The Cambridge Prostate mpMRI & Biopsy Course

Intended for Radiologists and Urologists

**20th
& 21st** of May 2019
Cambridge, United Kingdom

Course Overview

The quality and advantages of Prostate MRI have re-defined prostate diagnostic practice in recent years. Recent publications of PROMIS, PRECISION and the Hansen BJUi papers strongly advocate the use of mpMRI for lesion detection and biopsy avoidance in the diagnostic pathway.

This established international workshop has traditionally addressed the approach to learning the skills required for this new diagnostic tool and its application using guided biopsies in a multidisciplinary environment involving Radiologists, Urologists and Pathologists. Modules for beginners and advanced readers are provided. We recommend MRIpro as a validated online learning tool to consolidate the skills after the course.

The Cambridge Course has been greeted with unanimous applause not only as the original 2-day annual course since 2013 but also in short course format and seminars at ECRs, Focal Therapy Symposia and the SIU conferences.

External Tutors & Speakers

Prof. Heinz-Peter Schlemmer

Radiology, DKFZ Heidelberg, Germany

Dr. Nienke Hansen

Radiology, University of Cologne, Germany

Dr. Francois Cornud

Radiology, Paris, France

Prof. Ola Bratt

Urology, Sahlgrenska University, Sweden

Prof. Roberto Miano

Urology, University of Rome 'Tor Vergata', Italy

A/Prof. Jeremy Grummet

Urology, Melbourne, Australia

Course & Workshop Format

- Validated course package on various workstations
- Lectures, practical cases and discussion
- EU-ACME points are being applied for (11 EU / 13 RCR awarded to 2017 course)

Local Organisers

Dr. Christof Kastner (Urology)

Dr. Tristan Barrett (Radiology)

Venue

The Møller Centre, Churchill College, Cambridge
United Kingdom

Course Fee & Registration
