you all on the last Thursday and Friday of January, in the new year. In the meantime, should you have any questions or indeed suggestions please feel free to contact us

Best wishes,
Vb

Mr. Vaibhav Modgil FRCS (Urol)
BAUS Northwest Regional Representative

On behalf of the BAUS North West Urology Meeting Committee

BAUS

Code of Conduct

The BAUS Code of Conduct for Meetings and Events applies to all in-person and online meetings, courses and events organised by the BAUS Events Team. By participating in this event, you agree to abide by this professional Code of Conduct.

1. Be respectful and kind. Treat everyone in the room with respect, even if you disagree with their viewpoint or ideas. Allow speakers to make their point uninterrupted.

2. Utilise inclusive language and behaviour, whilst acknowledging individual social and cultural values. Banter can be exclusionary and should be avoided.

3. Provide a safe and inclusive environment for BAUS staff, members and guests. Physical, verbal, written or other forms of abuse of any attendee, speaker, volunteer, staff member, exhibitor or other guest will not be tolerated.

4. Meeting chairs, and attendees, should feel empowered to challenge behaviour which does not adhere to the BAUS Code of Conduct.

5. All attendees are encouraged to act as active bystanders. For guidance on being an active bystander, visit:
<https://www.breakingthesilence.cam.ac.uk/preventionsupport/be-active-bystander>

6. Follow professional guidelines when using online social media in relation to BAUS meetings and events, and according to the social media platforms rules and etiquette. This includes guidance from the GMC (GMC Doctors' Use of Social Media, 2013) and BMA (Social Media, Ethics and Professionalism, 2018).

7. Attendees should not act in a sexual way towards other attendees at or around BAUS meetings and events. Unwanted, inappropriate and harmful sexual behaviours breach professional boundaries.

Learn Best Practices. Refine Your Technique.

Introducing the BAUS NWU25 Featured Speakers

Mrs. Dora Moon

Mrs. Dora Moon is a highly regarded upper tract urological surgeon, known for her expertise in uro-oncology and dedication to the field. Over the course of her career, she has faced and overcome challenges inherent to this demanding specialty, promoting excellence in patient care. By reflecting on her experiences and sharing valuable insights, Mrs. Moon hopes to inspire the next generation of uro-oncologists, offering guidance to those pursuing careers in the field.

Vikram Solanki

Vikram Solanki is a former English cricketer and successful coach. He represented England in over 50 One-Day Internationals and several Test matches. Joining us at the BAUS NWU25 Gala Dinner, Vikram will reflect upon his time coaching the Gujarat Titans to the IPL championship, providing insights into the strategies and leadership that led to their success. His experience as both a player and coach, combined with his engaging storytelling, promises to make for an inspiring and unforgettable evening.

Mr. Julian Shah

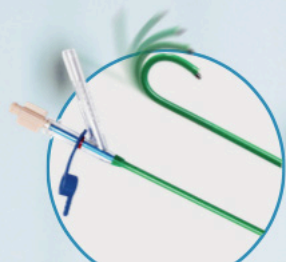

We are delighted to welcome Mr. Julian Shah, a distinguished expert in the field of urology, who will be addressing the crucial topic of Medico-Legal Challenges in Urology. With a wealth of experience in both clinical practice and legal aspects of healthcare, Mr. Shah brings a unique perspective on the complex intersection of medicine and law. His deep understanding of the challenges faced by healthcare professionals in the urological field, alongside his expertise in navigating legal frameworks, promises to provide invaluable insights.

Prof. Roger Kirby

Professor Roger Kirby, a leader in the field of urology, brings decades of expertise and an exceptional legacy to discussion. Having served as the President of the Royal Society of Medicine, he reflects on a career committed to advancing medical practice and education. With unparalleled experience as a clinician, researcher, and educator, Prof. Kirby has profoundly shaped the field of urology. In his talk, he draws on his remarkable journey to share invaluable lessons and insights, aiming to inspire and guide the next generation of urologists.

As one of the UK's leading suppliers of medical devices, BioSpectrum aim to improve patient outcomes through our portfolio of truly innovative endourology technologies

ClearPetra

The patented and original Flexible Suction Access Sheath as well as a range for Mini PCNL

Genius Morcellator

The most efficient and the best performing morcellator on the market.

Single Use Scopes

BioSpectrum offer a full range of single use ureteroscopes as well as cystoscopes

S - Dilators

High quality S-Dilators with added option of a complete 8Fr-26Fr kit

High Speed Dating

spirit of excellence

- **SHARK – Precision with bite**
SHARK resectoscopes can be used for laser enucleation of the prostate, as well as for bipolar enucleation.
- **Bipolar enucleation electrode – Enucleation simplified**
The cost-effective solution for EEP using HF surgery. The unique shape of the electrode enables fine and precise work, as well as effective coagulation and vaporization.
- **MegaPulse 70+ – Power. Flexibility. Usability.**
The MegaPulse 70+ holmium:YAG laser from Richard Wolf is an innovative product that enables a wide-ranging spectrum of treatments.
- **PIRANHA – Experience speed in a new way**
The highly efficient PIRANHA morcellation system completes the package for endoscopic enucleation of the prostate (EEP) and guarantees fast and precise morcellation.
