South Thames Regional Urology Meeting

Thursday 15th May 2025

Denbies Wine Estate, Bradley Lane, Dorking, RH5 6AA

CPD Points: 6

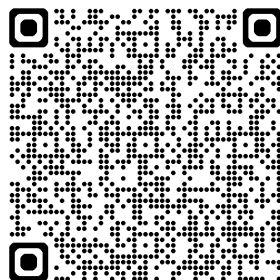

****Abstracts close this week on Thursday 10th April [click here](#) to submit****

Successful applicants will be notified on 25th April.

We are looking forward to seeing you at the upcoming STRUM; 5 weeks to go! Do make sure study leave is in hand and submitted! We welcome all those working within the field of urology, including our wider urology multidisciplinary team.

It would be very appreciated if those attending can kindly complete the pre-registration form using the QR code below or [click here](#), this will greatly aid the venue with anticipating numbers, planning and organisation. Many thanks!

This meeting will only be possible with the support of Industry and our partners (so far) are: **BXTA, Biospectrum and iMEDicare**. In addition we will be hearing of the WATER IV study by Philip Charlesworth, during the Industry sponsored talk by **Procept-BioRobotics**.

We look forward to hearing of work being completed across the regions via abstract presentations and subsequent discussions. We are fortunate to be hosting Prof Ian Pearce, BAUS President and our new BAUS CEO, Mary Suphi. The proposed programme is below.

If anyone would like to attend as KIT day and/or need to bring their baby, then please do contact me directly for further information, as feeding areas can be provided.

Denbies Estate, Dorking is easily reached by car (with free parking) and train (Dorking Station, approx. 20min walk); please do consider car sharing. In view of the stunning location we are pleased to offer a **Wellbeing Walk** prior to the academic meeting. Please meet at 10.45 outside the Denbies reception.

Plus we are pleased to confirm that there will be a post-meeting reception from 1730; 'Unwined' with canapes and an opportunity to sample Denbies wine, plus non-alcoholic options available.

With best wishes, Sophie Rintoul-Hoad

Epsom & St. Helier University Hospitals NHS Trust Urology Consultant
