ENDOUROLOGY ANNUAL MEETING

8-9 September 2022
Hilton Ageas Bowl, Southampton

For more information contact events@baus.org.uk
Welcome to BAUS 2022. The return of face to face...

What a pleasure it is to write this welcome to the BAUS congress for 2022. The three years that have elapsed since we all met and celebrated together seem like an eternity and I’m sure we are relishing the chance to catch up, share ideas, challenge each other, and set new directions for our specialty. With that in mind be sure to put the first event of Congress 2022 in your diaries, viz, the ‘Welcome back to BAUS’ party on Sunday 12th June. The rooftop terrace of the Birmingham City library is a spectacular setting for what should be a wonderful celebration. See you on the Sunday...

The programme is extraordinarily wide-ranging reflecting both the breadth of our specialty and our perceptions of what success or failure can mean for a urologist. Is it the size of the minimal residual stone fragment or never getting the ‘dreaded letter’ from the GMC? Is it seeking the male body beautiful or more simply retiring at 50? Is it cloning a gene or helping deliver healthcare in rural Uganda? Truly a broad reaching programme....

As ever we also give delegates a chance to draw on the experience of a wide community to challenge their assumptions and hopefully improve their performance. Dr Marci Bowers, delivers the BAUS guest lecture on being a transgender surgeon offering gender affirming surgery; Andy Beynon on what teamwork and customer service means as a Michelin starred chef; and SAS officer Anthony De Normann on developing true resilience on the Brecon Beacons with 120 lbs on your back.

There are a host of innovations in this year’s programme but forgive me for mentioning one in particular. This is the ‘poster from every unit’ initiative situated in the mezzanine area of the Exhibition Hall. Those with good memories will remember it was an idea floated in the TSO’B presidential manifesto in 2018 and it now comes to fruition at this year’s congress. We truly believe that every unit has something worth sharing about the way they practise urology but to date may not have had the chance to do so. It will be fascinating to see what units have chosen to tell us...

A highlight for any President of BAUS is to bestow the Association’s medals on the worthy recipients at the annual congress. Once again, this year’s recipients are hugely distinguished, and all add to the incredible timeline of distinction since 1945. To David Ralph, Olivier Traxer, Caroline Moore, Nitin Shrotri, Duncan Summerton and Shekhar Biyani, I extend my warmest congratulations on behalf of all the members of BAUS.
It goes without saying that we are grateful to our sponsors who have put money into the congress to make it a success. There has been a fantastic response to the commercial opportunities at the congress this year which probably reflects a desire within industry to rebuild those relationships that may have gone a little quiet in the last two years. The pandemic created huge uncertainty around commercial sponsorship of surgical associations but fortunately industry support for BAUS never wavered. This year we have created far more time in the programme for networking in the exhibition so be sure to take advantage of that.

Thank you too to Harry Heald, Annabelle Masham, and Athene Madden in the BAUS office who have worked tirelessly to curate the programme, chasing speakers, sponsors, guests, presidents (!), hosts, medallists, chairs, venues, creche, hotels and menus. There has been a smooth efficiency to the process, and I congratulate them on a job well done.

My work at BAUS draws to a close at this congress and as I pass the presidential baton on to Jo Cresswell, I simply wish her the very best of luck for her time as president. It is a truly landmark moment in the history of BAUS. She has been a delight to work with over the last two years and I’m sure will do a wonderful job.

One final word from me is to thank Ian Pearce and Joe Philip for putting together such a fascinating programme. There is genuinely something for everyone at this year’s congress and I think it’s a programme that will generate conversations galore as we rejoice in the chance to meet again and share ideas and thoughts on the job we do and the work that needs doing.

Have a fabulous 3 days ....

Tim O’Brien
President
Welcome from the Honorary Secretary
Ian Pearce

On behalf of the BAUS Events, Joe Philip and myself, I would like to extend the warmest of welcomes to you all for the BAUS 2022 Annual Meeting here in the amazing and vibrant city of Birmingham.

Marking a long overdue return to in person meetings, BAUS 2022 promises to be a most enjoyable, educational, and memorable meeting, with a host of new innovative features to compliment the established.

In contrast to previous meetings, we have moved away from themed days to widen participation across all three days, and I am sure this will result in a pan specialty "buzz" around the Conference Centre for the full duration of the meeting. The volume of content remains amazingly high with over 40 hours of specialist section content, 15 poster sessions, daily plenaries, and sub-plenaries and 7 satellite sessions. The abstracts this year were of the highest quality and my thanks go to our abstract markers, whose difficult task was to whittle down the field to the 165 posters that are to be presented across the three days in Birmingham. An unenviable challenge to say the least! This, of course is in addition to the posters from every unit to which there was an overwhelming response with over 80% of units contributing to this new innovation.

Whilst is it clearly impossible for me to draw your attention to every single aspect of the meeting, I hope I will be forgiving for highlighting a few. The plenary sessions, as always are extra-ordinary, don’t miss “The Imposter Syndrome” session on Tuesday morning which promises to generate much comment and debate, the Monday session on “Fitness to Practice” and “Medical Regulation” on the Wednesday morning, all real eye-opening sessions.

The Guest lectures once again are in a class of their own and not to be missed, whilst the session on equality, diversity and inclusion at Wednesday lunchtime looks to inform and build on the all-important widening participation theme.

This year we have introduced some exciting breakfast sessions for those looking to get something different from their time at BAUS, so if you want to learn about Mavericks in Urology, have a go at anatomical drawing or meet the urological leaders of tomorrow over coffee and croissant, please sign up for these via the registration site as places are limited and enjoy breakfast on BAUS.

The social aspect of BAUS is perhaps more important and more yearned for now than ever before, a gap of three years between face-to-face annual meetings is not something any of us would have wished for or planned but was, of course, an inevitable consequence of the global pandemic which has swallowed up the past 2-3 years. With this in mind, we have extended coffee and lunch breaks to facilitate greater social interaction in and around what is destined to be a hugely atmospheric exhibition hall, as well as organizing two key evening social events.
On the Sunday, we will be opening the event with an informal “Welcome back to BAUS” reception on the Sunday evening. The venue for this is the Birmingham Library, a truly impressive location overlooking this incredibly city, and the largest library in Europe. Please do make a point of coming to Birmingham on the Sunday and attending this event, what a perfect way to start the meeting! On the Tuesday, the BAUS social event, open to all will be at the Grand Hotel, without doubt, the most stunning location for an evening event in the entire city, an event that is sure to generate great memories and one not to be missed.

The virtual meetings of 2020 and 2021 were a huge success and brought to the fore the potential of the digital world for educational content delivery amongst many others. I think it is now fair to say that engagement with the annual meeting is now open to everyone regardless of location. This year we have built on our experience of 2020 and 2021 with all sessions being recorded live for the virtual platform and being available once again for the next 6 months. In addition, the plenary sessions will be live streamed, cementing the ethos of broad engagement and participation for all regardless of circumstances. Further to this, and for the very first time, there will be a free creche at the Conference Centre, this will be available to book at the time of registration but for logistical reasons the closing date for creche bookings will be slightly earlier.

More than ever before, this is an inclusive and diverse BAUS annual meeting, with more colleagues involved than ever before, whether chairing, presenting, orchestrating, organizing or abstract marking, the sheer number involved in delivering this meeting is staggering and very much reflects that delivering such a meeting is absolutely a team effort.

Thanks of course also to our industry partners and sponsors, who have steadfastly supported BAUS throughout the years and continue to do so. The satellite sessions as always will prove to be cutting edge sessions delivered by key opinion leaders and the exhibition hall will be alive with delegates, stands and sponsors all catching up after the enforced meeting hiatus of the past few years.

Whatever your personal aspirations for your attendance at BAUS 2022, whether it’s being brought up to date in your own sub-specialty, learning of new developments in another, re-connecting with distant friends and colleagues, forging new relationships, or sharing wisdom, experience, and opinions with other likeminded colleagues, I am confident this meeting will deliver. Who knows, perhaps you may even be able to avoid the official BAUS photographer or force a draw with the world-famous Grand Master Daniel King as he plays simultaneous chess with multiple delegates!!

Finally, feedback shapes the future, please do complete the post meeting feedback questionnaire, these are always valuable for planning the next year’s meeting.

See you in Birmingham

Best wishes
Ian Pearce
Honorary Secretary
BAUS 2023
ANNUAL MEETING

19-21 June 2023
ICC Birmingham

For more information contact events@baus.org.uk
Abstract Book
Abstracts will be available online in the Conference Edition of the JCU from 7am on Monday 13 June.

Accommodation
BAUS is pleased to offer delegates an accommodation booking service which is provided by BCD Meetings & Events, the official accommodation providers for BAUS 2022. By securing allocations at hotels in Birmingham well in advance of the meeting, we have ensured that bedrooms in this popular city are available for delegates throughout the conference. Please book early to secure your preferred room - hotel requests are handled on a “first-come, first-served” basis and all rooms are subject to availability at the time of the booking.

Activity Challenge
Join in the Activity Challenge running from 13-15 June and complete tasks on the BAUS 2022 platform to earn points for a chance to win prizes including a pair of Apple AirPods, Fitbit and an Amazon Voucher.

Badge Scanning
We will be using badge scanning as lead retrieval. Exhibitors can scan delegate badge barcodes to download the following information:

• Name, Job Title, Place of Work (as you specify on your online registration form)

• Work Email address (as you specify on your online registration form)

You will receive 1 CME point for attending a Satellite Session and getting your badge scanned. Badge scanning by exhibitors is not compulsory. If you DO NOT wish to disclose this information to exhibitors, then do not allow your badge to be scanned. Please Note: BAUS Staff will scan you on the entrance into Satellite Sessions; this is purely for a count of attendance at the sessions.

BAUS 2022 Format
We are pleased to be returning to a face-to-face format for BAUS 2022 at the ICC Birmingham, after a two-year hiatus following virtual conferences in 2020 & 2021. Virtual attendance will be available, and content will be streamed live from the ICC Birmingham and available to watch via the BAUS 2022 Platform.

Certificate of Attendance
Certificates will be emailed to delegates from Wednesday 22nd June. Certificates for courses will only be issued to those who complete the assessment form and obtain a pass rate of 80%.

Clean Air Zone
Birmingham operates a clean air zone. No vehicle is banned from the zone, but vehicles of specified classes that do not meet emissions standards will be required to pay a daily charge if travelling within the area.

You can check if your car is eligible to drive within the Clean Air Zone without charge by visiting www.brumbreathes.co.uk.

The daily charges apply to the following vehicles: cars, taxis, LGVs, HGVs, coaches and buses and range from £8 for a private car to £50 for HGVs. The criteria for not incurring a charge differs across diesel, petrol, gas, electric and hybrid vehicles.

For further information, please click here.

Conference Catering
New for BAUS 2022, delegate registrations will include complimentary lunch each day. Hot Buffet lunch will be served on Monday 13 June & Tuesday 14 June and Deli Bistro lunch will be served on Wednesday 15 June. Lunch will be available from Exhibition Hall 3.

Continuing Medical Education
This meeting has been accredited with CME points as follows:

- Monday 13 June: 6 points
- Tuesday 14 June: 6 points
- Wednesday 15 June: 6 points

The Satellite Sessions are each accredited with 1 CME point.
COVID-19
We will continue to monitor the national & global situation and follow guidance issued by the UK Government and relevant Health Authorities. BAUS will be guided by social distancing measures imposed by the UK Government and relevant Health Authorities. We will follow social distancing measures and hygiene regulations. Currently, face coverings are not compulsory. However, you may wish to wear one walking around the venue or during more crowded times such as lunch and exhibition viewing. Please remember to bring one with you to the meeting as you may still be required to wear one in scenarios such as transport to the venue.

Creche
There will be creche facility provided at BAUS 2022. The creche will be run by Nipperbout who will run a daily timetable of activities. The creche will be FREE, however, we require all those who would require use of this facility to indicate during the online registration system by 31st March. Please note: if we do not get any uptake by 31st March, BAUS will not provide a creche facility.

There will also be a dedicated room to parents attending BAUS 2022, for feeding and storage of family equipment.

The Creche will close each day for an hour over the lunch period (12.30-13.30). This allows creche staff a break. Parents will therefore have to collect their child and feed them. Children can be returned when the creche reopens at 13.30 Nipperbout supply a healthy morning and afternoon snack. NB: Four hours is the maximum time a child can stay in a crèche without being collected for food (Three hours for children aged three years and under)

Delegate Badges
For security purposes, all delegates and exhibitors must always wear the official BAUS 2022 delegate badge to be admitted to the conference centre and social events. Badges will be issued from the badge kiosks by the Registration Desk.

Exhibition - Location and Opening Hours
The exhibition is in Hall 3 of the ICC Birmingham and will be open at the following times:

- **Monday 13 June** 0900 - 1845
- **Tuesday 14 June** 0830 - 1800
- **Wednesday 15 June** 0830 - 1415

Please Note: Entry to the conference or exhibition is NOT available to personnel from commercial companies who do not have an exhibition stand

Highlights Newsletter
Each morning at 7am on 13-15 June there will be a BAUS 2022 Daily Highlights Newsletter emailed to all pre-registered delegates that will detail the programme for the day ahead.

Media Check-In
Media Check-In will be located near Hall 1 and a short walk from the Registration Foyer. Media Check-In will be clearly signed, and all speakers & presenters are required to upload slides via Media Check-In.

Full AV information will be sent to all speakers well in advance of the meeting. Any queries prior to the meeting should be directed to BAUS Events (events@baus.org.uk).

ePoster Sessions
Full details of the presenters and ePosters will be available on the BAUS 2022 platform.

Photography
BAUS 2022 will have an official photographer and videographer who will be operating onsite. By registering for BAUS 2022 photographs may be taken, and this footage may be used by the organisers for marketing purposes. If you require further information on this, please email BAUS Events (events@baus.org.uk).

Prayer Room
A room will be available to delegates throughout the conference for private religious observance, please ask the BAUS Registration Desk for further details.
Press Attendance
We are pleased to welcome members of the press to attend BAUS 2022 and obtain a Press Pass, for a daily fee. If you would like a Press Pass for BAUS 2022, please email BAUS Events (events@baus.org.uk) and we ask that you send any of the following:
- Media identification, such as an international accredited press pass;
- Business card stating affiliation and position e.g. editor, publisher, writer, reporter etc; or
- Letter on official letterhead from the editor of a publication/website certifying the affiliation, verifying assignment to the meeting and including the editor’s contact information.

Poster From Every Unit
Urology units have submitted a piece of work of their choosing for inclusion in the “Poster from Every Unit” initiative. Posters will illustrate any ongoing or completed urological work, research, audit, or QuIP or an account of service delivery, expansion, or recovery post-pandemic. Posters will be on display for the duration of BAUS 2022 in the Exhibition Hall.

Programme
We will not have a printed programme for BAUS 2022. Delegates should instead use the BAUS 2022 Platform or save a copy of the Final Programme PDF to a tablet device. Printed ‘Programme at a Glance’ will be available to collect from the BAUS Registration Desk.

Scientific Session Access
Scientific sessions are only open to registered delegates. Please Note: delegate registration and entry to the conference or exhibition is NOT available to personnel from commercial companies who do not have an exhibition stand.

Sustainability
For more information of ICC Birmingham’s sustainability credentials, please visit: www.theicc.co.uk/about-us/sustainability/
We will have various water refill points available throughout the venue and encourage delegates to bring their own water bottles and re-usable coffee mugs.

Teaching & Skills Courses
The Teaching course: Clinical Leads and the following Skills courses: Ambulatory Treatment option for BOO, Preparatory Course for Urology NTN Interviews, Transperineal Biopsy of Prostate LA & Introduction to Robotics: Basic Robotic Skills (Urology), will take place at the ICC Birmingham. Places are strictly limited, and we encourage delegates to book early to avoid disappointment.
All Teaching Courses will be pre-recorded and uploaded on the BAUS 2022 Platform and available to view on demand for 6 months.

Travel and Parking
Birmingham is easily reached from Birmingham Airport, with Birmingham New Street a 10-minute train ride from the terminal. There are three train stations in the city centre, and all just a short walk from the ICC with New Street Station the closest.
Parking is available the Arena Birmingham (B1 2AA) for delegates travelling by car – charges apply. If you would like any further information or assistance, please visit: www.theicc.co.uk/find-us/

Twitter & Social Media
BAUS 2022 is on Twitter: @BAUSurology #BAUS22
Delegates are reminded of the GMC and BMA guidance in respect to social media. Keep up to date with all BAUS 2022 information via YouTube (BAUSTV).
General Information continued

**Venue**
The ICC Birmingham
8 Centenary Square
Birmingham
B1 2EA
United Kingdom

**Watch it Again**
Recorded content from the meeting will be uploaded onto the BAUS 2022 platform and available to Watch Again for up to 6 months.

**Wi-Fi**
Free Wi-Fi is available throughout the ICC Birmingham.

*All Conference content, speakers and timings are correct at time of publication. The Organisers cannot be held responsible for changes due to circumstances beyond their control, including the withdrawal of speakers from the programme, for any reason.*
BAUS 2022 Conference Catering

New for BAUS 2022, registrations will include complimentary lunch each day. Lunch will be available from Exhibition Hall 3.

*BAUS 2022 registrations will include complimentary lunch each day.*
Registration Information

Badge Scanning
We will be using badge scanning as lead retrieval. Exhibitors can scan delegate badge barcodes to download the following information:

- **Name, Job Title, Place of Work**
  (as you specify on your online registration form)

- **Work Email address**
  (as you specify on your online registration form)

You will receive 1 CME point for attending a Satellite Session and getting your badge scanned. Badge scanning by exhibitors is not compulsory. If you DO NOT wish to disclose this information to exhibitors, then do not allow your badge to be scanned.

**Please Note:** BAUS Staff will scan you on the entrance into Satellite Sessions; this is purely for a count of attendance at the sessions.

Cancellations
Fees for both the conference and the Office of Education teaching and skills courses, cannot be refunded on any cancellations after 01 May 2022. Cancellations before this date must be confirmed in writing and will be subject to a 10% administration charge.

Delegates who wish to change their registration to virtual attendance before 23:59 (BST) on 01 May 2022 will be issued a partial refund. Any requests to change to virtual attendance after this date will not be issued a partial refund.

Exhibition-Only Registration
For a small daily fee, health care professionals can register to view the exhibition only (no admittance to conference sessions). Exhibition-only registrations will only be accepted until 23:59 (BST) on 01 May 2022.

Exhibition-only registration will not be available on-site.

Letters of Invitation
Official letters of invitation to help overcome administrative difficulties in some countries can be sent by the BAUS Office. Please email your request in writing before 31 May 2022 to BAUS Events (events@baus.org.uk). Please Note: these letters do not commit BAUS to any financial obligation.
Welcome Reception

Sunday 12 June 2022

Garden Terrace
Library of Birmingham

Sponsored by
Welcome Reception
Join us to kick off BAUS 2022 at the Welcome Reception on Sunday 12th June on the Library of Birmingham’s Garden Terrace. Tickets to the Welcome Reception will be FREE (until 00:00 on 2nd May). Tickets can be ordered on the online registration system and onsite at the BAUS Registration Desk. Exhibitor tickets cost £30 plus VAT and can be purchased via the Exhibitor Social Ticket order site.
Dress Code: Smart Casual

Awards
The following will be awarded at the Welcome Reception:

Gold Medal
Presented to: Professor Duncan Summerton, Leicester General Hospital
Citation by: Professor Ian Pearce, Manchester Royal Infirmary
Presented to: Mr Nitin Shrotri, Kent & Canterbury Hospital
Citation by: Mr Tim O’Brien, President of BAUS & Guy’s Hospital

Karl Storz Harold Hopkins Golden Telescope Award
Presented to: Professor Caroline Moore, University College Hospital, London
Citation by: Professor Mark Emberton, University College Hospital, London

John Anderson Award
Presented to: Mr Chandra Shekhar Biyani, St James’s University Hospital, Leeds
Citation by: Professor Steve Payne, University of Bournemouth

Keith Yeates Award
Presented to: Miss Flora Rodger, Queen Elizabeth University Hospital, Glasgow, Mr Craig Jones, Salford Royal Hospital and Miss Neha Sihra, Guy’s & St Thomas’ Hospital, London

Networking Reception
Enjoy a drinks reception hosted in the ICC Exhibition Hall 3 on Monday 13th June from 18:00-18:45. Network with colleagues & Industry Representatives and browse the Exhibition Hall.

The Grand Social
Join us to enjoy an evening of cocktails, food, live music, and hospitality in the historic ballroom at The Grand Hotel on Tuesday 14th June.
Tickets to the Conference Reception cost £35 and can be purchased on the online registration system and onsite at the BAUS Registration Desk. Exhibitor tickets cost £75 plus VAT and can be purchased via the Exhibitor Social Ticket order site.

Ureteral Bypass for the Treatment of Complex Ureteral Stenosis:
Experience After 4 years and 30 Cases

Dr Ioannis K Goumas
Clinical Institute Beato Matteo, Lombardy, Italy
SOLTIVE Premium: First Clinical Experience in the UK & Ireland

SOLTIVE Premium, a thulium fibre laser (TFL), is a novel technology positioned as an alternative to Ho:YAG lasers, currently the gold standard for an array of urological procedures.

Existing literature suggests that TFL has great potential and may possess numerous technological advantages over the Ho:YAG laser, especially in laser lithotripsy.

Come join our expert faculty as they discuss their first clinical experience using the SOLTIVE Premium in the NHS and HSE!

Tuesday 14 June: Boston Scientific
1315-1400 Hall 1

Professor Naeem Soomro, Freeman Hospital, Newcastle
Treatment for nmCRPC: A need for collaborative care for patients

This Bayer-sponsored symposium will provide a practical, collaborative and patient-centric view of second-generation anti-androgen treatment for non-metastatic castration resistant prostate cancer. Join us for in-depth discussion and insight from early real-world evidence and experience. This is a Bayer promotional meeting; Bayer products will be mentioned.

The role of the urologist in treating patients with nmCRPC

Second generation ARIs: From randomised controlled trials to real-world evidence

Faculty Discussion and Q&A

Professor Philip Cornford, Royal Liverpool and Broadgreen University Hospital NHS Trust

Professor Alison Birtle, Consultant Clinical Oncologist, Rosemere Cancer Centre, Lancashire Teaching Hospitals NHS Foundation Trust
In a world that doesn’t stop, you either keep moving or get out of the way.

We’re on the move for patients. At Coloplast Interventional Urology, we act with purpose guided by focus, energy sparked by curiosity and speed driven by caring, all to support what patients want and services need.

Coloplast is a proud sponsor of the BAUS
coloplast.co.uk
A very warm welcome to everyone joining us for the Andrology & Genito-urethral Surgery section meeting at BAUS 2022 in Birmingham. I am sure that everyone is looking forward to meeting and hopefully having face to face interaction with speakers and colleagues.

It is a great honour and privilege to be taking over as chair of the section from Maj Shabir who has done an excellent job over the past few years, during a challenging period in our history. Andrology in particular has faced unique challenges with many patients having been postponed through necessary prioritisation. As we begin to recover from the COVID19 pandemic, the challenges will be clearing the largest waiting list in the history of the NHS. What is clear is that there will be a lot more hurdles ahead for us to tackle. I believe that the topics discussed in these sessions will help guide us in the upcoming months and years and help us to achieve great things for Andrological and Genito-urethral patients and practice in the UK.

This year we have been honoured to be allocated five sessions as there is so much to discuss! These sessions have been designed not only to appeal to those with subspecialty interests but also to the general urologist. We plan to bring you stimulating debates and novel ideas in these sessions.

We kick off on Monday at 11am looking at male body image which is becoming an increasing problem in society today. This session is chaired by Paul Anderson and Elizabeth Osinibi and we have a great range of speakers discussing a variety of topics from supplements to recreational drugs; sexual dysfunction to post-finasteride syndrome. We then move on at 16.30 to a session focusing on Testicular cancer chaired by our past chair Maj Shabir and Krishna Narahari. We are hoping for a lot of stimulating debate as we will be discussing interesting ideas. The results of the joint AGUS/Oncology/BURST will be fascinating for us all and will provide us with vital insight into UK practice. This session will also include a patient describing his journey as well as a testis cancer MDT in which I hope that we can all get involved.
On Tuesday, we have the joint BAUS and EAU session reviewing EAU guidelines on male hypogonadism and erectile dysfunction. It is a privilege to have Professor Salonia from Milan speaking who was instrumental in the development of these guidelines. This will be appealing to all urologists and we expect this session to be extremely popular. Dr Sravan Thondam and Mr Mike Fraser will be looking at the UK perspective of applying these guidelines, along with controversial cases and the legal perspectives, a must attend for all. This is followed at 16.30 by a session looking at Male infertility, penile curvature and priapism guidelines, chaired by our section vice-chair, Arie Parnham. We have an expert panel of speakers who will be sharing their insights into these guidelines.

We wrap things up on Wednesday at 1400 looking at Penile cancer in the United Kingdom as a model for rare cancers, chaired by Miss Karen Randhawa and Mr Tim O’Brien. Since 2002, the management of Penile cancer has been centralised into suprareregional centres. We will examine the successes, potential missed opportunities, and future directions with Dr Oscar Brouwer from the Netherlands Cancer Institute, as well as Mr Asif Muneer and Professor Nick Watkin. Without a doubt one of the biggest challenges and opportunities, is the ability to collect data across the United Kingdom to inform management and guide research. Prof Noel Clarke will speak about his experience with the National Prostate Cancer Audit and how lessons can be learnt and applied to all rare cancers. Finally, the session will end on a high, examining how centres can work collaboratively to improve the care of patients and discuss future national projects.

This will be an exciting and novel BAUS andrology programme which we expect to be educational and enjoyable.
BAUS & BAGURS JOINT MEETING

21 October 2022, Showroom Workstation, Sheffield

Section of Female, Neurological and Urodynamic Annual Meeting

Monday 13 June 1100-1200 & 1630-1730
Tuesday 14 June 1400-1530 & 1630-1730
Tuesday 15 June 1400-1530

Introduction
Mr Mo Belal, Queen Elizabeth Hospital, Birmingham

I am delighted to welcome you to BAUS 2022. The FNUU subsection Committee; Suzanne Biers (Cambridge, Secretary) Sheilagh Reid (Sheffield, past chair), Ased Ali (Wakefield), Chris Harding (Newcastle), Hashim Hashim (Bristol), Magda Kuwaja (Stockport), Mahreen Pakzad (London), Tina Rashid (London), Arun Sahai (London), Somita Sarkar (BSOT rep) have put together an educational, topical and varied programme for this year’s annual meeting over 3 days.

We will start on Monday with the Updates session, which has been well received in the past. Marcus Drake, Nikesh Thiruchelvam and the current SAC chair Miss Justine Royle will provide a summary of developments over the last year in each of the following areas: research and clinical trials, publications and training. This will be followed by a further exciting session on Monday on the future of Robotics in FNU chaired by Professor Shamim Khan and Liz Waine. Nadir Osman will detail the current evidence for robotics. Arjun Nambiar and Jai Seth will explore the setting up of robotic services and fellowships in the UK setting. An international perspective will be given by our esteemed guest Professor Véronique Phé from Paris.

On Tuesday we have two sessions. Early afternoon Siobhan Wolley leads a superb session on stress incontinence. This includes updates on mesh by Hashim Hashim & Chris Harding and current and innovative management of stress incontinence with Richard Parkinson and Mahreen Pakzad. Later on Tuesday, Suzanne Biers leads an exciting session on Female Urethral Strictures, Urethral Diverticula, Vaginal Swellings, Urethral Caruncle with Tamsin Greenwell, Magda Kuwaja and interactive case discussions.

On Wednesday afternoon there is an interesting session on Transgender Surgery for the General Urologist, with updates from Tina Rashid and practical tips for the general urologist in managing this increasing group of patients. In addition, we have poster sessions on Monday (1400-1500, Hall 10) and Tuesday (1100-1200, Hall 9) with exciting presentations from a variety of UK functional units.

We also have two excellent pre-recorded teaching courses that will be available to watch on the BAUS 2022 Platform. Firstly, Neuourology for the General Urologist led by Sheilagh Reid, and the Good Urodynamics Practice led by Hashim Hashim & Chris Harding from BAUS 2021.

I do hope you will join us for as many FNUU sessions as possible and look forward to seeing you all face to face. On behalf of the FNUU subsection I wish you an enjoyable and positive BAUS.

HD-VIEW

High Performance by Definition

- **BRILLIANT** Camera chip in High-Definition
- **EASY** Atraumatically shaped tip for gentle insertion
- **FAST** Suction valve for rapid bladder draining
MONDAY 13 JUNE
PROGRAMME

Hall 1
0900-1000

**Fitness to Practice: Where Do We Stand Today?**

Chairs: **Professor Dame Clare Gerada** and **Mr Nitin Shrotri**, Kent & Canterbury Hospital

- **0900-0910** What does the BMA do for doctors on GMC issues
  - Dr Chaand Nagpaul CBE, Chair of the Council of the British Medical Association

- **0910-0920** The Regulatory Balance
  - Mr Anthony Omo, GMC General Counsel, Director of Fitness to Practice

- **0920-0930** The Medical Director viewpoint in GMC referrals
  - Dr Carol Roberts, Deputy Medical Director (Professional Standards), Nottingham University Hospitals Trust

- **0930-0940** It Can Happen to Anyone: The GMC and Me
  - Professor Steve Payne, University of Bournemouth

- **0940-1000** Q&A and Panel Discussion

1000-1100 Refreshments, Networking and Exhibition Viewing

Hall I 1
1100-1230

**SAS Session - How Good Are We: Can We Do Better?**

Chairs: **Mr Ajay Pahuja**, Belfast City Hospital and **Miss Mehwash Nadeem**, James Cook University Hospital, Middlesbrough

- **1100-1105** Introduction
  - Mr Ajay Pahuja, Belfast City Hospital and Miss Mehwash Nadeem, James Cook University Hospital, Middlesbrough

- **1105-1115** Female and SAS What Could BAUS and Everyone Have Done to Make Life Better?
  - Ms Norah Keville, The Ulster Hospital, Belfast

- **1115-1140** Black, Brown & White; How difficult is it? Three Prostate Cancer Surgeons tell us Stories about their Individual Journey!

- **1115-1125** My Journey
  - Mr Jonathan Makanjuola, King's College Hospital, London

- **1125-1135** My Journey
  - Mr Prasanna Sooriakumaran, University College Hospital, London

- **1135-1145** My Journey
  - Mr Jim Adshead, Lister Hospital, Stevenage

- **1145-1205** The SAS vs the NHS SAS: We Are All Great!
  - Mr Anthony De-Normann, Special Air Service (SAS), British Army

- **1145-1205** The SAS vs the NHS SAS: We Are All Great!
  - Mr Rickaz Raheem, Milton Keynes University Hospital

- **1205-1215** Q&A and Closing Remarks
  - Mr Ajay Pahuja, Belfast City Hospital and Miss Mehwash Nadeem, James Cook University Hospital, Middlesbrough

- **1215-1230** SAS@BAUS Programme, Good or Bad Presentation
**Male Body Beautiful: The Underbelly of Supplements & Drugs in Young Men**

**Chairs:** Mr Paul Anderson, Russell’s Hall Hospital, Dudley and Miss Elizabeth Osinibi, University College Hospital, London

- **1100-1110** *The Obsession with the Perfect Male Form and the History of Male Genital Modification*
  Mr Jonathan Goddard, Leicester General Hospital

- **1110-1125** *Gym supplements and Protein Shakes: What can we learn from the bodybuilding world?*
  Miss Ayo Kalejaiye, University Hospitals, Birmingham

- **1125-1140** *Recreational Drugs and Sexual Dysfunction*
  Mr Mark Kitchen, Royal Stoke University Hospital

- **1140-1150** *Post-Finasteride Syndrome*
  Miss Chi-Ying Li, Whipps Cross Hospital Barts Health, London

- **1150-1200** *Q&A Panel*

---

**FNUU Updates**

**Chairs:** Mr Mo Belal, Queen Elizabeth Hospital, Birmingham and Ms Sheilagh Reid, Royal Hallamshire Hospital, Sheffield

- **1000-1005** *Introduction*
  Mr Mo Belal, Queen Elizabeth Hospital, Birmingham

- **1005-1020** *FNU Research Update*
  Professor Marcus Drake, Southmead Hospital, Bristol

- **1020-1040** *FNU Literature Update*
  Mr Nikesh Thiruchelvam, Addenbrooke’s Hospital, Cambridge

- **1040-1055** *FNU Training Update*
  Miss Justine Royle, Aberdeen Royal Infirmary

- **1055-1100** *Q&A*

---

**Trouble Shooting – Large Upper Ureteric Stone**

**Chairs:** Professor Sri Sriprasad, Darent Valley Hospital, Kent and Miss Susan Willis, Guy’s & St Thomas’s Hospital, London

- **1100-1105** *Introduction*
  Professor Sri Sriprasad, Darent Valley Hospital, Kent

- **1105-1120** *Retrograde Approach*
  Mr Will Finch, Norfolk & Norwich University Hospital

- **1120-1135** *Antegrade Approach*
  Miss Sian Allen, University College Hospital, London
MONDAY 13 June

1135-1150 **Laparoscopic / Robotic Ureterolithotomy**  
Mr Ravi Barod, Royal Free Hospital, London

1150-1200 **Concluding Remarks**  
Professor Sri Sriprasad, Darent Valley Hospital, Kent

Hall 11A
1100-1200 **Renal and Retroperitoneal Cancer MDT**  
Chair: Mr Vijay Ramani, Christie Hospital, Manchester  
Panel:  
Ms Archie Fernando, Guy’s & St Thomas’s Hospital, London  
Dr Jacob Tanguay, Oncologist, Velindre University NHS Trust, Cardiff  
MDT Panel Patient

Hall 7
1100-1200 **Inequality in Urology**  
Chair: Miss Sophie Rintoul-Hoad, Guy’s & St Thomas’ Hospital, London  
1100-1130 **Debate: All Surgeons Should be Titled “Doctor”**  
For: Dr Fairleigh Reeves, Guy’s & St Thomas’ Hospital, London  
Against: Ms Katie Eyre, Churchill Hospital, Oxford

1130-1145 **Sexual Health PROMS are Heteronormative and it’s Not Okay**  
Mr Findlay MacAskill, Guy’s & St Thomas’ Hospital, London

1145-1200 **Tackling Racial Inequality in Urological Care**  
Mr Jonathan Makanjuola, King’s College Hospital, London

1200-1400 Lunch, Networking and Exhibition Viewing

Room: Hall 9
Breakfast Meeting: Fellowships
Breakfast Meetings

Enjoy breakfast on BAUS whilst participating in a variety of dynamic, entertaining and informative meetings. Please register your attendance via the registration site; pre-registration is required for catering numbers.

Anatomical Drawing

All drawing materials and breakfast provided, just bring your enthusiasm! Absolutely no prior skills necessary.

Join us for this interactive breakfast workshop exploring the basics of anatomical drawing, led by anatomical artist Dr Lucy Lyons. Start the day with some simple drawing exercises to improve your observational skills and hand-eye coordination. You will be guided through making more detailed drawings from a range of high-quality anatomical images or models before finishing with constructive group feedback. The aim of this session is to provide you with techniques that you will be able to practice and translate into your own operative notes. Most of all we want you to have fun!

Faculty

Dr Lucy Lyons, Lead tutor for SSC Anatomy and Art, MBBS, UCL Medical School and lecturer in Drawing and in Contextual Studies at The Margate School (ESADHaR).
Miss Mary Garthwaite, James Cook University Hospital, Middlesbrough
Miss Sophia Cashman, Lister Hospital, Stevenage
Miss Felicity Reeves, Addenbrooke's Hospital, Cambridge

Orchestrated Networking

We invite all Core Trainee and Junior SpRs to attend our Orchestrated Networking meeting. We envision the meeting will offer a chance for Core Trainee and Junior SpRs to network with a team of Consultant Urologists who will be able to offer support and advice throughout the training process.

Faculty

Mr Vaibhav Modgil, Manchester University NHS Foundation Trust
Mr Sachin Malde, Guy's and St Thomas' NHS Trust, London
Miss Mehwash Nadeem, James Cook University Hospital, Middlesbrough
Mr Chris Blick, Royal Berkshire Hospital, Reading
Mr Matthew Rewhorn, University College Hospital, London
Mr Arjun Nambiar, Freeman Hospital, Newcastle
Mr Edmund Chedgy, Southampton General Hospital
Miss Maria Satchi, Darent Valley Hospital, Kent
Mr Adam Cox, Royal Gwent Hospital, Newport
Mr Nkwam Nkwam, Princess Royal University Hospital, Orpington
Miss Katie Moore, Manchester Royal Infirmary Will Green, Nottingham
Mr Anthony Noah, University College Hospital, London
Mr Oladapo Feyisetan, Whiston Hospital, Prescot
Mr Marc Williams, Musgrove Park Hospital, Taunton
Dragon’s Den

Come and brave the Dragon’s Den!

TUF and BAUS are running a ‘Dragon’s Den’ panel to consider the pitches, which have come through a pre-event selection process, to be taken forward to TUF Trials Unit.

TUF Trials Unit was established last year to enable more clinical research in urology by helping health care professionals bring their ideas to fruition.

This Dragon’s Den will involve three presentations each followed by questions from our expert panel. The panel will then choose and announce the proposal(s) that will be taken forward.

We look forward to seeing you there!

The Dragons:

Mr Tim O’Brien, President of BAUS & Guy’s Hospital
Professor Grant Stewart, Addenbrooke’s Hospital, Cambridge
Professor Caroline Moore, University College Hospital, London
Professor Graeme MacLennan, Centre for Healthcare Randomised Trials, University of Aberdeen
SOLTIVE Premium:  
First Clinical Experience in the UK & Ireland

Join us on Tuesday 14 June 08:30-09:00 in Hall 1

SOLTIVE Premium, a thulium fibre laser (TFL), is a novel technology positioned as an alternative to Ho:YAG lasers, currently the gold standard for an array of urological procedures.

Come join our expert faculty as they discuss their first clinical experience using the SOLTIVE Premium in the NHS and HSE!

Faculty
Mr Daron Smith  
Consultant Urologist, University College London Hospitals NHS Foundation Trust

Mr Derek Hennessey  
Consultant Urologist, Mercy University Hospital

Mr Simon Choong  
Consultant Urologist, University College London Hospitals NHS Foundation Trust

Come and see us on STAND NUMBER 210 to find out more.
Tuesday 14 June

Hall 1
0830-0900

**Olympus Satellite**

See page 24 for details

Hall 1
0900-1000

**Imposter Syndrome in Urology: Who do you think you are?**

Chairs: **Ms Holly Bekarma**, University Hospital Ayr and **Mr Hasan Qazi**, St Georges Hospital London

Audience Participation Facilitators: **Miss Ruth Doherty**, Norfolk & Norwich University Hospital and **Miss Felicity Reeves**, Addenbrookes Hospital Cambridge

**Panel**

Mr Tim O’Brien, President of BAUS & Guy’s Hospital

Professor Caroline Moore, University College Hospital, London

Miss Sophia Cashman, Lister hospital, Stevenage

Dr Manuela Untanu, Clinical Psychologist

Hall 1
1000-1030

**President’s Address and Presentation of the St Paul’s & St Peter’s Medal**

1000-1020

*President’s Address*

Mr Tim O’Brien, President of BAUS & Guy’s Hospital

Presidential Handover

Investiture of Miss Jo Cresswell as President of BAUS

1020-1025

*Presentation of the St Paul’s Medal*

Citation by: **Professor Ben Turney**, Churchill Hospital, Oxford

Presented to: **Professor Olivier Traxer**, Tenon University Hospital, Pierre and Marie Curie University, Paris

1025-1030

*Presentation of the St Peter’s Medal*

Citation by: **Miss Pippa Sangster**, University College Hospital, London

Presented to: **Professor David Ralph**, University College Hospital, London

Hall 1
1030-1100

**BAUS President Q&A**

Chair: **Miss Jo Cresswell**, Vice-President of BAUS and James Cook University Hospital, Middlesbrough

Mr Tim O’Brien, President of BAUS & Guy’s Hospital
Tuesday 14 June

Hall 1
1100-1200

**BJUI Guest Lecture and John Blandy Prize Presentation**
Chair: **Professor Alan McNeill**, Western General Hospital, Edinburgh and Chair, BJU International

1100-1145  **The Future of Healthcare in a Digital Age**
**Dr Neil Bacon**, Professor of Health Care Leadership, Innovation & Management, University of Exeter

1145-1200  **John Blandy Prize Presentation**

Hall 4
1100-1200

**Prostate Cancer MDT**
Chair: **Mr Rob Mills**, Norfolk and Norwich University Hospital
Panel:
- **Miss Elizabeth Waine**, Royal Devon and Exeter Hospital
- **Mr Greg Shaw**, University College Hospital, London
- **Miss Mohini Varughese**, Oncologist, Royal Devon and Exeter Hospital
- **Dr Helen Swannie**, Oncologist, Norfolk and Norwich University Hospital

Hall 10
1100-1300

**Core Trainees in Urology**
Chair: **Ms Anna O’Riordan**, Freeman Hospital, Newcastle

1100-1115  **Introduction**
**Ms Anna O’Riordan**, Freeman Hospital, Newcastle
Main Topics – Key Papers that Drive Clinical Practice

1115-1130  **LUTs**
**Mr Kamran Haq**, Freeman Hospital, Newcastle

1130-1145  **Kidney and Testicular Cancer**
**Miss Ming He**, The James Cook University Hospital, Middlesbrough

1145-1200  **Prostate and Urothelial Cancer**
**Mr Thomas O’Hare**, Freeman Hospital, Newcastle

1200-1215  **Stone Disease**
**Mr Angus Luk**, Sunderland Royal Hospital

1215-1235  **Bouncing Back**
**Mr Peter Grice**, Royal Derby Hospital

1135-1155  **Audit Presentations**

1135-1140  ‘Ring that IriBell - a novel device to decrease interruptions in continuous irrigation in endourological procedures’
**Mr Ryan Beazley**, Somerset Foundation Trust

1140-1145  ‘Audit on the completeness of consent forms in patients undergoing urological procedures’
**Mr Luke Parkes**, Kingston Hospital NHS Foundation Trust
Tuesday 14 June

1145-1155  **Audit Summary**  
Ms Anna O’Riordan, Freeman Hospital, Newcastle

1155-1200  **Presentation of Certificates and Final Comments**  
Ms Anna O’Riordan, Freeman Hospital, Newcastle

Hall 11

1100-1200  **What is Stone Surgical Success?**
Chairs: Mr Rob Calvert, Liverpool University Hospitals FT and Professor Bhaskar Somani, Southampton General Hospital

**WEDNESDAY 15 JUNE**

**PROGRAMME**

**Breakfast Meetings**

Enjoy breakfast on BAUS whilst participating in a variety of dynamic, entertaining and informative meetings. Please register your attendance via the registration site; pre-registration is required for catering numbers.

**Fellowships**

Join the BAUS Fellowship Directors and invited speakers for an early morning of lively debate and the opportunity to hear from those who have undertaken fellowships both in the UK and overseas. This is informal session is aimed at all those trainees interested in undertaking a fellowship or have advice to impart. Consultants interested in setting up fellowships or who already offer fellowships are also welcome to attend.

**Hall 9**

0730-0830  
**Breakfast Meetings**

0730-0740  
**Welcome**

Miss Melissa Davies, Salisbury NHS Foundation Trust and Mr Anthony Koupparis, Bristol Urological Institute, Southmead Hospital, Bristol

0740-0800  
**Debate “Fellowship versus mentorship, why accept surgical mediocrity when excellence is possible?”**

Fellowship: Mr Tim O’Brien, President of BAUS & Guy’s Hospital  
Mentorship: Miss Jo Cresswell, Vice-President of BAUS and James Cook University Hospital, Middlesbrough

0800-0830  
**Sharing Fellowship Experience**

0800-0810  
**Travelling from the UK overseas to get the best experience**

Miss Judith Dockray, Sunderland Royal Hospital

0810-0820  
**Travelling to the UK from overseas to get the best experience**

Mr Patrick Preece, Southampton University Hospital

0820-0830  
**Home and Away – the best of both!**

Mr Jonathan Noel, Guy’s and St Thomas’ Hospital, London

**Hall 10**

0800-0830  
**History of Urology “Mavericks in Urology”**

Join us for breakfast on Wednesday 15th June at 7.30 in Hall 10 to hear about some ‘mavericks’ of British Urology.

Jasmine Winyard will tell us about Geoffrey Parker, a rebellious and unpromising medical student whose restless extracurricular interests were spotted by Military Intelligence leading him into a James Bond like adventure in occupied wartime France; a far cry from the RSM Urology Council meetings of Wimpole Street.

Kassie Ball will highlight the pioneering careers of the first two female British Urologists. Certainly, brave mavericks in an age when professional women were frowned upon, or at best ignored and who aimed to become not only doctors but hospital surgical specialists.
Finally, a familiar face at the Museum of Urology, Dominic Hodgson is going to introduce us to Kenneth Walker. A well-known British Urologist, not only an early champion of andrology and sexual health within the profession but keen to spread that knowledge to the general public via affordable Penguin books. Latterly he took a fascinating turn into mysticism and spiritualism.

Also, ANYONE is welcome to bring along any historic instrument or artefact for discussion, identification or just general interest and good fun.

We are very much looking forward to seeing you all again, come and join us!

0730-0740  **Kenneth Walker**  
Mr Dominic Hodgson, Portsmouth Hospitals University NHS Trust

0740-0750  **Geoffrey Parker**  
Dr Jasmine Winyard, Leicester General Hospital

0750-0800  **The First Female Urologist in BAUS**  
Miss Kathryn Ball, Nottingham City Hospital

0800-0815  **Discussion**

0815-0830  **Antique Instrument Demonstration**
Experience da Vinci® technology for yourself
Visit our booth for hands-on demonstrations

The da Vinci X®, da Vinci Xi® and da Vinci Si® Surgical Systems are class 2b medical devices. Refer to complete mandatory statements available on the booth.

Medical Regulation: The Dreaded Letter

Chair: Mr Gulzar Mufti, Medical Member Medical Practitioners Tribunal Service (MPTS), Independent Secondary Care Clinician Member East Sussex CCG, Medical Appraiser, Practice Plus Group (PPG) UK

To err is human, but regardless of the circumstances, the arrival of the ‘dreaded letter’ from the General Medical Council (GMC) is every doctor’s nightmare. Often the trepidation is due to a lack of knowledge regarding the GMC’s regulatory framework, as well as the fear of an adverse outcome at a Medical Practitioners Tribunal (MPT) hearing.

This interactive session will:
• Outline the legal framework that underpins medical regulation
• Explain the process involved in determining whether a complaint progresses to a MPT hearing
• Give an overview of what happens in a tribunal hearing
• Provide guidance on how a registrant can best navigate the whole process.

Panel:
Mrs Tamarind Ashcroft, Head of Tribunal Development at MPTS
The MPTS is a statutory committee of the GMC and runs hearings to determine whether doctors are fit to practise Medicine. It is accountable to the GMC Council and the UK Parliament
Mr Andrew Lewis, Barrister, Tribunal Chair & Legal Assessor MPTS, Legal Assessor Health and Care Professions Council; Legal Assessor Nursing & Midwifery Council, Reserve Chair General Pharmaceutical Council, and Legal Adviser Social Work England.

BAUS Guest Lecture

Chair: Professor Nick Watkin, St George’s Hospital, London

Dr Marci Bowers, MD, Pelvic and Gynecologic surgeon, Burlingame, California, United States

Bladder Cancer MDT

Chair: Professor James Catto, Royal Hallamshire Hospital, Sheffield

Panel: Mr Jonathan Aning, Southmead Hospital, Bristol
Speaker To Follow
MDT Patient
WEDNESDAY 15 June

Hall 9
1100-1200

**Urolink**

 Chairs: **Mr Nick Campain**, Royal Devon and Exeter Hospital and **Ms Vanessa Savopoulo**, Levy Mwanawasa University Teaching Hospital, Lusaka, Zambia

1100-1105  **Introduction**
Mr Nick Campain, Royal Devon and Exeter Hospital and Ms Vanessa Savopoulo, Levy Mwanawasa University Teaching Hospital, Lusaka, Zambia

1105-1120  **A World of Difference: Providing universal health coverage in rural Uganda in the face of Covid**
Dr Ian Spillman, Medical Superintendent, Church of Uganda Kisiizi Hospital

1120-1135  **My Stay in Tanzania; What I learnt during my fellowship at KCMC**
Mr Tilaneh Leyeh, Consultant General and Urological Surgeon, Hawassa University Comprehensive Surgical Hospital, Hawassa, Ethiopia.

1135-1150  **Donating equipment. How can MediGive and Urolink work together?**
Mr Graham Watson, Trustee, MediTech Trust and Urolink Executive member, Eastbourne District General Hospital

1150-1200  **Q&A**

Hall 10
1100-1200

ePoster Session 15:
Bladder Cancer: Muscle Invasive
Chairs: Ms Elsie Mensah, Guy’s & Thomas’s Hospital and Mr Arthur McPhee, Addenbrooke’s Hospital, Cambridge
Please see page 97 for the ePosters
NUBEQA® (darolutamide) is a second-generation AR inhibitor that helps you extend MFS and OS in high-risk nmCRPC, without increasing the rate of treatment discontinuation due to adverse events vs. placebo + ADT. It helps to maintain QoL too.

INDICATION

NUBEQA is indicated for the treatment of adult men with non-metastatic castration-resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease.4

ADT: androgen deprivation therapy; AE: adverse event; AR: androgen receptor; MFS: metastasis free survival; nmCRPC: non-metastatic castration resistant prostate cancer; PSA: prostate specific antigen; OS: overall survival; QoL: quality of life.

*Darolutamide is defined as no evidence of metastatic disease, a rising PSA concentration and a PSA doubling time of ≤ 10 months.1

†Median MFS for NUBEQA + ADT was 40.4 months (n=955) and 18.4 months for placebo + ADT (n=554) [HR 0.41; 95% CI: 0.34-0.50; p<0.001].‡

‡**Discontinuation due to AE: 8.9% NUBEQA + ADT (n=566) vs. 9.7% placebo + ADT (n=554). Any AE 83.6% NUBEQA + ADT (n=566) vs. 74.9% placebo + ADT (n=554). The most common AE with NUBEQA was fatigue (12.1%).†

THINK HIGH-RISK nmCRPC

AND HELP EXTEND

WHAT’S IMPORTANT”

Adverse events should be reported. Reporting forms and information can be found at www.mhra.gov.uk/yellowcard. Adverse events should also be reported to Bayer plc on 0118 206 3500 or pvuk@bayer.com.

This advert was created and funded by Bayer for healthcare professionals.

PP/NUB-GB-0562

NUBEQA® (darolutamide) 300 mg film-coated tablets

Prescribing Information

(Refer to full Summary of Product Characteristics (SmPC) before prescribing)

Presentation: Each film-coated tablet contains 300 mg of darolutamide. Indication(s): NUBEQA is indicated for the treatment of adult men with non-metastatic castration-resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease.4

NUBEQA is a trademark of the Bayer Group

Miss Katherine Anderson¹, Miss Marie-Aimée Perrouin-Verbe¹, Dr. Lily Bridgeman-Rutledge¹, Ms. Rachel Skews¹, Professor Hashim Hashim¹

¹Bristol Urological Institute, Southmead Hospital, Bristol, United Kingdom

**P6-5 Diagnostic Accuracy of Magnetic Resonance Imaging and Transrectal/Transvaginal Ultrasound for Pelvic Mesh Complications**

Dr Ioannis Loufopoulos¹, Dr Hafsa Faarax Shirwac¹, Dr Paul Augwhane¹, Mr Jeremy Ockrim¹, Miss Tamsin Greenwell¹, Miss Helena Gresty¹

¹Department of Urology, University College London Hospital, London, United Kingdom

**P6-6 Sacral Nerve Stimulation Outcomes for Voiding Dysfunction in patients with Ehlers-Danlos Syndromes and associated Hypermobility Spectrum Disorders**

Mr Alejandro Mercado Campero¹, Ms Clio Kennedy¹, Ms Elizabeth Day¹, Ms Julie Jenks¹, Ms Tamsin Greenwell¹, Mr Jeremy Ockrim¹, Ms Mahreen Pakzad¹

¹University College London Hospital, London, United Kingdom

**P6-7 Sacral neuromodulation in patients with neurogenic lower urinary tract dysfunction**

Dr Cecile Pham¹², Dr Cameron Parkin²³, Ms Yunzhi Yang⁴, Dr Danielle Delaney¹²⁴, Dr Amanda Chung¹²³⁴

¹Northern Beaches Hospital, Frenchs Forest, Australia, ²North Shore Urology Research Group, St Leonards, Australia, ³Royal North Shore Hospital, St Leonards, Australia, ⁴North Shore Private Hospital, St Leonards, Australia
ePosters 6 continued

P6-8  **Repeating SNS after previous infection: Outcomes from a high-volume UK centre**

Miss Elizabeth K Day¹, Mr Alejandro Mercado-Campo¹, Ms Julie Jenks¹, Ms Tamsin J Greenwell¹, Mr Jeremy L Ockrim¹, Ms Mahreen Pakzad¹

¹University College London Hospital, London, United Kingdom

P6-9  **Long-term effect of sacral neuromodulation on nocturia for patients with refractory overactive bladder**

Miss Katherine Anderson¹, Ms. Laura Thomas¹, Professor Hashim Hashim¹

¹Bristol Urological Institute, Southmead Hospital, United Kingdom

P6-10  **FLUOROSCOPIC IMAGES ACQUIRED DURING VIDEO-URODYNAMICS STUDIES CAN SUCCESSFULLY IDENTIFY URETHRAL DIVERTICULUM**

Miss Helena Gresty¹, Mr Richard Axell, Ms Rachel Barratt, Mr Anthony Noah, Ms Mahreen Pakzad, Mr Jeremy Ockrim, Ms Tamsin Greenwell

¹UCLH, London, United Kingdom
Tuesday 14 June, 1100-1200, Hall 7

**EPOSTER SESSIONS**
6 minutes for each ePoster Presentation
4 minutes for presentation | 2 minutes for Q&A and turnaround

**ePoster Session 7**
**Andrology: Male Genital Cancers - Penile, Urethral, Testis**

*Chairs: Mr Michael Fraser, Glasgow Royal Infirmary and Miss Maria Satchi, Darrent Valley Hospital, Kent*

**P7-1**  
**Completion radical orchidectomy following excision of small testicular masses (STMs) for malignant disease- incidence of residual tumour and GCNIS**

Mr Varun Sahdev¹, Mr Shafi Wardak¹, Dr Charles Parker¹, Dr Alex Freeman¹, Dr Aiman Haider¹, Mr Hussein Alnajjar¹, Mr Asif Muneer¹

¹University College Hospitals NHS Foundation Trust, London, United Kingdom

**P7-2**  
**The effect of testicular carcinoma and its treatments on long term hormonal status and semen parameters**

Mr Thomas Reeves¹, Dr Patrick Rice¹, Miss Stephani Ashby¹, Mr Roland Rees¹

¹University Hospital Southampton NHS Foundation Trust, Southampton, United Kingdom

**P7-3**  
**Ex-vivo fluorescence confocal microscopy analysis for penile cancer biopsies**

Dr Ricardo Almeida-Magana¹, Ms Esha Mohan², Dr Aiman Haider³, Dr Alex Freeman⁴, Mr Jack Grierson⁵, Mr Eoin Dinneen⁶, Mr Hussain Alnajjar⁷, Mr Greg Shaw⁸, Mr Asif Muneer⁹

¹University College London, London, United Kingdom, ²King’s College London, London, United Kingdom, ³University College London Hospitals, London, United Kingdom, ⁴The Doctors Laboratory, London, United Kingdom

**P7-4**  
**Comparing complications of lymph node dissection in different age groups of men with penile cancer**

Miss Abi Kanthabalan¹, Mr Mythun Kailavasan¹, Mr A Adimoney¹, Mr Arie Parnham², Miss Odunayo Kalejaie¹

¹University Hospitals Birmingham, Birmingham, United Kingdom, ²The Christie NHS Foundation Trust, Manchester, United Kingdom

**P7-5**  
**Prospective study comparing Robot assisted radical Inguinal Lymph node dissection (RAILND) with Open radical inguinal lymph node dissection (OILND) for penile cancer**

Mr Vivekanandan Kumar¹, Mr Reece Williams¹, Miss Nikita Bhatt¹, Mr Johann Boaz¹

¹Norfolk And Norwich University Hospital, Norwich, United Kingdom

**P7-6**  
**Completion orchidectomy post chemotherapy: A single-centre 10-year retrospective**

Dr Charles Parker¹, Mr Varun Sahdev¹, Mr Hussain Alnajjar¹, Dr Aiman Haider¹, Dr Alex Freeman¹, Dr Constantine Alifrangis², Mr Asif Muneer¹

¹University College London Hospitals NHS Foundation Trust, London, United Kingdom, ²University College London Hospital & St Bartholomew’s Hospital, London, United Kingdom
P7-7  Sperm-banking in our testicular cancer patients: a pan-deanery review
Miss Abi Kanthabalan¹, Miss Madeline Moore², West Midlands Urology Research Collaboration³, Mr Iain Wharton⁴
¹Queen Elizabeth Hospital Birmingham, Birmingham, United Kingdom, ²Royal Wolverhampton NHS Trust, Wolverhampton, United Kingdom, ³West Midlands Urology Research Collaboration, United Kingdom, ⁴University of Coventry and Warwickshire NHS Trust, Coventry, United Kingdom

P7-8  Are we doing a good enough job at offering our testicular cancer patients’ testicular prosthesis?
Miss Abi Kanthabalan¹, Miss Madeline Moore², West Midlands Urology Research Collaboration³, Mr Iain Wharton⁴
¹Queen Elizabeth Hospital Birmingham, Birmingham, United Kingdom, ²Royal Wolverhampton Hospital NHS Trust, Wolverhampton, United Kingdom, ³West Midlands Urology Research Collaboration, West Midlands Deanery, United Kingdom, ⁴University Coventry and Warwickshire Hospital, Coventry, United Kingdom

P7-9  Testicular cancer: age, histology and stage, what’s the current relationship? A pan-deanery experience
Miss Madeline Moore¹, Miss Abi Kanthabalan², West Midlands Urology Research Collaboration³, Mr Iain Wharton⁴
¹Royal Wolverhampton NHS Trust, Wolverhampton, United Kingdom, ²Queens Hospital Birmingham, Birmingham, United Kingdom, ³West Midlands Urology Research Collaboration, United Kingdom, ⁴University of Coventry and Warwickshire NHS Trust, Coventry, United Kingdom
Tuesday 14 June, 1400-1530, Hall 10

ePoster Session 8
Prostate Cancer 1

Chairs: Mr Vishwanath Hanchanale, Royal Liverpool University Hospital and Miss Emma Gordon, West Suffolk Hospital

P8-1 Artificial intelligence in prostate multidisciplinary team meetings: a validation study
Mr Jonathan Aning1, Miss Sam Kearley1, Miss Helen Dunderdale2, Mr Anthony Koupparis1, Mr Edward Rowe1, Mr Raj Pal1, Mr Ioannis Chronakis3, Mr Gareth Butt3, Mr Raj Persad1, Mr Vivek Patkar1
1Bristol Urological Institute, Bristol, United Kingdom, 2Somerset, Wiltshire, Avon and Gloucestershire (SWAG) Cancer Alliance, South West, United Kingdom, 3Deontics Ltd United Kingdom

P8-2 PROSAIC-DS: Artificial Intelligence and the Future of Prostate Cancer MDT’s
Mr Ahmed Khattak1, Mr Jonathan Makanjuola, Dr Danny Ruta, Dr Martha Martin, Miss Kate Dodgson, Dr Brojeswar Purkayastha
1Kings College Hospital, London, United Kingdom

P8-3 Will I have recurrence of my high-risk prostate cancer? A multicentre analysis of biochemical recurrence post radical surgery according to pre-operative risk stratification
Mr Conor Devlin1, Mr Andrew Deytrikh2, Mr Raslan Mutie3, Dr Shacheesh Sinha4, Dr Samuel Murgatroyd4, Mr David Yates2, Mr Mohanatha Dooldeniya4, Mr Nicholas Smith4, Mr Chidi Molokwu2, Mr Rohit Chahal3, et al.,
1St James’s University Hospital, Leeds, United Kingdom, 2Sheffield teaching hospitals, Sheffield, United Kingdom, 3Pinderfields General Hospital, Wakefield, West Yorkshire, 4Hull University teaching hospitals, Hull, United Kingdom, 5Bradford teaching hospitals, Bradford, United Kingdom

P8-4 Ex-VIVO Confocal Microscopy Margins Analysis Study In Robot-Assisted Radical Prostatectomy (RARP)
Mr Tarek Al-Hammouri1, Dr Ricardo Almeida-Magana2, Dr Sarah Toomey3, Dr Aiman Haider3, Dr Alex Freeman3, Mr Jack Grierson1, Mr Eoin Dinneen2, Mr Greg Shaw1
1University College London Hospitals, London, United Kingdom, 2Division of Surgery & Interventional Science, University College London, London, United Kingdom, 3Department of Cellular Pathology, University College London Hospital, London, United Kingdom

P8-5 Clinical outcomes of predominantly anterior prostate cancers treated with RARP: a prospective comparative cohort analysis with 2 years follow up
Dr Reyan Saghir1, Miss Francesca Kum, Mr Noman Saghir, Mr Raef Darwish, Mr Jude Deane, Mr Christopher Allen, Ms Hira Rizwi, Ms Beth Russell, Mr Paul Cathcart, Mr Ben Challacombe, Mr Nikhil Mayor, Mr Rick Popert, Mr Christian Brown, Mr Prokar Dasgupta
1Guy’s Hospital, Huddersfield, United Kingdom

P8-6 Pelvic floor mobility aids continence recovery in post-prostatectomy incontinence as assessed by serial dynamic perineal ultrasound (the ProsPUR study).
Dr Anna Colarieti1, Dr. Nadeem Shaida2, Dr. Tristan Barrett2, Dr. Nikesh Thiruchelvam2
1San Raffaele University Hospital, Milan, Italy, 2Addenbrooke’s Hospital, University of Cambridge, Cambridge, UK
P8-7 A feasibility study of the therapeutic response and durability of short-term androgen targeted therapy in early prostate cancer managed by surveillance: The Therapeutics in Active Prostate Surveillance (TAPS01) study

Professor Vincent GnanaPragasam1, Dr Tristan Barrett1, Mrs Kelly Leonard2, Dr Jerome Wulff2, Dr Ionnis Funingana3, Dr Simon Pacey1

1University Of Cambridge, Cambridge, United Kingdom, 2Cambridge University Hospitals NHS Trust, Cambridge, United Kingdom

P8-8 Primary focal cryotherapy for non-metastatic prostate cancer: oncological outcomes from 195 patients

Miss Deepika Reddy1, Dr Max Peters2, Dr Taimur Shah1, Dr Marieke van Son2, Dr Mariana Bertoncelli Tanaka1, Dr Philipp Huber3, Dr Derek Lomas4, Dr Arnas Rakauskas4, Mr Manit Arya1, Professor Hashim Ahmed1, et al et al

1Imperial Prostate, London, United Kingdom, 2Utrecht Medical Centre, Utrecht, the Netherlands, 3Urologie St Anna, Switzerland, 4Mayo Clinic, United States of America

P8-9 ‘Living With’ prostate cancer: A digital health intervention to support patients and healthcare professionals

Dr Patricia Schartau1, Professor Elizabeth Murray1, Professor Greg Shaw3, Professor Ann Blandford1, Professor Mike Kirby3, Dr Shoumik Choudhury1, Dr Chris Robson4

1University College London, London, United Kingdom, 2University College London Hospital, London, United Kingdom, 3The Prostate Center, London, United Kingdom, 4‘Living with’ company, London, United Kingdom

P8-10 Comparative outcomes of salvage robotic-assisted radical prostatectomy after focal therapy (fSRARP) and whole gland therapy (SRARP): a multinational, high-volume analysis

Mr Arjun Nathan1, Mr Seetharam Bhat, Mr Senthil Nathan, Mr Vip Patel

1University College London Hospital, London, United Kingdom

P8-11 Single tertiary cancer centre experience on the management of pT3b Prostate Cancer After Robot-assisted Laparoscopic Prostatectomy

Mr Arvind Nayak1, Mr Omar El-Taji1, Dr Rob Hughes2, Dr Roberto Alonzi2, Dr Peter Ostler2, Mr Tim Lane1, Mr Jim Adshead1, Mr Nikhil Vasdev1

1Lister Hospital, Hitchin, United Kingdom, 2Mount Vernon Hospital, London, United Kingdom

P8-12 MRI-derived Preoperative membranous urethral length predicts urinary continence outcomes in men undergoing salvage radical prostatectomy for radio-recurrent prostate cancer: a multicentre study

Mr Luis Ribeiro1, Miss Anna Walsh1, Dr Samuel Withey1, Dr Caio Pasquali Dias dos Santos2, Dr Seth Peiris1, Dr Giles Rottenberg1, Dr Rafael Sanchez-Salas2, Mr Rick Popert1, Mr Paul Cathcart1

1Guy’s Hospital, London, United Kingdom, 2Institut Mutualiste Montsouris, Paris, France

P8-13 Comparative effectiveness analysis of oncological and functional outcomes after salvage radical treatment with surgery or radiotherapy following primary focal or whole-gland ablative therapy for localised prostate cancer

Mr Arjun Nathan1, Dr Anita Mitra1, Dr Reena Davda1, Mr Prasanna Sooriakumaran1, Mr Senthil Nathan1, Professor Heather Payne1

1University College London Hospital, London, United Kingdom
P8-14 Evaluating the efficacy of combined inhibition of Poly ADP Ribose Polymerase (PARP) and Ataxia telangiectasia and Rad3-related protein (ATR) in castrate resistant prostate cancer

Mr Nicholas Bullock¹, Dr Daniel Turnham², Dr Manisha Dass², Professor Richard Clarkson², Professor John Staffurth¹, Dr Helen Pearson², Professor Howard Kynaston¹

¹Division of Cancer and Genetics, Cardiff University, Cardiff, United Kingdom, ²European Cancer Stem Cell Research Institute, Cardiff University, Cardiff, United Kingdom

P8-15 Interventions for upper tract obstructive uropathy in men with locally advanced and metastatic prostate cancer: a national population-based study

Mr Arjun Nathan¹, Dr Melanie Morris, Mr Matthew Parry, Mr Brendan Berry, Mr Arunan Sujenthiran, Miss Julie Nossiter, Professor Heather Payne, Professor Jan Van Der Meulen, Professor Noel Clarke, Professor James Green

¹University College London Hospital, London, United Kingdom
Tuesday 14 June, 1400-1530, Hall 7

ePoster Session 9
Management/Governance/Education/Quality Improvement

Chairs: Mr Bhavan Rai, Freeman Hospital, Newcastle and Miss Flora Rodger, Queen Elizabeth University Hospital, Glasgow

P9-11 Virtual classroom proficiency-based progression for robotic surgery training (VROBOT): a prospective, cross-over, effectiveness study
Mr Arjun Nathan, National Surgical Teaching Society Research Collaborative, Professor John Kelly, Mr Justin Collins, Mr Ashwin Sridhar
1University College London Hospital, London, United Kingdom

P9-1 Urological ‘GMC Referrals for Fitness to Practice in the UK’: an analysis over the last 14 years (2007-2021) based on trends, ethnicity and outcomes
Miss Jenni Lane, Professor Bhaskar Somani
1University Hospital Southampton, Southampton, United Kingdom

P9-2 Triaging urologic specialist referrals to identify vulnerable groups who do not attend appointments – a retrospective analysis
Dr Christian Robinson, Dr Hazel Ecclestone
1TDHB, New Plymouth, New Zealand

P9-3 E-Consent – a guide to implement an innovative solution to maintain recruitment in clinical trials during the COVID-19 pandemic
Dr Ricardo Almeida-Magana, Ms Hanna Maroof, Mr Jack Grierson, Ms Rosie Clow, Mr Eoin Dinneen, Mr Tarek Al-Hammouri, Dr Nicola Muirhead, Dr Chris Brew-Graves, Prof John Kelly, Mr Greg Shaw
1University College London Hospital, London, United Kingdom, 2University College London Hospitals, United Kingdom

P9-4 Consent in Urological surgery: Informed or uninformed?
Mr Damiete Harry, Ms Oluwatobiloba Oyebanji, Dr Mazharuddin Shaikh, Mr Almostafa Badreldin, Mr Nagesh Biradar, Mr Tarek Aly, Mr Hugh Crawford-Smith, Mr Junaid Masood
1Barking Havering and Redbridge University Hospitals, NHS Trust, London, United Kingdom

P9-5 Streamlining improves the effectiveness of the Uro-Oncology MDT
Mr Mudit Matanhelia, Mr Matthew Byrne, Mrs Amanda Coker, Mr Christopher Blick, Mr Adam Jones, Mr Philip Charlesworth
1Royal Berkshire Hospital, Reading, United Kingdom

P9-6 Full Stream Ahead: utilising streamlining to improve efficiency in the Urology Multi-Disciplinary Team Meeting (MDTM)
Dr Melika Moghim, Miss Rachel Oliver, Mr John Hines
1University College London Hospital, London, United Kingdom, 2North Middlesex University Hospital, London, United Kingdom, 3North Central London Cancer Alliance, United Kingdom
P9-7  Intelligent Triage: The first step to improving outpatient efficiency
Mr Robin Shepherd\(^1\), Mr Przemyslaw Orawiec, Mr Ian Beckley, Ms Rebecca Phillips, Ms Stephanie Symons, Ms Alison Downey, Mr Simon Harrison, Mr Anthony Browning
\(^1\)Pinderfields Hospital, Wakefield, United Kingdom

P9-8  Enhancing Ambulatory Care - Caring through crisis and cancellations through Covid-19
Ms Norah Keville\(^1\), Ms Gemma Hann\(^1\), Miss Karen Boudou\(^1\), Mrs Claire Cassells\(^1\)
\(^1\)Ulster Hospital Dundonald, Belfast, United Kingdom

P9-9  Evaluating and reducing carbon footprint in urological surgery
Dr Derrick Tsang\(^1\), Dr Amy Greengrass, Professor Krishna Sethia
\(^1\)Norfolk & Norwich University Hospital, Norwich, United Kingdom

P9-10  Reducing the environmental impact of fluid waste disposal in urology
Miss Charlotte Gunner\(^1\), Dr Ken Barker, Dr Sara Ramsey
\(^1\)Raigmore Hospital, Inverness, United Kingdom

P9-12  Quantifying the impact of the coronavirus pandemic on the basic laparoscopic skills of urology trainees
Miss Siri Gowda\(^1\), Mr Gokul Kanda Swamy\(^2\), Mr Rajan Veerattepillay\(^3\), Mr Ramanan Rajasundaram\(^4\), Mr Vishwanath Hanchanale\(^5\), Mr Basavaraj Gowda\(^6\), Miss Beverley Wilkinson\(^1\), Mr Chandra Shekhar Biyani\(^7\)
\(^1\)Sheffield Teaching Hospitals Nhs Trust, Sheffield, United Kingdom, \(^2\)Swansea Bay University Health Board, Swansea, United Kingdom, \(^3\)Newcastle upon Tyne Hospitals NHS Trust, United Kingdom, \(^4\)Doncaster and Bassetlaw NHS foundation Trust, Doncaster, United Kingdom, \(^5\)Liverpool University Hospitals NHS Foundation Trust, Liverpool, United Kingdom, \(^6\)South Tees Hospitals NHS foundation Trust, Middlesbrough, United Kingdom, \(^7\)Leeds Teaching Hospitals NHS Trust, Leeds, United Kingdom

Dr Matthew Pears\(^1\), Mr Chandra Shekhar Biyani\(^2\), Mr Karan Wadhwa\(^3\), Mr Vishwanath Hanchanale\(^4\), Mr Sunjay Jain\(^5\), Mr Stephen R Payne\(^6\), Dr Stathis Konstantinidis\(^1\), Mr Mark Rochester\(^6\), Ms Ruth Doherty\(^6\)
\(^1\)University of Nottingham, Nottingham, United Kingdom, \(^2\)Leeds Teaching Hospitals NHS Trust, Leeds, United Kingdom, \(^3\)Broomfield Hospital, Chelmsford, United Kingdom, \(^4\)Royal Liverpool University Hospital, Liverpool, United Kingdom, \(^5\)Urolink Secretary, BAUS, Manchester, United Kingdom, \(^6\)Norfolk & Norwich University Hospitals NHS Foundation Trust, Norwich, United Kingdom

P9-14  Artificial Intelligence : a future tool for clinical decision-making
Dr. Ko Ko Zayar Toe\(^1\), Dr. Jonathan Charnock\(^1\), Ms Olesya Kovyzhenco\(^1\), Mr. Tet Yap\(^1\), Ms Raveen Kaur Sandher\(^1\)
\(^1\)Guy’s and St. Thomas’ Hospital, London, United Kingdom

P9-15  Virtual learning in the pandemic era of split site working - How to change a suprapubic catheter
Mr Damiete Harry\(^1\)
\(^1\)Homerton University Hospital, London, United Kingdom
EPOSTER SESSIONS
6 minutes for each ePoster Presentation
4 minutes for presentation | 2 minutes for Q&A and turnaround

Tuesday 14 June, 1400-1530, Hall 11
ePoster Session 10
Stones / Imaging / Upper Tract Disorders 2

Chairs: Mrs Yuko Smith, Queen Elizabeth Hospital, Birmingham and Mr Daron Smith, University College Hospital, London

P10-1 Day case mini percutaneous nephrolithotomy (mini-PCNL): feasibility, safety, efficacy and patient acceptability study.
Mr George Tanasescu1, Ms Samantha Farrington, Mr Dominic Hodgson, Mr Carl Rowbotham, Ms Mo Sahu, Mr Andreas Auer, Mr Mohamed Ismail1
1Portsmouth Hospital University NHS Trust, Portsmouth, United Kingdom

P10-2 How can we improve access to ureteroscopy for upper tract stones? Analysis of Model Hospital data for all hospitals in England
Miss Jessica Gallagher1, Ms Madeleine Connolly2, Mr Simon Harrison3, Mr William K Gray3, Mr Kieran O’Flynn3, Mr John S McGrath3, Mr Joseph B John1
1Royal Devon And Exeter Hospital, Exeter, United Kingdom, 2The Model Health System, NHS England, United Kingdom, 3Getting It Right First Time, United Kingdom

P10-3 Single centre experience of chelating agents in cystinuria; if at first you don’t succeed, try again.
Miss Nadia Bitar1, Miss Niamh Foran2, Mrs Hayley Wells2, Dr Giles Rottenberg2, Dr David Game2, Mr Matthew Bultitude2, Miss Kay Thomas2
1Kings College London, London, United Kingdom, 2Guy’s And St Thomas’ NHS Foundation Trust, London, United Kingdom

P10-4 Developing follow-up protocols for patients after insertion of Allium metal ureteric stents
Mr Angus Luk1, Mr Matthew Shaw1, Dr Rob Williams1, Dr Phil Haslam1, Mr Thiru Suntharasivam1, Mr David Rix1, Mr David Thomas1, Mr Trevor Dorkin1, Mr Alistair Rogers1
1Freeman Hospital, Newcastle Upon Tyne Hospitals NHS Foundation Trust, Newcastle Upon Tyne, United Kingdom

P10-5 Renal Stone Analysis in Patients with Spinal Cord Injuries
Mr Yih Chyn Phan1, Mr Maximilian Johnston1, Mr Rotimi David1, Ms Holly Colvin1, Ms Radhika Bhanot1, Ms Melissa Davies1, Mr James Brewin1
1Salisbury District Hospital, Salisbury, United Kingdom

P10-6 Renal angiography and selective arterial embolisation rates following Percutaneous Nephrolithotomy (PCNL); does size really matter?
Mr Angus Luk1, Dr Alex Miller1, Dr Rob Williams1, Dr Phil Haslam1, Dr John Fitzpatrick1, Mr David Rix1, Mr Trevor Dorkin1, Dr Georgia Priona1, Mr Matthew Shaw1, Mr Alistair Rogers1
1Freeman Hospital, Newcastle Upon Tyne Hospitals NHS Foundation Trust, Newcastle Upon Tyne, United Kingdom

P10-7 Outcome of Flexible Ureterorenoscopic Lasertripsy in the Treatment of Staghorn Stones
Mr Ahmed Kodera1, Mr Sachin Yallappa1, Mrs Mussammet Ahmed1, Mr Vincentkoo1
1Urology Department, Alexandra Hospital, Redditch, United Kingdom
To ultrasound or not to ultrasound? Should we disregard the NICE guidance in women presenting with renal colic?
Ms Christina Fontaine¹, Dr Max Herriot², Mr Jonathan Manley², Mr Andrew Dicksinson²
¹Musgrove Park Hospital, Taunton, United Kingdom, ²University Hospitals Plymouth, Plymouth, United Kingdom

Correlation of Hounsfield units and stone volume with LASER time in stone surgery
Mr Ketan Agarwal¹, Mr John McCabe¹
¹Whiston Hospital, Liverpool, United Kingdom

Safety and efficacy of the Coloplast Tumor Stent in managing patients with chronic ureteral obstruction
Mr Dominic Brown¹, Mr Christopher Khoo², Mr Ranan Dasgupta¹, Mr Tamer El-Husseiny¹, Mr Hamid Abboudi¹
¹Imperial College Healthcare NHS Trust, London, United Kingdom, ²Frimley Health NHS Foundation Trust, London, United Kingdom

Urological stone disease: A snapshot of current trends in management. A Five-year update using hospital episode statistics
Mr Ibrahim Jou¹, Miss Angela Lam, Professor Ben Turney¹
¹Churchill Hospital, Oxford, United Kingdom

Is ElectronicStent Register The Solution For Preventing Forgotten JJ UretericStents ? 2 year review
Mr Jaginkere Chiran¹
¹Blackpool victoria hospital, Blackpool, United Kingdom

Role and outcomes of different holmium lasers: 20W, 60W and 100W) for flexible ureteroscopy and stone fragmentation (FURSL) for renal stones >or=15mm: Tertiary endourology centre outcomes
Miss Amelia Pietropaolo¹, Miss Mriganka Mani Sinha¹, Dr Thomas Hughes¹, Prof Bhaskar Somani¹
¹University Hospital Southampton, Southampton, United Kingdom

Cost utility analysis of shockwave lithotripsy compared with ureteroscopy for adults with a ureteric stone
Dr Mary Kilonzo¹, Mr Ranan Dasgupta², Dr Ruth Thomas¹, Dr Lorna Aucott¹, Dr Sara MacLennan¹, Mr Thomas Lam², Mr Francis Keeley⁴, Mr John Norrie⁶, Professor Graeme Maclellan¹, Professor Sam McClinton¹
¹University of Aberdeen, Aberdeen, UK, ²Imperial College Healthcare, London, UK, ³Aberdeen Royal Infirmary, Aberdeen, UK, ⁴Bristol Urological Institute, Bristol, UK, ⁵University of Edinburgh, Edinburgh, UK

Extra-Anatomical Detour Ureteric Stents: Our District General Hospital Experience of consecutive 50 Patients with a minimum follow up of 6 months
Dr Atigur Rahman¹, Mr Mohammed Kamil Quraishi¹, Mr Simon Mackie¹, Mr Graham Watson¹
¹East Sussex Healthcare Nhs Trust, Eastbourne, United Kingdom
Tuesday 14 June, 1630-1730, Hall 10

ePoster Session 11
Prostate Cancer 2

Chairs: Ms Janine Nethercliffe, Peterborough City Hospital and Mr Tom Walton, Nottingham City Hospital

P11-1  Indeterminate mpMRI lesions: Evaluating the optimal PSA density threshold for prostate biopsy

1Imperial Prostate, London, United Kingdom, 2Imperial College Healthcare NHS Trust,

P11-2  2WW Prostate Cancer Referrals - are we over investigating patients with normal PSA results?

Mr Manoj Ravindraanandan, Ms Kay Willard, Mr Robert Cotton, Mrs Sarah Dawson, Mr Pankaj Pankaj, Mr Biju Nair, Mr Christopher Luscombe, Mr Lyndon Gommersall

1University Hospital North Midlands, Stoke-on-Trent, United Kingdom

P11-3  Standardization of the mpMRI and transperineal prostate biopsy pathway

Miss Deepika Reddy, Dr David Eldred-Evans, Mr Martin Connor, Miss Mariana Bertoncelli Tanaka, Feergus Hosking-Jervis, Heather Bholra-Stewart, William Maynard, Christopher Khoo, Taimur Shah, Hashim Ahmed, et al et al

1Imperial Prostate, London, United Kingdom, 2Imperial College Healthcare NHS Trust, UK

P11-4  Decision Regret in Patients Opting for Active Surveillance vs Surgical Treatment for Low-Risk Prostate Cancer

Miss Mei-Ling Henry, Mr Gokul Kandaswamy

1Royal Glamorgan Hospital, Cwm Taf University Health Board, Llantrisant, United Kingdom, 2Morriston Hospital, Swansea Bay University Health Board, Cymrhydceirw, United Kingdom

P11-5  Pre-operative imaging significantly underestimates size of prostate cancer in comparison to histopathology of radical prostatectomy: Implications for focal treatment

Mr Wael Ageeli, Miss Soha Nabi, Dr Jennifer Wilson, Miss Xinyu Zhang, Dr Magdalena Szewczyk-Bieda, Professor Ghulam Nabi

1Ninewells Hospital, Dundee, United Kingdom

P11-6  Acinar vs Ductal Adenocarcinoma of the Prostate: a single centre retrospective study

Dr Pinky Kotecha, Nikki Kerdegari, Jacob Clark, Dr Ashish Chandra, Professor Prokar Dasgupta, Mr Oussama El Hage

1Guy’s and St Thomas’ NHS Trust, London, United Kingdom
P11-7  Axial Skeleton Magnetic Resonance Imaging for Detecting Bone Metastases in Patients with High-Risk Prostate Cancer: Diagnostic and Cost-Effectiveness from a Tertiary Referral Centre.

Mr Omar El-Taji¹, Miss Hannah Evans¹, Dr Vandan Arora¹, Dr Suzanne Amin¹, Mr Manal Kumar¹, Mr Thiagrajan Nambi Rajan¹

¹Wirral University Teaching Hospital, Wirral, United Kingdom

P11-8  Improving bone health in prostate cancer patients starting androgen deprivation therapy: Does Fracture Risk Assessment Tool (FRAX©) enhance stratification and targeted management?

Mr Abdallah Shargawi¹, Ms Kathryn Hewitt¹, Mr Cameron Alexander¹, Mr Ahmed El-Sakka², Ms Ling Lee¹

¹Royal Bolton Nhs Hospital, Bolton, United Kingdom, ²Suez Canal university hospitals, Egypt

P11-9  Fluorine-18 (18F) prostate-specific membrane antigen (PSMA) positron emission tomography (PET) and the diagnosis and staging of secondary prostate cancer (PCa)

Mr Matthew Byrne¹, Nithesh Ranasinha¹, Claudia Mercader¹, Mutie Raslan¹, Francesca Lewis¹, Stefanos Gorgoraptis¹, Ganesh Sthanapally¹, Anna Catarina Lopes Vieira¹, Jedrzej Golebka¹, Alastair Lamb¹, et al.

¹Oxford University Hospitals Nhs Foundation Trust, Oxford, United Kingdom

P11-10 Fluorine-18 (18F) prostate-specific membrane antigen (PSMA) positron emission tomography (PET) and the diagnosis and staging of primary prostate cancer (PCa)

Mr Matthew Byrne¹, Jedrzej Golebka¹, Stefanos Gorgoraptis¹, Alastair Lamb¹, Francesca Lewis¹, Ana Catarina Lopes Vieira¹, Claudia Mercader¹, Nithesh Ranasinha¹, Mutie Raslan¹, Ganesh Sathanapally¹

¹Oxford University Hospitals Nhs Foundation Trust, Oxford, United Kingdom
Tuesday 14 June, 1630-1730, Hall 7

**ePoster Session 12**

**General Urology (Male LUTS / Emergency / Trauma) 1**

Chairs: Mrs Lynne Kerr, University Hospital, Ayr and Mr Vinnie During, New Cross Hospital, Wolverhampton

**P12-1** Hydrocele aspiration and injection sclerotherapy under local anaesthetic: a viable alternative to open surgical repair

Mr Rotimi David¹, Mr Yih Chyn Phan¹, Mr Maximilian Johnston¹, Mr James Brewin¹, Mr Alister Campbell¹, Mr Mohammed Elsaghir¹, Ms Melissa Davies¹

¹Salisbury NHS Foundation Trust, Salisbury, United Kingdom

**P12-2** A Comparison of Urological Cancer Stage and Diagnosis Rates Before and During the COVID-19 Pandemic in a District General Hospital

Mr Mark Johnson¹, Dr Charmian Reynoldson¹, Dr Adam Sinker¹, Mrs Rachael Morrison¹

¹Harrogate District Hospital, Harrogate, United Kingdom

**P12-3** Negative Prostate MRIs: Are we discharging these men back to the community safely?

Mr Edward Bass¹, Ms Somita Sarkar¹, Mr Kishore Raja¹, Mr Phil James¹, Mr Michael Mikhail¹, Mr Sergey Tadtyayev¹, Dr Alex Chapman¹, Dr Allan Irvine¹, Mr Nim Arumainayagam¹

¹Ashford and St. Peter’s Hospitals NHS Foundation Trust, London, United Kingdom

**P12-4** The implications when offering percutaneous nephrostomy for the management of obstructive uropathy secondary to prostate and bladder cancer: can we be more selective?

Ms Elizabeth Osinibi¹², Dr Hong Hoan¹, Mr Tahir Bhat², Mr Shikohe Masood², Prof. Sanjeev Madaan³

¹Dartford And Gravesham NHS Trust, Dartford, United Kingdom, ²Medway NHS Foundation Trust, Gillingham, Kent, United Kingdom

Dr Alexander Light¹, COVIDSurg Collaborative, British Urology Researchers in Surgical Training (BURST) Collaborative

¹British Urology Researchers in Surgical Training (BURST) Collaborative

**P12-6** Preventing catheter balloon inflation injury of the urethra: a prospective study utilising the Transurethral Catheterisation Safety Valve (TUCSV®) in the UK and Ireland

Dr Amber Matkowskij¹, Ms Eabhann O’Connor³, Ms Stefanie Croghan³, Mr Robert Keenan³, Mr James Ryan³, Dr Olivia Baird², Mr Raghav Varma¹, Dr John Fallon³, Mr Subhais Giri³, Mr Wasim Mahmalji³, et al.

¹Hereford County Hospital, Hereford, United Kingdom, ²University Hospital Limerick, Limerick, Ireland, ³Beaumont Hospital, Dublin, Ireland
P12-7 Multidisciplinary approach to manage patients with recurrent urinary tract infections – Initial experience from our complex UTI clinic

Mr Ekpeno Inyang¹, Ms Mehwash Nadeem¹, Ms Stephanie Bezemer¹, Mrs Jayne Morris-Laverick¹, Dr Igor Kubelka¹, Dr Victoria McCune¹

¹James Cook University Hospital, South Tees Hospital NHS Foundation Trust, Middlesbrough, United Kingdom

P12-8 Management of radiation induced haematuria - a 5-year experience from a specialist referral clinic for radiation cystitis

Dr William Collier¹, Miss Yasmin Abu-Ghanem¹, Mr Kawa Omar¹, Mr Sachin Malde¹, Miss Elsie Mensah¹, Dr Simon Hughes¹, Dr Vinod Mullassery¹, Mr Rajesh Nair¹, Professor Muhammad Shamim Khan¹, Mr Ramesh Thurairaja¹

¹Guy’s Hospital, London, United Kingdom

P12-9 Guidance for diagnosis and management of bladder injuries – Is practice up to date?

Dr Eve Robertson-Waters¹, Dr Callum Donaldson, Dr Alexander Light, Mr Benjamin Lamb, Mr Nikesh Thiruchelvam

¹Addenbrooke’s Hospital, Cambridge, United Kingdom

P12-10 Evaluation and treatment in urology for nocturia caused by non-urological mechanisms: guidance from the PLANET study

Professor Marcus Drake¹, Dr Shoba Dawson¹, Dr Jonathan Rees², Dr Emily Henderson¹

¹University of Bristol, Bristol, United Kingdom, ²Tyntesfield Medical Practice, North Somerset, United Kingdom
BAUS 2022
MENTORING SESSIONS

BAUS is offering delegates a FREE *(£20 refundable deposit required) 1-hour mentoring session with one of our trained and experienced mentors.

What is Mentoring?
'A learning relationship that helps the mentee to take charge of their own development, realising their potential. It helps them become better at helping themselves'. Mentors may have several roles, including: sounding boards, critical friend, facilitator, networker, coach and role model.

Why Should I Attend?
• If you are settling into a new post or role and you need some help & career/life advice
• You have a specific educational or work need
• Want to discuss a potential opportunity or dilemma
• Want to be more strategic about your development

Mentoring sessions are available to book via the online registration system.
Wednesday 15 June, 1100-1200, Hall 7

**ePoster Session 13**

**General Urology (Male LUTS / Emergency / Trauma) 2**

*Chairs: Mr Gidon Ellis, Royal Free Hospital, London and Miss Banan Osman, University Hospitals Birmingham NHS Foundation Trust*

**P13-1** Prostatic Urethral Lift (PUL) provides safe and durable improvements in lower urinary tract symptoms of BPH (LUTS/BPH) in patient cohorts with prostate cancer

*Mr Mark Rochester¹, Mr Neil Barber², Mr. Oliver Kayes³, Dr. Gregg Eure⁴, Dr. Peter Chin⁵*

¹Norfolk And Norwich University Hospital, Norwich, United Kingdom, ²Frimley Park Hospital, Frimley, United Kingdom, ³St. James University Hospital, Leeds, United Kingdom, ⁴Urology of Virginia, Virginia Beach, United States, ⁵South Coast Urology, Wollongong, Australia

**P13-2** Evidence from real-world and controlled studies confirms the safety and effectiveness of the Prostatic Urethral Lift (PUL) in symptomatic BPH patients irrespective of prostate size and shape

*Mr Neil Barber¹, Dr. Christian Gratzke, Dr. Mark Rochester, Dr. Karl-Dietrich Sievert, Dr. Steven Gange, Dr. Thomas Mueller, Dr. Gregg Eure*

¹Frimley Park Hospital, Frimley, United Kingdom

**P13-3** Day case Rezum TM Water Vapor therapy for urinary retention: A single center real world experience

*Mr Mohamed Noureldin¹, Dr Jake Pickard¹, Mr Yehia Abdelmotagly¹, Mrs Danielle Whiting¹, Mr Max Johnston¹, Mr Raj Kumar¹, Mr Amr Emara¹, Prof Richard Hindley¹,²*

¹Basingstoke And North Hampshire Hospitals, Basingstoke, United Kingdom, ²University of Winchester Department of Health and Wellbeing, Winchester, United Kingdom

**P13-4** Length of stay after HoLEP, an analysis of the influencing factors

*Mr Branimir Penev¹, Dr Anam Ijaaz¹, Miss Katherine Guest¹, Mr Mark Cynk¹*

¹Maidstone And Tunbridge Wells Nhs Trust, Tombridge, United Kingdom

**P13-5** Impact of untreated pre-operative asymptomatic bacteriuria in patients undergoing Holmium laser enucleation of prostate (HoLEP)

*Ms Divya Bheenick¹, Mr Jasper Bondad¹, Mr Peter Acher¹, Mr Daben Dawam¹, Professor Tony Young¹*

¹Southend University Hospital, Westcliff On Sea, United Kingdom

**P13-6** Can we increase bladder outlet obstruction surgery day case rates to tackle the post-Covid Elective Recovery?

*Miss Jessica Gallagher¹, Ms Madeleine Connelly², Mr Simon Harrison³, Mr William K Gray⁴, Mr Kieran O’Flynn⁵, Mr John S McGrath¹, Mr Joseph B John¹*

¹Royal Devon & Exeter Hospital, Exeter, United Kingdom, ²The Model Health System, England, ³Getting It Right First Time, United Kingdom
**P13-7** Role of Urodynamic study in the evaluation of Lower urinary tract symptoms in young men  
Dr Vyshnavi Sathish¹, Ms Mehwash Nadeem¹, Miss Habiba Yasmin², Mrs Mahreen Pakzad², Mr Jeremy Ockrim², Miss Tamsin Greenwell², Mr Rizwan Hamid²  
¹James Cook Hospital, Middlesbrough, United Kingdom, ²University College London Hospitals, London, United Kingdom

**P13-8** A trans-ethnic genome-wide association study reveals new therapeutic targets for benign prostatic hyperplasia.  
Dr Michael Ng¹, Koichi Matsuda², Chizu Tanikawa³, Chikashi Terao⁴, Yoichiro Kamatani²⁴, Wei Wang⁵, Adam Auton⁶, Benjamin Turney⁶, Professor Richard Bryant⁴⁵, Dominic Furniss¹

**P13-9** Treating Urinary symptoms in Men in Primary Healthcare using non-pharmacological and non-surgical interventions: a randomised trial of standardised and manualised care versus usual care  
Professor Marcus Drake¹, Dr Jo Worthington¹, Ms Jess Frost¹, Dr Stephanie Mac Neill¹, Prof Athene Lane¹  
¹University of Bristol, Bristol, United Kingdom

**P13-10** Predictors of symptom outcome for prostate surgery in men with Lower Urinary Tract Symptoms in the UPSTREAM study  
Dr Grace Young¹, Dr Amanda Lewis¹, Dr Hiroki Ito², Professor Marcus Drake¹  
¹University of Bristol, Bristol, United Kingdom, ²Yokohama City University Graduate School of Medicine, Yokohama, Japan
Wednesday 15 June, 1400-1500, Hall 7

ePoster Session 14
Bladder Cancer: Non-Muscle Invasive

Chairs: Mr Jaimin Bhatt, Queen Elizabeth University Hosp and Miss Jayne Douglas-Moore, Leicester General Hospital

P14-1 Developing a risk calculator to predict cancer in patients with haematuria: The IDENTIFY Study

Mr Sinan Khadhouri, Mr Kevin Gallagher, Mr Kenneth MacKenzie, Mr Taimur Shah, Mr Chuanyu Gao, Miss Eleanor Zimmermann, Mr Thineskrishna Anbarasan, Mr John McGrath, Mr Arjun Nambiar, Mr Veeru Kasivisvanathan, The IDENTIFY Study group

1Aberdeen Royal Infirmary, Aberdeen, United Kingdom, 2Western General Hospital, Edinburgh, United Kingdom, 3Freeman Hospital, Newcastle, United Kingdom, 4Imperial College Healthcare NHS Trust, London, United Kingdom, 5Addenbrookes Hospital, Cambridge, United Kingdom, 6Torbay and South Devon NHS Foundation Trust, Torbay, United Kingdom, 7University College London, London, United Kingdom, 8Royal Devon and Exeter NHS Foundation Trust, Exeter, United Kingdom

P14-2 Global variation in quality of transurethral resection of bladder surgery, early results from the RESECT study.

Mr Kevin Gallagher, Miss Nikita Bhatt, Mr.Keiran Clement, Mr.Sinan Khadhouri, Miss Meghana Kulkarni, Mr.Steven MacClennan, Professor Matthew Neilsen, Mr. Paramananthan Mariappan, Mr Tim O’Brien, Mr. Veeru Kasivisvanathan, RESECT_Global_Collaborators

1Department of Urology, Western General Hospital, Edinburgh, United Kingdom, 2Department of Urology, University Hospitals Cambridge, Cambridge, United Kingdom, 3Department of Urology, NHS Greater Glasgow and Clyde, Glasgow, United Kingdom, 4Health Services Research Unit, University of Aberdeen, Aberdeen, United Kingdom, 5Department of Urology, Guy’s and St. Thomas’ NHS Foundation Trust, London, United Kingdom, 6Academic Urology Unit, University of Aberdeen, Aberdeen, United Kingdom, 7Department of Urology, University of North Carolina School of Medicine, Chapel Hill, United States of America, 8Department of Urology, Western General Hospital, Edinburgh, United Kingdom, 9Division of Surgery and Interventional Science, University College London, London, United Kingdom, 10BURST, London, United Kingdom

P14-3 A more nuanced approach to repeat Transurethral Resection of Bladder Tumour (re-TURBT): Multicentre real world long-term outcomes from 1,219 primary High Grade Non-Muscle Invasive Bladder Cancer (NMIBC) patients managed within the Scottish Bladder Cancer Quality Performance Indicator (QPI) Programme.

Mr Paramananthan Mariappan, Mr Allan Johnston, Mr Matthew Trail, Mr Sami Hamid, Mr Barend A. Dreyer, Ms Sara Ramsey, Mr Alasdair Boden, Mr Gianluca Maresca, Mr Rami Hasan, Mr Graham Hollins, Mrs Claire Sharpe, Dr Luisa Padovani, Ms Roberta Garau, Dr Julia Guerrero-Enriquez, Ms Helen Simpson, Mr Jaimin Bhatt, Mr Imran Ahmad, Mr Ghulam M Nandwani, Mr Altaf H Chaudhry, Mr Rehan S Khan, Mr Konstantinos Dimitropoulos, Dr Catriona Graham, Dr David Hendry

1Edinburgh Bladder Cancer Surgery, Dept. of Urology, Western General Hospital, Edinburgh, United Kingdom, 2University of Edinburgh, Edinburgh, United Kingdom, 3Department of Urology, Queen Elizabeth University Hospital, Glasgow, United Kingdom, 4Department of Urology, Ninewells Hospital, Dundee, United Kingdom, 5Department of Urology, Victoria Hospital, Kirkcaldy, United Kingdom, 6Department of Urology, Raigmore Hospital, Inverness, United Kingdom, 7Department of Urology, University Hospital Monklands, Airdrie, United Kingdom, 8Department of Urology, Aberdeen Royal Infirmary, Aberdeen, United Kingdom, 9Department of Urology, University Hospital Ayr, Ayr, United Kingdom, 10Department of Urology, Dumfries & Galloway Royal Infirmary, Dumfries, United Kingdom, 11Dept. of Urology, Western General Hospital, Edinburgh, United Kingdom, 12Department of Urology, Borders General Hospital, Melrose, United Kingdom, 13Edinburgh Clinical Research Facility, University of Edinburgh, Western General Hospital, Edinburgh, United Kingdom.
P14-4 The Management of T1 Bladder Cancer: An Audit of Practice Against Current Guidelines and Evaluation of Long-Term Outcomes
Mr Ibrahim Jubber1, Dr Euan McKeating1, Dr Jennifer Scott1, Miss Divya Bheenick1, Dr Spencer Brodie1, Mr Muhammad Elmussareh1
1Mid Yorkshire Hospitals NHS Trust, Wakefield, United Kingdom

P14-5 Reduced Dose BCG for Patients with Non-Muscle-Invasive Bladder Cancer in an Era of BCG Shortage: Real-World Experience from a Tertiary Cancer Center
Miss Niyati Lobo1, Dr Kelly Bree2, Dr Patrick Hensley2, Ms Graciela Nogueras-Gonzalez2, Dr Neema Navai2, Dr Colin Dinney2, Dr Ashish Kamat2
1Royal Surrey County Hospital, Guildford, United Kingdom, 2University of Texas MD Anderson Cancer Center, Houston, USA

P14-6 A Never-ending Story? Non-muscle invasive bladder cancer (NMIBC) characteristics following Nephroureterectomy for Upper Tract Transitional Cell Carcinoma (UTUC)
Miss Yasmin Abu Ghanem1, Prof Shamim Khan1, Miss Natalie George1, Mr Ko Ko Zayar Toe1, Mr Akinolu Oluwole Ojo1, Ms Elsie Mensah1, Mr Ramesh Thurairaja1, Mr Sachin Malde1, Miss Kay Thomas1, Mr Matthew Gillett1, Mr Rajesh Nair1
1Guy’s and St Thomas’ NHS Foundation Trust, London, United Kingdom

P14-7 Delayed first recurrence in Low Grade pTa Urothelial Carcinoma precludes early cessation of surveillance: analysis of prospectively maintained data in 658 patients managed across 40 years in one centre
Mr Paramananthan Mariappan1,2, Ms Sorna L Paramananthan3, Dr Amy Forbes4, Ms Grace Loy5, Ms Serena C Baker5, Dr Kenneth M Grigor2,5, Mr Gordon Smith4
1Edinburgh Bladder Cancer Surgery, Dept. of Urology, Western General Hospital, Edinburgh, United Kingdom, 2University of Edinburgh, Edinburgh, United Kingdom, 3Department of Urology, Western General Hospital, Edinburgh, United Kingdom, 4Department of Pathology, Western General Hospital, Edinburgh, United Kingdom

P14-8 The value of negative dipstick for haematuria in patients undergoing surveillance for Low Grade Ta Urothelial Carcinoma – a two-stage prospective clinical study in 524 patients.
Mr Paramananthan Mariappan1,2, Mr Rajan Shah3, Mrs Tanya Lord-McKenzie1, Ms Narelle Gregor1, Mr Antonios Makris4, Mr Matthew Trail4, Ms Jennifer Gray1, Mr Gordon Smith4
1Edinburgh Bladder Cancer Surgery, Dept. of Urology, Western General Hospital, Edinburgh, United Kingdom, 2University of Edinburgh, Edinburgh, United Kingdom, 3University Hospitals Birmingham NHS Foundation Trust, Birmingham, UK, 4Department of Urology, Western General Hospital, Edinburgh, United Kingdom

P14-9 Patient-Derived Organoid Culture as a Model of Non-Muscle Invasive Bladder Cancer. A UK-based Experience
Dr Kelly Ward1, Dr Yao Yiang1, Dr Kassiani Skordilis2, Mr Prashant Patel3, Dr Farhat Khanimi1, Mr Rik Bryan1
1Bladder Cancer Research Centre, University Of Birmingham, Birmingham, UK, 2University Hospitals Birmingham NHS Foundation Trust, Birmingham, UK

P14-10 Epigenetic Modulation as a Novel Target for the Intravesical Treatment of Non-Muscle Invasive Bladder Cancer
Dr Kelly Ward1, Dr Yao Yiang1, Dr Claudia Simm2, Dr Anna-Maria Caridis1, Dr Kassiani Skordilis3, Mr Prashant Patel3, Dr Chas Bountra4, Dr Farhat Khanimi1, Mr Rik Bryan1
1Bladder Cancer Research Centre, University Of Birmingham, Birmingham, UK, 2Department of Biochemistry and Molecular Biology, Monash University, Australia, 3University Hospitals Birmingham NHS Foundation Trust, Birmingham, UK, 4Centre for Medicines Discovery, University of Oxford, Oxford, UK
Wednesday 15 June, 1500-1530, Hall 7

ePoster Session 15
Bladder Cancer: Muscle Invasive

Chairs: Ms Elsie Mensah, Guy’s & Thomas’s Hospital and Mr Arthur McPhee, Addenbrooke’s Hospital, Cambridge

P15-1 Results of the intracorporeal robotic vs open cystectomy (iROC) multi-centre randomised trial

Dr Pramit Khetrapal1, Prof James Catto2, Dr Federico Ricciardi1, Prof Gareth Ambler1, Mr Tarek Al-Hamouri3, Prof Muhammad Shamim Khan4, Mr Ramesh Thurairaja4, Mr Rajesh Nair4, Dr Andrew Feber1, Prof Simon Dixon2, Prof Norman Williams1, Mr Senthil Nathan5, Mr Timothy Briggs3, Mr Ashwin Sridhar3, Mr Imran Ahmed3, Mr Jaimin Bhatt6, Mr Philip Charlesworth7, Mr Christopher Blick7, Mr Marcus Cumberbatch6, Prof Syed Hussain7, Mr Sanjeev Kotwal8, Mr Anthony Kouparris9, Mr John McGrath10, Mr Aidan Noon10, Mr Edward Rowe10, Mr Nikhil Vasev12, Mr Vishwanath Hanchanale13, Mr Daryl Hagan1, Ms Chris Brew-Graves1, Prof John Kelly9

1University College London, London, United Kingdom, 2University of Sheffield, Sheffield, United Kingdom,

FRCS(UROL) REVISION COURSE

26-30 September 2022
College Court, Leicester

For more information contact events@baus.org.uk
Welcome to BAUS 2022. We are enthusiastically looking forward to the first major International Urology Conference. #BAUS22 gives an opportunity to once again network, socially interact and update on scientific progress over the last few years. BAUS sections chairs, course directors and the events team led by Harry Heald, have done a tremendous job in bringing the teaching courses and the skills sessions to you.

#BAUS22 offers a hybrid approach for the Courses, with virtual teaching courses and face to face skills courses. The number of skills courses had to be limited with venue space limitation, but the selection of courses should reach out to the wider membership.

The four different face-to-face skills courses will offer opportunities to get simulation training and helpful pointers and discussions with expert international faculty.

The transperineal prostate biopsy course faculty will be led by Rajan Veeratterapillay and Bhavan Rai along with consultant radiologists and specialist nurses, taking us through the nuances of TP biopsy and prostate MRI.

AnandaKumar Dhanasekharan & Colleagues bring a particularly pertinent course for the post-COVID recovery plan. The Ambulatory treatment options for Benign Prostate Enlargement course has simulation learning for Urolift, Rezum, iTind and green light laser vaporisation.

Another new course is the Introduction to Robotics led by Vishwanath Hanchanale, promising to provide a framework, tips & tricks for Robotic Urological Surgery. This is going to be an indispensable and useful course for beginners and surgical practitioners alike.

For the younger generation looking to Urology as a career, Jennifer Nowers & Megan Thomas (Trainees), with Herman Fernando are running the Urology NTN Simulated Interview for the CT/Fellows looking into entering the Higher urology training programme. This course has a 1:1 opportunity for mock interviews, six different stations, reflecting the NTN interviews.

A new teaching course ‘Neuro-urology for the general urologist’ has been developed by Sheilagh Reed and colleagues.

Popular Sub-speciality Teaching courses on Urodynamics and Paediatric urology have been updated for 2022. BSOT courses on Thriving as a Consultant, Insights into National selection and Students for Urology have been updated for students, trainees, and young Consultants. Courses on Research Methodology course and Genomics in Urology will help us understand the nuances of Research and genomics. The CESR Course (Navigating the CESR route) will provide valuable pointers and steps to the application process and a ‘must view’ for all those considering CESR.

I am looking forward to these opportunities for us to learn and reflect, and deeply grateful to the faculty on behalf of BAUS, for delivering high quality courses.

Best wishes

Joe Philip
Honorary Secretary Elect

* Recording from BAUS 2021
IF YOU'RE NOT ALREADY TALKING TO US YOU SHOULD BE!

We work with registrars, nurses, consultants, trainees, surgeons, industry, decision makers, patients and their families and those with an interest in urological diseases, to improve the nation’s urology care.

TUF offers a range of research programmes, TUF Trials Unit, education and training courses, nurses travel grants and more.

For more information visit: https://www.theurologyfoundation.org/professionals or contact info@tuf.org.uk

The Urology Foundation is a registered charity: 1128683.
Course 1
Clinical Leads Course ‘The Difficult Colleague’

Monday 13 June 2022  1000-1300  Hall 11B
30 Places  Cost: £30

Course Director
Mr Mark Lynch, Consultant Urologist and Clinical Lead, Croydon University Hospital.

Aims & Objectives
Leading a department where everyone is thriving is mostly straightforward but when colleagues start to struggle, events can spiral out of control and put a whole department’s performance at risk. Clinical leads may be untrained & unprepared for the ensuing mayhem and can very quickly feel out of their depth. The clinical leads course addresses this challenging subject by considering different scenarios and hearing from seasoned clinicians about their experiences and practices.

The course will be interactive; there will be ample time for networking. Our aim at BAUS is to build a cohort of clinical leads in the UK who can share experience and support each other. There will also be chance to meet Amy Rylance (Head of Improving Care PCUK) and Kerryn Pratt from Prostate Cancer UK who convene the superb leadership training course – Leading Improvement: Urology Clinical Leads Programme.

Faculty
Dr Nnenna Osuji, Chief Executive of North Middlesex Hospital NHS Trust
Mr Bill Dunsmuir, St Peter’s Hospital, NHS Trust and, Training Programme Director in the KSS Deanery
Mr Sarb Sandu, Kingston Hospital NHS Foundation Trust.
Miss Tharani Nitkunan, Epsom and St Helier University Hospitals NHS Trust.
Mr Tim O’Brien, President-Elect of BAUS & Guy’s Hospital
Courses 2, 3 & 4
Newer Ambulatory Treatment Options for Benign Prostatic Enlargement

Monday 13 June 2022 1100-1230 Hall 6
Monday 13 June 2022 1400-1530 Hall 6
Monday 13 June 2022 1630-1800 Hall 6
20 Places per Course Cost: £40

Course Director
Ananda Kumar Dhanasekaran, Sandwell & West Birmingham Hospitals NHS Trust

Aims & Objectives
This course will provide hands-on training on ambulatory treatment options for BPE like, UroLift, Rezum, ITind, and Green Light vaporization for BPE.

Learning Objectives
1. To introduce the newer treatment options for the benign prostatic enlargement to the participants
2. Hands-on simulation-based training on the principles, procedure and trouble shooting
3. Discuss the existing evidence and guidelines on the newer treatment modalities
4. Empower the participants to choose the best treatment option for their patients
5. Facilitate the participants to start the ambulatory treatment pathway in their practice

Faculty
Mr Vinnie During, New Cross Hospital, Wolverhampton
Ms Kathie Wong, Epson and St. Helier University Hospitals NHS Trust
Mr Banji Adeyoju, Stepping Hill Hospital, Stockport
Mrs Nadine Coull, Kingston Hospital NHSFT, Acting Deputy Medical Director, President Elect, RSM Section of Urology
Mr Kasra Saeb-Parsy, Addenbrooke’s Hospital, Cambridge
Mr Neil Barber, Frimley Park Hospital
Mr Toby Page, Freeman Hospital
Mr Gordon Muir, King’s College Hospital, London
Mr Sanjay Rajpal, Airedale General Hospital
Mr Feras Al Jafaari, NHS Fife, Honorary Senior Lecturer/Speciality Education Lead – ScotGEM, School of Medicine, University of St Andrew

Equipment Provided By:
Course 5
Preparatory Course for Urology NTN Interviews

Monday 13 June 2022  1630-1800  Hall 4
12 Places  Cost: £20

Course Directors
Ms Jennifer Nowers, Royal Stoke University Hospital and Miss Megan Thomas, University Hospital of Wales, Cardiff

Aims & Objectives
The aim of this face-to-face course is to provide a first-hand experience on how to perform in the interview process to be successful in getting an NTN.

Faculty
Mr Anil Krishan, West Midlands NTN Trainee, ST3, University Hospital North Midlands, Stoke-on-Trent
Miss Christina Fontaine, South West NTN Trainee, ST4, Musgrove Park Hospital, Taunton
Miss Hannah Thorman, East of England NTN Trainee, ST3, Queen Elizabeth Hospital, King’s Lynn
Mr Jacob Wilson, South West NTN Trainee, ST3, Cheltenham General Hospital, Cheltenham
Miss Madeline Moore, West Midlands NTN Trainee, ST5, New Cross Hospital, Wolverhampton
Miss Mariele Trimboli, Wales NTN Trainee, ST3, Glangwili Hospital, West Wales
Mr Martin Conner, North London NTN trainee, ST5, Charring Cross Hospital, London
Miss Nadine McCauley, Wales NTN, ST5, University Hospital Wales, Cardiff
Miss Neha Sihra, South London NTN Trainee, ST6, Guy’s and St Thomas’ NHS Foundation Trust, South London
Mr Nimlan Shanmugathas, North Central and East London NTN Trainee, ST3, Royal London Hospital, London
Mr Raghav Varma, West Midlands NTN Trainee, ST3, Hereford County Hospital, Hereford

Equipment Provided By:
Course 6, 7 & 8
LA Transperineal Biopsy of Prostate & MP-MRI Prostate Interpretation for Urologists

Tuesday 14 June 2022 1100-1300 Hall 6
Tuesday 14 June 2022 1400-1530 Hall 6
Tuesday 14 June 2022 1630-1800 Hall 6

20 Places per Course Cost: £40

Directors
Mr Bhavan Rai, Freeman Hospital, Newcastle and Mr Rajan Veeratterapillay, Freeman Hospital, Newcastle

Aims & Objectives
- To discuss the technique for local anaesthetic prostate biopsies (LATP)
- To discuss the setup and equipment required for LATP
- To perform LATP on a simulated model
- To describe the role of MRI in prostate cancer diagnostics
- To identify MRI prostate abnormalities to guide prostate biopsy

Faculty
Dr Andy Mcneill, Freeman Hospital, Newcastle
Dr Ishaana Munjal, Freeman Hospital, Newcastle
Mr Amit Patel, Lister Hospital, Stevenage
Mr Jonah Rusere, Guy’s and St Thomas’ Hospital, London
Mr Matthew Shaw, Freeman Hospital, Newcastle
Mr Tariq Dosani, Freeman Hospital, Newcastle
Mr Edgar Paez, Freeman Hospital, Newcastle
Mr Rahul Gujadhur, Freeman Hospital, Newcastle
Mr Rick Popert, Guy’s and St Thomas’ Hospital, London

Equipment Provided By:

BAUS ACADEMY: ON-SITE COURSES
Course 9 & 10
Introduction to Robotics: Basic Robotic Skills (Urology)

Wednesday 15 June 2022 1100-1300 Hall 6
Wednesday 15 June 2022 1400-1530 Hall 6
20 Places per Course Cost: £40

Director
Mr Vishwanath Hanchanale, Royal Liverpool University Hospital

Suitability
• This course will provide a good understanding of robotic technology and enable the delegates with basic robotic skills (Urology)
• This course is suitable for Consultants/Trainees starting robotic training and Surgical care Practitioners (SCP)

Course Aims and Objectives
• To become familiar with the ergonomics of the da Vinci® Surgical System robot
• To learn the components and Setup of Da Vinci Surgical Robot (Console, Patient Cart and Vision Cart)
• To learn Robotic Instruments Used for Different Robotic Abdominal Procedures
• To learn Robot Docking and Undocking
• To understand the selection process for patient position, da Vinci surgical team position and robotic surgical approaches

Faculty
Mr Mohantha Dooldeniya, Mid Yorks NHS Trust, Wakefield
Mr Bhavan Rai, Freeman Hospital, Newcastle
Miss Nina Patrick, Arrowe Park Hospital, Wirral
Mr Sotonye Tolofari, Salford Royal NHS Trust, Manchester
Mr Jamie Dudley, Surgical Care Practitioner (Urology), Liverpool University Hospitals NHS Foundation Trust
Ms Shirley Jose, Surgical Care Practitioner (Urology), Liverpool University Hospitals NHS Foundation Trust
Course 11
Neurourology for the General Urologist

Course Directors
Ms Sheilagh Reid, Royal Hallamshire Hospital, Sheffield and Ms Mahreen Pakzad, University College Hospital, London

Aims & Objectives
To provide a holistic overview for the urological management of patients with neurological disease for the general urologist.

Structure
Pathophysiology Related to Type of Neurological Problem
Ms Sheilagh Reid, Royal Hallamshire Hospital, Sheffield

Assessment Including VUD
Mr Simon Fulford, The James Cook University Hospital, Middlesbrough

Non-surgical Management Options
Ms Mahreen Pakzad, University College Hospital, London

Surgical Management Options
Mr Ian Beckley, Pinderfields General Hospital, Wakefield

Holistic Management
Ms Sheilagh Reid, Royal Hallamshire Hospital, Sheffield
Mr Ian Beckley, Pinderfields General Hospital, Wakefield

Specific Neurological Conditions and their Management
Ms Mahreen Pakzad, University College Hospital, London
Mr Simon Fulford, The James Cook University Hospital, Middlesbrough

Faculty:
Mr Ian Beckley, Pinderfields General Hospital, Wakefield
Mr Simon Fulford, The James Cook University Hospital, Middlesbrough
Course 12
Paediatric Urology

Course Director
Professor Peter Cuckow, Consultant Urological Surgeon, Great Ormond Street Hospital for Children NHS Trust, London

Aims & Objectives
The aim of this course is to reinforce and support the practice of paediatric urology outside a specialist unit. We are grateful that we can continue to provide a focus on children within the BAUS meeting. There will also be didactic mini lectures on key topics, each led by a paediatric urologist and illustrated by appropriate clinical scenarios. We do hope, as usual, to provide a course that will leave delegates better equipped – be it for forthcoming exams or their next paediatric clinic.

Faculty:
Ms Navroop Johal, Consultant Urological Surgeon, Great Ormond Street Hospital for Children NHS Trust, London
Ms Eleni Papageorgiou, Consultant Urological Surgeon, Great Ormond Street Hospital for Children NHS Trust, London
Mr Divyesh Desai, Consultant Urological Surgeon, Great Ormond Street Hospital for Children NHS Trust, London
Mr Kevin Cao, Great Ormond Street Hospital for Children NHS Trust, London
Mr Yazan Rawashdeh, Consultant Paediatric Urologist, Aarhus University Hospital, Denmark
Course 13
Insights into National Selection

Course Director
Mr Peter Grice, Leicester General Hospital

Aims & Objectives
Aimed at those applying for a National Training Number, this course will be most relevant to CT2s, and trust grade doctors looking to step on to the training programme. Hear from experienced trainees about what they wished they’d known at your stage, discuss the challenges you will face and learn about the opportunities available to you, and most importantly learn how you can get up that next rung on the ladder.

Faculty:
Details to follow
Course 14
The Pathway from being a Medical Student to getting a National Training Number

Course Director
Mr Herman Fernando, Consultant Urologist, University Hospitals North Midlands NHS Trust, Stoke on Trent, SFU Chairman

Outline
Aims & Objectives
Aimed at medical students as well as Foundation and Core Trainees, this course showcases what a career in Urology entails and how to get into a training programme through the many different pathways that may suit your skillset. The new ‘Students for Urology’ society is also introduced, where medical students can now gain early exposure to Urology and look at ways to strengthen their portfolio in order to get into surgical/urological training much sooner. The course is helpful to all those who will be applying for Core Surgical Training or a National Training Number in 2022 and beyond. We have dedicated talks given by multiple trainees and junior doctors, detailing their experiences on how they got their training numbers. We discuss how to get ahead as efficiently as possible, how to find opportunities, overcome obstacles and most importantly, how to tie it all together in the pursuit of attaining a training number.

Course Programme & Faculty

Introduction
Mr Herman Fernando, University Hospitals North Midlands NHS Trust, Stoke on Trent, SFU Chairman

‘From the President’s Office - Message for the future Urologists’
Mr Tim O’Brien, BAUS President, Guy’s and St Thomas’ Hospital, London

‘Students for Urology: a new society for students by students - an introduction’
Dr Syed Zaidi, West Midlands Deanery, President of SFU

‘Careers in Urology’: Blend of Surgical Skills, Medical Minds & Academia
Mr John McGrath, Royal Devon & Exeter NHS Trust

‘Getting started on your Surgical portfolio’
Dr Katerina Konstantinidi, Trent Deanery

‘My path to getting a national training number’ From Core Training directly to Specialty Training
Ms Zoe Panayi, Northwest Deanery

Optimising your year out before entering Specialty Training
Ms Jennifer Nowers, West Midlands Deanery

Academic Clinical Fellowships and NTN(A): Is research your calling?
Ms Samantha Conroy, Yorkshire & Humber Deanery

From Foundation Year 2 to Integrated Surgical Training: A quick run-through?
Dr Caroline Bradley, West Scotland Deanery

Closing remarks
Mr Tony Tien, London (NCE) Deanery, BSoT-SFU Rep
Course 15
CESR Course (Navigating the CESR route)

Course Directors
Ms Mehwash Nadeem, James Cook University Hospital and Mr Ajay Pahuja, Belfast City Hospital

Aims & Objectives
• Identify and gather evidence required for completing a CESR application.
• Learn about key changes in the new ISCP curriculum including application assessment criteria
• Receive practical guidance on how to complete the application process.
• Presentation and Q&A session on the application process from the GMC’s specialist applications team
• Explore the pitfalls in your application and learn how to overcome them.

Faculty:
Ms Mehwash Nadeem, James Cook University Hospital
Mr Ajay Pahuja, Belfast City Hospital
Mr Nitin Shrotri, Chair BAUS working group on Project SAS & Consultant Urologist, East Kent Hospital
Profesor Philip Cornford, SAC Chair & Consultant Urologist, Liverpool University Hospitals
Mr Mark Johnson, CESR Casework Manager, JCS
Ms Tista Chakravarty-Gannon, Head of Outreach Development and Support Operations, GMC
Course 16
Research Methodology

Course Director
Mr Vincent J Gnanapragasam, University of Cambridge

Suitability
This course is suitable for registrars and appointed consultants looking to develop or start research as part of their training or their clinical work. The course is geared to equip trainees or new consultants with the basics of research methodology. Participants are encouraged to have done GCP training prior to enrolling on the course.

Outline
The course is intended to teach the basics of how to undertake and perform research. The course will explore the different types of research which can be undertaken, and the basic components required. The course will cover research ideas including how to participate in clinical trials, lead research and identify sources of funding. Topics will also include how to navigate the modern IRAS, HRA and ethics process and also other regulatory aspects. Trial methodology as will tips and ideas on how to optimise your findings to help you present and publish your work.

The faculty will represent a wide range of expertise and knowledge from both academic and clinical backgrounds to answer any questions participants may have.

Aims & Objectives
At the end of this course participants should have a good understanding of:
• The context of research in the modern NHS
• How to plan and execute a research project
• Common hurdles and barriers in clinical research
• How to join or start a clinical trial
• How to get a study funded form local to national
• How to ensure your results are publishable and impactful
• The current regulatory framework in clinical trials

Faculty
Mr Alastair Lamb, Consultant Urologist and Senior Academic Fellow, University of Oxford
Mr John Aning, Consultant Urologist, Bristol Urological Institute, Southmead Hospital
Mr Richard Skells, Study Manager, Pharmaceutical Company
Ms Anne George, Research Associate, CRUK Cambridge Cancer Centre, University of Cambridge
Mr David Thurtle, Academic Clinical Fellow and SpR, East of England Deanery
Professor Ian Pearce, Consultant Urologist, Manchester Royal Infirmary and Editor, JCU
Mr John McGrath, Royal Devon and Exeter Hospital
Course 17
Male Factor Infertility

Course Directors
Mr Asif Muneer, Consultant Urological Surgeon and Andrologist, University College London Hospitals and Mr Rowland Rees, Consultant Urological Surgeon and Andrologist, University Hospitals Southampton

Outline
This course will provide a comprehensive overview for the diagnosis, medical and surgical management of male factor infertility and assisted reproductive techniques.
Urologists often have limited exposure to diagnosing and treating male factor infertility within their training. The role of the urologist in assessing the infertile male is becoming increasingly important in the diagnostic pathway particularly with the changes in the NHS England commissioning policy. Men with azoospermia should be investigated by a specialist. Urologists are best placed to investigate and treat these patients as well as linking with local fertility units to offer an integrated service.
The course is aimed towards both trainees and consultants.

Aims & Objectives
By the end of the course the delegates should be able to understand the underlying causes and assessment of male infertility and the diagnostic/management pathway in keeping with NHS commissioning policies. Understand the principles of complex surgery for surgical sperm retrieval and offering a service within their network.
The course aims to provide trainees with the essential background for FRCS(Urol) preparation and also provides established Consultants who are interested in developing a practice an opportunity to gain advice on setting up the service, obtaining mentorship and tips on how to develop fertility pathways.

Faculty
Mr Rowland Rees, University Hospital Southampton
Mr Hussain Alnajjar, University College London Hospitals
Miss Pippa Sangster, University College Hospital, London
Dr Lynne Robinson, Birmingham Women's NHS Foundation Trust
Course 18
Penile Cancer

Course Directors
Mr Arie Parnham, Christie Hospital, Manchester and Miss Ayo Kalejaiye, University Hospitals, Birmingham

Aims & Objectives
• Recognise common genital skin dermatoses including premalignant disease and basic management
• Understand diagnostic options for penile cancer including biopsy and imaging of the primary
• Understand the evidence underpinning rationale for penile preserving surgery
• Understand the treatment options in management of the primary including surgical, radiotherapy and brachytherapy
• Understand the importance of lymph node staging and treatment
• Understand the surgical options in staging and management of inguinal and pelvic nodes
• Have a basic understanding of adjuvant and neoadjuvant treatment for penile cancer
• Understand the palliative care options in advanced penile cancer

Faculty
Mr Asif Muneer, Honorary Secretary of BAUS & University College Hospital
Mr Ben Ayres, St George’s Hospital, London
Professor Dr Maarten Albersen, UZ Leuven, Belgium
Dr Anna Tran, Christie Hospital, Manchester
Course 19
Management of Andrological Emergencies Course

Course Directors
Mr Richard Pearcy, Derriford Hospital, Plymouth and Miss Ayo Kalejaiye, University Hospitals, Birmingham

Suitability
All trainees especially those preparing for FRCS Urol, urologists, nurses with a specialist interest in andrology

Outline
Andrology emergencies are rare. This course will provide a comprehensive understanding of the anatomical and pathophysiology of the commonest andrological emergencies. This will include the latest research and guidelines for the management of these conditions. At the end of the course, participants will be able to confidently recognise and manage these emergencies.

Aims & Objectives
• Understand the anatomy of genital injuries
• Understand the assessment of suspected genital injuries
• Understand the role of radiology in the diagnosis and management of genital injuries
• Understand the evidence supporting current management of genital injuries
• Understand the management options of genital injuries
• Understand long term consequences of genital injuries

Faculty
Miss Karen Randhawa, Western HSC Trust Northern Ireland
Mr CJ Shukler, Western General Hospital, Edinburgh
Mr Paul Anderson, Russell’s Hall Hospital, Birmingham
Ms Saskia Morgenstern, Consultant in genito-urethral reconstructive surgery; Frankfurt, Germany
Mr Miles Walkden, University College Hospital, London
Mr Anthony Adimone, Trainee with specialist interest in andrology; Northeast deanery
Miss Abi Kanthabaln, Trainee with specialist interest in andrology; West Midlands deanery
Course 20
Optimising Bladder Cancer Care - a ‘Real-World’ Masterclass

Course Directors
Mr Dominic Hodgson, Consultant Urologist, Portsmouth Hospitals University NHS Trust and Mr Arthur McPhee, Consultant Urologist, Addenbrooke’s Hospital, Cambridge

Suitability
For Urologists providing bladder cancer care

Outline
We know that bladder cancer outcomes haven’t changed significantly over recent decades and yet timely diagnosis and treatment improve outcome. We feel, then, that incremental gains in bladder cancer pathways will impact positively, and that, as clinicians, it is beholden on us to do all we can to optimise these. The faculty have been tasked by the GIRFT academy to review such pathways and this course will describe the outcomes of that work.

Aims & Objectives
• Explain approaches to modern diagnostic and treatment in the outpatient setting
• Explore how day-case TURBT can become the norm
• Describe quality indicators in TURBT and how these can be achieved in the “real-world”
• Consider bladder cancer guidelines and stratification
• Outline strategies for management of recurrent disease
• Discuss how BAUS and allied organisations can progress the cause of bladder cancer care in the future

Faculty
Mr Param Mariappan, Western General Hospital, Edinburgh
Ms Jo Cresswell, James Cook University Hospital, Middlesbrough
Mr Hamid Abboudi, Imperial Healthcare NHS Trust, London
Ms Alex Colquhoun, Addenbrooke’s Hospital, Cambridge
Dr Mary Stocker, Torbay and South Devon NHS Foundation Trust
Course 21
Good Urodynamics Practice

Course Director
Professor Hashim Hashim, Bristol Urological Institute

Aims & Objectives
This course aims to provide focused teaching to enable urologists to improve their skills in urodynamics. There will be an emphasis on practical aspects of urodynamics including interpretation of traces, quality control and troubleshooting. All the speakers are involved in similar courses, which have been running successfully in the United Kingdom and Internationally. The small group format has been shown to work well in addressing individual needs. Access to teaching aids will simulate the clinical scenario as much as possible. The aim is to teach and emphasise good urodynamic practice using accepted international standards. At the end of the workshop delegates should feel more confident in their practice of urodynamics, specifically interpretation of traces which is a required skill for the FRCS (Urol) viva examination.

Faculty
Ms Emily Collinshaw, Clinical Scientist, Freeman Hospital, Newcastle-upon-Tyne
Mr Andrew Gammie, Clinical Engineer, Bristol Urological Institute, Bristol
Mr Chris Harding, Freeman Hospital, Newcastle-upon-Tyne
Ms Laura Thomas, Clinical Scientist, Bristol Urological Institute, Bristol
Course 22
Thriving as a Consultant

Course Director
Mr Sunjay Jain, St James’s Hospital, Leeds

Outline
Consultant life presents challenges that can lead to high levels of stress and reduced wellbeing. These are often unrelated to clinical work and poorly covered during surgical training. Recognising this we have previously delivered a two-day consultant ‘bootcamp’ for new consultants. Using content from the bootcamp this course will provide strategies and insights from experienced faculty. While aimed at senior trainees and newly appointed consultants this content will also benefit more established consultants and those in non-consultant career grade posts

Learning Objectives
After attending this course, delegates will:
• Be aware of common pitfalls that may befall a consultant and how to reduce the chances of these happening to them
• Understand how effective leadership strategies can improve team performance and ultimately patient outcomes
• Recognise the importance of coaching and mentoring in ensuring both effectiveness and also resilience

Faculty
Mr Tim O’Brien, President of BAUS and Guy’s Hospital, London
Miss Kay Thomas, Consultant Urologist, Guy’s Hospital London
Course 23
Genomics for Urologists

Course Directors
Mr Vincent J Gnanapragasam, University of Cambridge and Mr John McGrath, Royal Devon and Exeter NHS Trust

Suitability
This course is suitable for all urologists regardless of level of experience and training. It is designed to introduce the participant to genomics and molecular medicine and how it may alter practice in the management of urological disease. It is not designed to be exhaustive but to provide a framework on which to understand new research developments and targeted treatments. No prior knowledge on genomics or molecular biology is assumed.

Outline
The aim of this course is to educate and inform urologists at all levels on the current state of play of genomics in urology and crucially how it will impact clinical practice now and in the near future. The course is structured in 2 parts. The first will cover the general aspects of genomics in medicine and disease. Topics will cover on the plans to introduce genomics into the NHS and how the information is currently used for counselling and treatment decisions. The integration of molecular information into MDT and routine clinical care will be touched on as well as the implications of genetic population-based studies on screening and risk stratified approached to cancer detection and investigation. The second part will include more disease focused areas highlighting the latest findings and how they pertain to and near-future implementation in clinical care and patient's management. The faculty represent a wide range of expertise and knowledge from both academic and clinical backgrounds and are leading figures in the future of genomics in healthcare.

Faculty and Structure
Introduction and course overview
Mr Vincent Gnanapragasam, Reader in Urology & Honorary Consultant Urologist, University of Cambridge, Division of Urology, Department of Surgery, University of Cambridge and Cambridge University Hospitals NHS Trust

A beginner’s guide - Genomics and molecular medicine
Mr John McGrath - Consultant Urologist (Royal Devon and Exeter NHS Trust), Joint Clinical Lead for Urology – GIRFT, Honorary Senior Lecturer, University of Exeter

The NHS Genomic Medicine Service - Delivering a national model for genomic testing in cancer and rare disorders
Professor Bill Newman - Professor of Translational Genomic Medicine in The Manchester Centre for Genomic Medicine at the University of Manchester and Honorary Consultant at Manchester University NHS Foundation Trust. Chair Clinical Reference Group Genomic Medicine Centre

Mainstreaming genomic testing in cancer - A framework for BRCA testing in the NHS as a model
Ms Amanda Pichini - Registered genetic counsellor, Bristol Regional Clinical Genetics Service and Health Education England’s Genomics Education Programme

Genetic epidemiology, what is it and how does it inform cancer management
Professor Ken Muir - Professor of Epidemiology, Division of Population Health, Health Services Research & Primary Care Centre, University of Manchester
EMERGENCY PROCEDURES

Emergency announcement
If it becomes necessary to evacuate the building, the following message will be broadcast: “Ladies and Gentlemen, may I have your attention please. We must ask you to leave the building by the nearest exit as quickly as possible. Do not use the lifts and do not stop to collect personal belongings”

First Aid Emergencies
In cases of medical emergency call Security Control (0121 200 2000 option 1) giving the exact location of the casualty and details of injuries sustained. Security Control will then arrange for all necessary assistance. Alternatively, please contact the nearest Host.

Fire Procedures
An intelligent fire alarm system and audible sounders protect the ICC and Symphony Hall. There are portable fire extinguishers, fire hoses and a sprinkler system throughout.
In the event of discovering a fire in your vicinity:
1) Raise the alarm by breaking the glass in the fire alarm call point.
2) Inform the Security Control Room on an internal telephone by dialling 3333 or inform the nearest Host giving location and nature of the fire.
3) Turn off all electrical equipment in your area, where safe and practicable to do so.
4) Follow Hosts’ instructions.
5) Make your way to the nearest fire exit; do NOT use lifts or escalators.
6) Do NOT go back to collect personal belongings.
7) Report to the assembly point on Civic Centre Estate and await instructions.
8) Please notify a Security Officer if you believe a member of your team is missing.
9) Only return to the building when instructed by a fire officer.

Security
Please remember to be vigilant throughout your event to ensure the safety of your property. If items cannot be watched then it is important that they are properly secured.

Evacuation Area
Located at Civic Centre Estate
